I Love Jesus, But I Want to Die Sarah J. Robinson, 2021-05-11 A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

Social (In)Justice and Mental Health Ruth S. Shim, M.D., M.P.H., Sarah Y. Vinson, M.D., 2020-12-09 *Social (In)Justice and Mental Health* introduces readers to the concept of social justice and role that social injustice plays in the identification, diagnosis, and management of mental illnesses and substance use disorders. Unfair and unjust policies and practices, bolstered by deep-seated beliefs about the inferiority of some groups, has led to a small number of people having tremendous advantages, freedoms, and opportunities, while a growing number are denied those liberties and rights. The book provides a framework for thinking about why these inequities exist and persist and provides clinicians with a road map to address these inequalities as they relate to racism, the criminal justice system, and other systems and diagnoses. *Social (In)Justice and Mental Health* addresses the context in which mental health care is delivered, strategies for raising consciousness in the mental health profession, and ways to improve treatment while redressing injustice--

The Hot House Pete Earley, 2011-11-09 A stunning account of life behind bars at the federal penitentiary in Leavenworth, Kansas, where the nation's hardest criminals do hard time. "A page-turner, as compelling and evocative as the finest novel. The best book on prison I've ever read."—Jonathan Kellerman The most dreaded facility in the prison system because of its fierce population, Leavenworth is governed by ruthless clans competing for dominance. Among the "star" players in these pages: Carl Cletus Bowles, the sexual predator with a talent for murder; Dallas Scott, a gang member who has spent almost thirty of his forty-two years behind bars; indomitable Warden Robert Matthews, who put his shoulder against his prison's grim reality; Thomas Silverstein, a sociopath confined in "no human contact" status since 1983; "tough cop" guard Eddie Geouge, the only officer in the penitentiary with the authority to sentence an inmate to "the Hole"; and William Post, a bank robber with a criminal record going back to when he was eight years old—and known as the "Catman" for his devoted care of the cats who live inside the prison walls. Pete Earley, celebrated reporter and author of *Family of Spies*, all but lived for nearly two years inside the primordial world of Leavenworth, where he conducted hundreds of interviews. Out of this unique, extraordinary access comes the riveting story of what life is actually like in the oldest maximum-security prison in the country. Praise for *The Hot House* "Reporting at its very finest."—Los Angeles Times "The book is a large act of courage, its subject an important one, and . . . Earley does it justice."—The Washington Post Book World "[A] riveting, fiercely unsentimental book . . . To [Earley's] credit, he does not romanticize the keepers or the criminals. His cool and concise prose style serves him well. . . . This is a gutsy book."—Chicago Tribune "Harrowing . . . an exceptional work of journalism."—Detroit Free Press "If you're going to read any book about prison, *The Hot House* is the one. . . . It is the most realistic, unbuffed account of prison anywhere in print."—Kansas City Star "A superb piece of reporting."—Tom Clancy

Understanding Mental Disorders American Psychiatric Association, 2023-10-16 *Understanding Mental Disorders: Your Guide to DSM-5-TR* explains mental disorders, their diagnosis, and their treatment in basic terms for those seeking mental health care and for their loved ones. The book is a practical guide to the disorders described in the current edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM). The most recent edition of DSM is the fifth edition text revision, referred to as DSM-5-TR. The American Psychiatric Association (APA) developed *Understanding Mental Disorders:*

Your Guide to DSM-5-TR to help people whose lives have been touched by mental illness. The book was written to help people better understand mental disorders and how to manage them. The APA also publishes DSM. The purpose of DSM is to create a common language for health care providers who diagnose mental illnesses. Understanding Mental Disorders can be a helpful resource when talking with a health care provider before or after a diagnosis is received. The content of this book mirrors that of DSM-5-TR—it describes symptoms, risk factors, and related disorders. It defines mental disorders based on their symptoms and explores special needs or concerns. This new edition of Understanding Mental Disorders reflects changes made to DSM-5-TR and has been fully updated. Understanding Mental Disorders was first published after the publication of DSM-5. Understanding Mental Disorders is designed to help combat mental illness through education about the disorders and their symptoms, know when to seek help, and what to expect from treatment--

Evaluation of the Department of Veterans Affairs Mental Health Services National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee to Evaluate the Department of Veterans Affairs Mental Health Services, 2018-03-29 Approximately 4 million U.S. service members took part in the wars in Afghanistan and Iraq. Shortly after troops started returning from their deployments, some active-duty service members and veterans began experiencing mental health problems. Given the stressors associated with war, it is not surprising that some service members developed such mental health conditions as posttraumatic stress disorder, depression, and substance use disorder. Subsequent epidemiologic studies conducted on military and veteran populations that served in the operations in Afghanistan and Iraq provided scientific evidence that those who fought were in fact being diagnosed with mental illnesses and experiencing mental health-related outcomes—in particular, suicide—at a higher rate than the general population. This report provides a comprehensive assessment of the quality, capacity, and access to mental health care services for veterans who served in the Armed Forces in Operation Enduring Freedom/Operation Iraqi Freedom/Operation New Dawn. It includes an analysis of not only the quality and capacity of mental health care services within the Department of Veterans Affairs, but also barriers faced by patients in utilizing those services.

