The Dali Code & Other Paris Stories Lynn Carol Bird Jeffress, 2009 Fiction. Lynn Jeffress's collection of short stories in THE DALI CODE & OTHER PARIS STORIES is not the usual view of Paris. Salvador Dali, alive and mysterious in Paris, controls the weather from his Montmartre museum; a dwarf lover and his American consort star in a Paris elder porn film; an American house husband, trapped in Paris, escapes to a second life in his privately owned virtual L.A. nightclub; Gertrude Stein's Paris apartment at 27 rue de Fleurus becomes the site of a modern day haunting. Postcard Paris is invisible in these stories, but each bizarre and often comic tale mirrors something exquisitely surreal that is absolutely worth knowing. Or not.

Giraffes on Horseback Salad Josh Frank, Tim Heidecker, 2019-03-19 This lushly illustrated graphic novel re-creates a lost Marx Brothers script written by modern art icon Salvador Dali. Grab some popcorn and take a seat...The curtain is about to rise on a film like no other! But first, the real-life backstory: *Giraffes on Horseback Salad* was a Marx Brothers film written by modern art icon Salvador Dali, who'd befriended Harpo. Rejected by MGM, the script was thought lost forever. Author and lost-film buff Josh Frank unearthed the original script, and Dali's notes and sketches for the project, tucked away in museum archives. With comedian Tim Heidecker and Spanish comics creator Manuela Pertega, he's re-created the film as a graphic novel in all its gorgeous full-color, cinematic, surreal glory. In the story, a businessman named Jimmy (played by Harpo) is drawn to the mysterious Surrealist Woman, whose very presence changes humdrum reality into Dali-esque fantasy. With the help of Groucho and Chico, Jimmy seeks to join her fantastical world—but forces of normalcy threaten to end their romance. Includes new Marx Brothers songs and antics, plus the real-world story behind the historic collaboration.

Six Masters of the Spanish Sonnet Willis Barnstone, 1997 With poems selected and translated by one of the preeminent translators of our day, this bilingual collection of 112 sonnets by six Spanish-language masters of the form ranges in time from the seventeenth to the twentieth centuries and includes the works of poets from Spanish America as well as poets native to Spain. Willis Barnstone's selection of sonnets and the extensive historical and biographical background he supplies serve as a compelling survey of Spanish-language poetry that should be of interest both to lovers of poetry in

general and to scholars of Spanish-language literature in particular. Following an introductory examination of the arrival of the sonnet in Spain and of that nation's poetry up to Francisco de Quevedo, Barnstone takes up his six masters in chronological turn, preceding each with an essay that not only presents the sonneteer under discussion but also continues the carefully delineated history of Spanish-language poetry. Consistently engaging and informative and never dull or pedantic, these essays stand alone as appreciations--in the finest sense of that word--of some of the greatest poets ever to write. It is, however, Barnstone's subtle, musical, clear, and concise translations that form the heart of this collection. As Barnstone himself says, In many ways all my life has been some kind of preparation for this volume.

In Montparnasse Sue Roe, 2020-08-18 Describes with plenty of colour how surrealism, from Rene Magritte's bowler hats to Salvador Dali's watches, was born and developed. - The Times (UK) As she did for the Modernists In Montmartre, noted art historian and biographer Sue Roe now tells the story of the Surrealists in Montparnasse. In Montparnasse begins on the eve of the First World War and ends with the 1936 unveiling of Dalí's Lobster Telephone. As those extraordinary years unfolded, the Surrealists found ever more innovative ways of exploring the interior life, and asking new questions about how to define art. In Montparnasse recounts how this artistic revolution came to be amidst the salons and cafés of that vibrant neighborhood. Sue Roe is both an incisive art critic of these pieces and a beguiling biographer with a fingertip feel for this compelling world. Beginning with Duchamp, Roe then takes us through the rise of the Dada movement, the birth of Surrealist photography with Man Ray, the creation of key works by Ernst, Cocteau, and others, through the arrival of Dalí. On canvas and in their readymades and other works these artists juxtaposed objects never before seen together to make the viewer marvel at the ordinary—and at the workings of the subconscious. We see both how this art came to be and how the artists of Montparnasse lived. Roe puts us with Gertrude Stein in her box seat at the opening of *The Rite of Spring*; with Duchamp as he installs his famous urinal; at a Cocteau theatrical with Picasso and Coco Chanel; with Breton at a session with Freud; and with Man Ray as he romances Kiki de Montparnasse. Stein said it best when she noted that the Surrealists still saw in the common ways of the 19th century, but they complicated things with the bold new vision of the 20th. Their words mark an

enormously important watershed in the history of art—and they forever changed the way we all see the world.

