I Am Enough Grace Byers, 2020-04-14 A #1 New York Times bestseller and Goodreads Choice Awards picture book winner! This is the perfect gift for mothers and daughters, baby showers, and graduation. This gorgeous, lyrical ode to loving who you are, respecting others, and being kind to one another comes from Empire actor and activist Grace Byers and talented newcomer artist Keturah A. Bobo. We are all here for a purpose. We are more than enough. We just need to believe it. Plus don't miss I Believe I Can—the next beautiful picture celebrating self-esteem from Grace Byers and Keturah A. Bobo!

**Caps for Sale** Esphyr Slobodkina,2011-03-22 Caps for Sale is a timeless classic beloved by millions...one of the most popular picture books ever published! This picture book is an excellent choice to share at home or in the classroom, as children love chanting along with the naughty monkeys. Children will delight in following the peddler's efforts to outwit the monkeys and will ask to read it again and again. Caps for Sale is an excellent easy-to-read book that includes repetition, patterns, and colors, perfect for early readers. This tale of a peddler and a band of mischievous monkeys is filled with warmth, humor, and simplicity and also teaches children about problem and resolution. This classic picture book will be appreciated as a birthday, baby shower, or graduation gift! It never fails to get preschoolers chanting along and giggling.

*Twenty Years of Education Transformation in Gauteng 1994 to 2014* Maringe, Felix,Prew, Martin,2015-05-05 Twenty Years of Education Transformation in Gauteng 1994 to 2014: An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994. These essays talk to what a provincial education department does and how and why it does these things - whether it be about policy, resourcing or implementing projects. Each essay is written by one or more specialist in the relevant focus area. The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader. It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years, both nationally and provincially. There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm, and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past. We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years.

The Formative 5 Francis (Skip) Fennell,Beth McCord Kobett,Jonathan A. Wray,2016-12-15 This highly practical and readable book gets right down into the detail of what good formative assessment looks like in math classrooms, and shows how teachers can make this a part of their regular planning and instruction. —Dylan Wiliam, Emeritus Professor of Educational Assessment, University College Imagine how it would feel to not worry about how to plan, teach, and check for student mathematical understandings and related proficiencies. Imagine if this important process felt like a natural, every day, part of your lesson preparation instead of an extra thing to do. This must-have resource shows the way. NCTM Past President, Francis Skip Fennell, and nationally-recognized mathematics educators Beth McCord Kobett and Jonathan (Jon) Wray, offer five of the most impactful, proven assessment techniques—Observations, Interviews, Show Me, Hinge Questions, and Exit Tasks— you can implement, every day. Tried and tested by teachers just like you, you'll find that this palette of classroom-based techniques will truly assess learning and inform teaching. Research and classroom practice indicates that formative assessment is poorly understood. This book gives you a concise, research-based, classroom-dedicated plan with lots

of tools, activities, classroom vignettes, and student work to guide your daily use of these techniques - The Formative 5. Both within and between lessons, K-8 teachers of mathematics will learn to Think and go beyond assessment of learning, focusing on assessment for learning Directly connect assessment to planning and teaching Engineer effective classroom questioning, discussions, and learning tasks Provide success criteria and feedback that moves students forward Integrate the Standards for Mathematical Practice Activate student self-assessors who take ownership of their learning Includes a book study guide, tools and templates, and a companion website with downloadables and multi-media examples of student discussion in the classroom. The Formative 5 will help you build your mathematics-related formative assessment capacity through daily use of these five key techniques, leading to regularly monitored and improved learning opportunities for your students. Now Available: The On-Your-Feet Guide to The Formative 5

*Educational Technology and Pedagogic Encounters* Yusef Waghid,2016-07-15 This book looks at some of the underlying theories of educational technology (means), and ways in which this technology is guided in practice (ends). The authors are intent on producing ends that prepare students to undertake new analyses and evaluations that can result in new possibilities for democratic action. Emphasis is on their understanding of and position within educational technology - as opposed to using or applying educational technology. The work is not written from the point of view that their embeddedness within educational technology has a utilitarian end in mind, but rather that their situatedness within educational technology (a practice in itself) leaves open possibilities for new ways of understanding democratic education. This book is organised into six interrelated themes that work towards the cultivation of educational technology as a human practice which guides pedagogic encounters on the basis of taking risks in relation to which the unexpected, unimaginable is always possible.

**Effects of Government Mandates and Policies on Public Education in Africa, the Caribbean, and the Middle East** Cynthia S Sunal,Oluseyi Matthew Odebiyi,Kagendo Mutua,2022-06-01 As the demand for education at all levels has increased, so have the models of meeting these increased demands for education. As in many other parts of the world, public education has expanded to serve large populations across the regions of Africa, the Caribbean, and the Middle East. Many nations in these regions have instituted mandates, policies, and frameworks intended to simultaneously increase access to public education opportunities as well as improve the quality of education provided and to address a wide populace. Because the increase in educational demand has occurred at all levels, these efforts often address various levels of education from early childhood through primary schooling, junior secondary and secondary schooling and into tertiary education. Efforts also have been made to increase participation in education by marginalized and/or special populations. The range of efforts is large with some focusing on involving migrants/immigrants/refugees in primary education while others aim at opening up choices at the university level. Recently, nations in the region have recognized the possibilities of digital learning (online learning) as cell phones and other widely used portable wireless devices have made it possible to sell the idea that one can

learn from anywhere at any time. This widespread access to technology has made it possible for governments as well as private entities to expand learning opportunities even to populations previously unreached or to address difficult to reach sectors of the population. At the same time, the population itself has not only increased in numbers but in diversity. Maintaining quality through digital and other means of quick expansion of educational opportunities continues to be challenging if not problematic. Effects of Government Mandates and Policies on Public Education in Africa, the Caribbean, and the Middle East is Book IX of the series, Research on Education in Africa, the Caribbean, and the Middle East. Chapters document, describe and/or raise critical issues and/or questions resulting from government policies, mandates and frameworks intended to make available public education to an ever-growing populace while at the same time being mindful of improving quality of education being availed to an increasingly diverse populace.