Raising Human Beings Ross W. Greene, 2016-08-09 In *Raising Human Beings*, the renowned child psychologist and New York Times bestselling author of *Lost at School* and *The Explosive Child* explains how to cultivate a better parent-child relationship while also nurturing empathy, honesty, resilience, and independence. Parents have an important task: figure out who their child is—his or her skills, preferences, beliefs, values, personality traits, goals, and direction—get comfortable with

it, and then help him or her pursue and live a life that is congruent with it. But parents also want to have influence. They want their kid to be independent, but not if he or she is going to make bad choices. They don't want to be harsh and rigid, but nor do they want a noncompliant, disrespectful kid. They want to avoid being too pushy and overbearing, but not if an unmotivated, apathetic kid is what they have to show for it. They want to have a good relationship with their kids, but not if that means being a pushover. They don't want to scream, but they do want to be heard. Good parenting is about striking the balance between a child's characteristics and a parent's desire to have influence. Now Dr. Ross Greene offers a detailed and practical guide for raising kids in a way that enhances relationships, improves communication, and helps kids learn how to resolve disagreements without conflict. Through his well-known model of solving problems collaboratively, parents can forgo time-out and sticker charts, stop badgering, berating, threatening, and punishing, allow their kids to feel heard and validated, and have influence. From homework to hygiene, curfews, to screen time, Raising Human Beings arms parents with the tools they need to raise kids in ways that are non-punitive and non-adversarial and that brings out the best in both parent and child.

Sooner Than Tomorrow Dede Ranahan, 2019-04-08 Welcome to my world. My story is written in diary format. I wrote it from June 16, 2013, to June 15, 2014. What I didn't know, as I was writing, was that I was capturing the last year of my son's life. Pat died, unexpectedly, on July 23, 2014, in a hospital psych ward. Suddenly, my diary morphed into a more poignant record than I'd anticipated, and after he died, I discovered Pat had been making regular posts on Facebook. I decided to add his comments to my own. I like stories where I can extrapolate from the singular to the universal--that is where I can identify with a common denominator in another person's experience. One early reader of my diary said, Your story is so relatable. That's what I hope other readers will say. You may relate to my story if: You have a child (children) you love more than your own life. You have a child who suffers from serious mental illness. You've lost a child--no matter what age. You're a member of the sandwich generation. You treasure conversations with children--especially when they're your grandchildren. Your cat or your dog is in charge of your household. Your bones are beginning to creak. You wake up each morning with a huge hole in your heart but you know, somehow, some way, you have to get up and put one foot in front of the other. You enjoy reading the other side of history--about ordinary people and their daily lives. You have a sense of humor. You've been thinking of leaving something for your descendants--a letter, story, diary, song, painting, or poem--but you haven't gotten around to it. Maybe my diary will spur you on. More notes about the format: I've added a Before section (Scenes from the Trenches). Going in, I want the reader to know Yes, Houston, we really do have a problem. I've divided my diary into quarters--Summer, Fall, Winter, Spring. I introduce each with a poem--three of them are Pat's. I end with an After section I didn't see coming. As I was writing, I had no idea, from day to day, what stories were unfolding. I learn, right along with the reader, what will happen next. We're all on a journey. Thank you for going on this journey with me. Dede Dede posted her story in two-week

increments at www.soonerthantomorrow.com. The following are readers' responses. Beautiful words with an undertone that has caught me . . . carrying me up and down. Such a good writer that I am grateful to be with you. I can borrow some courage here. --Janet So happy for the readers who will discover you. --Liz Dede, every one of your blog posts has a portion that I love so much that I take a screenshot and read it over and over. --Stacey Dede, I anxiously await each posting from your blog/book. You write with such skill, and not easy when it's so personal, but your passion sprinkled with humor are the reasons that this is successful. --Joan L. I've done this, the primal scream and the mother animal instinct. There can't be anything more painful, not even death. My son was a normal little boy and a normal young man until schizophrenia came calling. Now I feel so shattered. I love your diary. --J.H.D. I only this was a contrived drama. It's so visceral. You're an artist. --Heidi F.