The Medusa Code Murat Ukay, 2022-05-11 Are You Ready to Read the Best Pandemic Science-Fiction Novel of the World? Could there be an important secret that has been hidden for thousands of years in the symbol of the snake climbing the tree, which is the symbol of medicine? Can the source of diseases be the Devil? Could it be a coincidence that the snake figure in the scriptures is also a symbol of Devil? Moreover, could this most evil creature of all ages have been hiding underground, somewhere in the world, using the name of a mythological being the snake-headed 'Medusa'? Moreover, could Hell have actually been there as well? Yes, in fact, everything on Earth began with the first beginning of humanity; with the story of Devil setting him up, that is, being expelled from Heaven. However, everything in our story began at the end of the 1980s, when a group of German scientists digging underground in the depths of the Bavarian forests in southern Germany heard some strange sounds and screams coming from underground. As a result of many years of excavation and drilling, they discovered a tunnel extending thousands of kilometers underground. This tunnel was actually a gate to Hell and Devil. Upon hearing and recording these horrible sounds, they were frightened, and after a while the project was left unfinished. In the early 2020s, a health organization with the world's most secret and evil power, under the leadership of a horrible evil man, Dr. Cornelli, nicknamed 'Frankenstein', in order to reach the source of this sound and communicate with it, he continued this project, which was left unfinished after 40 years, and started a big project called 'Medusa'. This horrible person, who also introduces himself as the 'White Angel of Death', has been secretly managing this project for years in order to develop new species and viruses that will destroy life and humanity on earth through genetic studies by conducting animal experiments among various species in a laboratory. On top of that, his only purpose now is to follow the orders of this Devil that lives underground. By the 2040s, there is no scientific explanation for the cause of rapidly spreading virus outbreaks all over the world. Billions of people are in quarantine, and many have died in these epidemics. Moreover, a series of murders and assassinations, especially involving medical doctors and professors, began at that time. Everyone connected with Herbert Johnson, a professor of History and Mythology who is trying to uncover the truth of the virus, begins to be killed by a horrible chain of assassinations. Prof. Herbert Johnson and everyone he wants to help fight this evil are now waiting for death as a victim in the goal of this evil force, along with billions of people fighting in the grip of the virus. In contrast, the American Archaeologist John Smith and his Russian friend, Professor of Archaeology, Prof. Gregory Kravnik is the only one who can stop them, albeit at the cost of their lives, and for this they have to fight with them. Moreover, if they cannot stop them and this unseen evil force, now their own lives are in danger along with billions of others. The only way to stop this impending

Apocalypse is to find a lost statue of Medusa, the location of which no one knows, located at the entrance to the tunnel leading to this underground hell. Because a secret gate inside this statue of Medusa is the beginning of a long and difficult path towards Devil, the source of all these evils and diseases. The Medusa Code will drag you to one of the 7 gates of Hell in the underground. Are You Ready Gate to Hell?

Avant-Garde Cultural Practices in Spain (1914-1936) ,2016-04-08 This book offers a critical reinterpretation of the Spanish avant-garde, focusing on narrative, transculturality, and intermediality. Narrative, because it prioritizes the analysis of prose over poetry, against the traditional use of critical literature on the subject up to this point. Transculturality, because the Spanish avant-garde simply cannot be understood without the acknowledgement of its multi-linguistic reality and the transnational scope of the experience of Modernism in Europe - of which Spain was an integral yet underexposed component. And intermediality, because the interrelations of painting, photography, film, and literature articulate a correlation and mutual affect among different media, creating a rich cultural tapestry that needs to be addressed. Contributors: Rosa Berland, Jennifer Duprey, Marcos Eymar, Regina Galasso, Eduardo Gregori, Juan Herrero-Senés, John McCulloch, Andrés Pérez-Simón, Lynn Purkey, Domingo Ródenas de Moya, Evelyn Scaramella and Antonio Sáez Delgado.

From Paris to Tlön Delia Ungureanu,2017-11-02 Best International Debut in 2017 (awarded by Romanian General and Comparative Literature Association) Most Prestigious Publication in the Humanities (awarded by the Senate of the University of Bucharest) Surrealism began as a movement in poetry and visual art, but it turned out to have its widest impact worldwide in fiction-including in major world writers who denied any connection to surrealism at all. At the heart of this book are discoveries Delia Ungureanu has made in the archives of Harvard's Widener and Houghton libraries, where she has found that Jorge Luis Borges and Vladimir Nabokov were greatly indebted to surrealism for the creation of the pivotal characters who brought them world fame: Pierre Menard and Lolita. In *From Paris to Tlön: Surrealism as World Literature*, Ungureanu explores the networks of transmission and transformation that turned an avant-garde Parisian movement into a global literary phenomenon. *From Paris to Tlön* gives a fresh account of surrealism's surprising success, exploring the process of artistic transfer by which the surrealist object rapidly evolved from a purely poetic conception to a mainstay of surrealist visual art and then a key element in late modernist and postmodern fiction, from Borges and Nabokov to such disparate writers as Gabriel García Márquez, Haruki Murakami, and Orhan Pamuk in the 21st century.

Intellectual Property Law in France Nicolas Bouche,2017-06-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this monograph provides a survey and analysis of the rules concerning intellectual property rights in France. It covers every type of intellectual property right in depth - copyright and neighbouring rights, patents, utility models, trademarks, trade names, industrial designs, plant variety protection, chip protection, trade secrets, and confidential information. Particular attention is paid throughout to recent developments and trends. The analysis approaches each right in terms of its sources in law and in legislation, and proceeds to such legal issues as subject matter of protection, conditions of protection, ownership, transfer of rights, licences, scope of exclusive rights, limitations, exemptions, duration of protection, infringement, available remedies, and overlapping with other intellectual property rights. The book

provides a clear overview of intellectual property legislation and policy, and at the same time offers practical guidance on which sound preliminary decisions may be based. Lawyers representing parties with interests in France will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative intellectual property law.

Graphics and Text in the Production of Technical Knowledge in China Francesca Bray,Vera Dorofeeva-Lichtmann,Georges Métaillé,2007-10-15 This collection offers a challenging new interpretation of technical knowledge in Chinese thought and practice. Conveying technical knowledge in China through charts, plans or drawings (tu) dates back to antiquity. Earlier studies focused on specialised forms of tu like maps or drawings of machines. Here, however, tu is identified in Chinese terms, viz. as a philosophical category of knowledge production: visual templates for action, spanning a range from mandala to modernist mapping projects, inseparable from writing but with distinctive powers of communication. A distinction is made between two principal types of tu: ritual/symbolic and representational, highlighting essential issues such as historical shifts in their significance, the relations between tu and political power, media for inscribing tu and the impact of printing, and encounters with the West.

The Haunted Self David Lomas,2000-01-01 The question, 'Who am I?' resounded throughout the surrealist movement. The exploration of dreams and the unconscious prompted surrealists to reject the notion of a unified, indivisible self by revealing the subject to be haunted by otherness and instability. In this book David Lomas explores the surrealist concepts of the self and subjectivity from a psychoanalytic viewpoint. Employing a series of case studies devoted to individual artists, Lomas arrives at a radically new account of surrealist art and its cultural and intellectual roots. Weaving together psychoanalytic and historical material, the author analyses works by Ernst, Dali, Masson, Miro and Picasso with regard to

such themes as automatism, hysteria, the uncanny and the abject. Lomas focuses closely on individual artworks, examines the specific circumstances in which they were produced and offers new insights into the artists and their projects as well as the theories of Bataille, Breton and others. Lomas demonstrates the powerful connection between the history of psychoanalysis and the history of surrealism, and along the way shows the unique value of psychoanalytic theory as a tool for the art historian.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