Insane Consequences D. J. Jaffe, 2017 In this in-depth critique of the mental healthcare system, a leading advocate for the mentally ill argues that the system fails to adequately treat the most seriously ill. He proposes major reforms to bring help to schizophrenics, the severely bipolar, and others--

Anna, Age Eight Katherine Ortega Courtney, Dominic Cappello, 2017-12-25 With research showing child maltreatment is substantiated for one in eight children in the US, it's clear Adverse Childhood Experiences (ACEs), a broader category of experiences than just maltreatment, are at an epidemic scale in our society ... The authors' main thesis, quite simply, is that protecting all our children is entirely possible, but only when we know the scope of the challenges families face. The book provides a detailed, data-driven analysis of the scope of the problem and how to strengthen systems designed to protect our children--

Preparing for the Unimaginable Laura Usher, Stefanie Friedhoff, Sam Cochran, Anand Panaya, 2018-01-16 While most government agencies are trained in how to react to a mass casualty event such as a terrorist attack or natural disaster, few are prepared to deal with the psychological fallout for first responders. *Preparing for the Unimaginable* fills that void. This book is the product of the National Alliance on Mental Illness's work with the Newtown, Connecticut, police force in efforts to cope with the shooting at Sandy Hook Elementary school that left twenty six people, including twenty children, dead. This unique publication offers expert advice and practical tips for helping officers to heal emotionally, managing the public, dealing with the media, building relationships with other first responder agencies, and much more. Complete with firsthand accounts of chiefs and officers that have guided their departments through mass casualty events, *Preparing for the Unimaginable* seeks to provide practical, actionable strategies to protect officer mental health before and after traumatic events.

Born With a Junk Food Deficiency Martha Rosenberg, 2012-04-10 This hard-hitting exposé blows the lid off of everything you thought you knew about Big Pharma and Big Food. What goes on behind the scenes in these industries is more suspicious, more devious, more disreputable than you could have ever imagined. Rosenberg's message is clear: the pharmaceutical and agricultural industries are tainting public health through marketing disguised as medical education and research, aggressive lobbying, and high-level conflicts of interest. If you're concerned about the safety of the drugs you take and the food you eat, you owe it to yourself to read this important book. Having gained the trust of more than twenty doctors, researchers, and experts who were willing to come forward and finally tell all, reporter and editorial cartoonist Rosenberg presents us with her shocking findings. Explosive material from whistle-blowers, scientists, unsealed lawsuits, and Big Pharma's and Big Food's own marketers exposes how these industries put profits before public safety and how the government puts the interests of business before the welfare of consumers, creating a double whammy that pimps the public health. What Rosenberg reveals about government complicity, regulatory food- and drug-safety lapses, and legislative injustices will both shock and appall.

The Namesake Jhumpa Lahiri, 2003-04-13 The incredible bestselling first novel from Pulitzer Prize- winning author, Jhumpa Lahiri. 'The kind of writer who makes you want to grab the next person and say Read this!' Amy Tan 'When her grandmother learned of Ashima's pregnancy, she was particularly thrilled at the prospect of naming the family's first sahib. And so Ashima and Ashoke have agreed to put off the decision of what to name the baby until a letter comes...' For now, the label on his hospital cot reads simply BABY BOY GANGULI. But as time passes and still no letter arrives from India, American bureaucracy takes over and demands that 'baby boy Ganguli' be given a name. In a panic, his father decides to nickname him 'Gogol' - after his favourite writer. Brought up as an Indian in suburban America, Gogol Ganguli soon finds himself itching to cast off his awkward name, just as he longs to leave behind the inherited values of his Bengali parents. And so he sets off on his own path through life, a path strewn with conflicting loyalties, love and loss... Spanning three decades and crossing continents, Jhumpa Lahiri's debut novel is a triumph of humane story-telling. Elegant, subtle and moving, *The Namesake* is for everyone who loved the clarity, sympathy and grace of Lahiri's Pulitzer Prize-winning debut story collection, *Interpreter of Maladies*.

Big Food, Big Pharma, Big Lies Martha Rosenberg, 2023-10-15 This hard-hitting exposé by leading national muckraker Martha Rosenberg blows the lid off of everything you thought you knew about Big Pharma and Big Food. What goes on behind the scenes in these industries is more suspicious, more devious, more disreputable than you could have ever imagined. Rosenberg's message is clear: the pharmaceutical and agricultural industries are tainting public health through marketing disguised as medical education and research, aggressive lobbying, and high-level conflicts of interest. If you're concerned about the safety of the drugs you take and the food you eat, you owe it to yourself to read this important book. What Rosenberg reveals about government complicity, regulatory food- and drug-safety lapses, and legislative injustices will both shock and appall. Why have federal meat inspectors become pathetic figureheads in the nation's slaughterhouses, laughed at by plant managers? Why are medical articles that have been exposed in lawsuits as fraudulent still standing and not retracted? Why was meat possibly containing the United States' first mad cow sold to five California restaurants when the government said it wasn't? And why are parents giving their one-year-olds acid reflux medications and their three-year-olds bipolar disorder medications? You'll find the answers to these and many more disturbing questions in this revealing book.

Ending Discrimination Against People with Mental and Substance Use Disorders National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on the Science of Changing Behavioral Health Social Norms, 2016-09-03 Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental health and substance abuse disorders has been a priority in the United States for more than 50 years. The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an

era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. Ending Discrimination Against People with Mental and Substance Use Disorders: The Evidence for Stigma Change explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States.
