**The Conspiracy of Allusion** Douglas Kelly.1999 A reference to Macrobius by Chretien de Troyes links his own writing and, by implication, medieval writing in general, to the larger late antique and medieval Latin conception of rewriting as original imitation.

Corpus Jean-Luc Nancy.2009-08-25 How have we thought “the body”? How can we think it anew? The body of mortal creatures, the body politic, the body of letters and of laws, the “mystical body of Christ”—all these (and others) are incorporated in the word Corpus, the title and topic of Jean-Luc Nancy’s masterwork. Corpus is a work of literary force at once phenomenological, sociological, theological, and philosophical in its multiple orientations and approaches. In thirty-six brief sections, Nancy offers us at once an encyclopedia and a polemical program—reviewing classical takes on the “corpus” from Plato, Aristotle, and Saint Paul to Descartes, Hegel, Husserl, and Freud, while demonstrating that the mutations (technological, biological, and political) of our own culture have given rise to the need for a new understanding of the body. He not only tells the story of this cultural change but also explores the promise and responsibilities that such a new understanding entails. The long-awaited English translation is a bold, bravura rendering. To the title essay are added five closely related recent pieces—including a commentary by Antonia Birnbaum—dedicated in large part to the legacy of the “mind-body problem” formulated by Descartes and the challenge it poses to rethinking the ancient problems of the corpus. The last and most poignant of these essays is “The Intruder,” Nancy’s philosophical meditation on his heart transplant. The book also serves as the opening move in Nancy’s larger project called “The deconstruction of Christianity.”

*"The" Red Jews* Andrew Colin Gow.1995 The German legend of the Red Jews, a medieval conflation of the Ten Lost Tribes of Israel with the biblical destroyers Gog and Magog, articulated throughout the Middle Ages and well into the sixteenth century a fundamentally antisemitic strain of popular apocalypticism. This undigested piece of medievalia disappeared as more strictly biblical narratives of the End replaced medieval myth. As a result, the Red Jews have not been noticed by modern historians though they were a universally-known feature of German apocalyptic belief for over three centuries.

**Social Representations for the Anthropocene: Latin American Perspectives** Clarilza Prado de Sousa, Serena Eréndira Serrano Oswald. 2021-04-30 The Anthropocene has become a field of studies in which the influence of human activity on the Earth System and nature is both the main threat and the potential solution. Social Representations Theory has been evolving since the 1960s. It links knowledge and practice in everyday life and is an effective way to deal with systemic crises based on common sense. This book assembles key contributions by Latin American scholars working with social representations in the social sciences that are of conceptual relevance to the study of the Anthropocene and that investigate the societal consequences of complex interrelations between common sense and topics of global relevance, such as the contradictions of sustainable development, the construction of risks beyond risk-perception, health, negotiation and governance in the field of education, gender equality, the usefulness of longitudinal and systemic ethnography and case studies, and agency and the link between inequality, crises and risk society in the context of COVID-19, presenting theoretical and methodological innovations from Spanish, Portuguese and French research that have rarely been available in English. • This is the first book to address the relevance of Social Representations Theory for the Anthropocene as a societal era • It presents the multidisciplinary scope of Social Representations • This book covers emerging research contributions in Social Representations Theory from Latin America • This book presents innovative research and commentaries by established researchers in the field • This multidisciplinary book should be in the libraries of many disciplines in the social sciences and humanities

**The Occult in Modernist Art, Literature, and Cinema** Tessel M. Bauduin, Henrik Johnsson. 2018-05-15 Many modernist and avant-garde artists and authors were fascinated by the occult movements of their day. This volume explores how Occultism came to shape modernist art, literature, and film. Individual chapters examine the presence and role of Occultism in the work of such modernist luminaries as Rainer Maria Rilke, August Strindberg, W.B. Yeats, Joséphin Péladan and the artist Jan Švankmaier, as well as in avant-garde film, post-war Greek Surrealism, and Scandinavian Retrogardism. Combining the theoretical and methodological foundations of the field of Esotericism Studies with those of Literary Studies, Art History, and Cinema Studies, this volume provides in-depth and nuanced perspectives upon the relationship between Occultism and Modernism in the Western arts from the nineteenth century to the present day.

Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Twelve Years a Slave by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

Literary Objets D'art Linda M. Clemente. 1992 The genesis of this book was the coincidence of two readings: Virgil's

Aeneid and Dante's Purgatorio. Each work includes descriptions of art objects, Daedalus' and God's artwork respectively. These descriptions, or ekphraseis, also occur frequently in Old French romances. Too long considered as embellishment or artistic virtuosity, they have received little rigorous critical attention. This book offers a step in that direction by analyzing the narrative significance of art objects in three very different works: the anonymous Eneas, Chrétien de Troyes' Erec et Enide, and Jean Renart's Escoufle. Along with intertextuality and mise en abyme, ekphrasis opens new avenues for interpreting this literature.

**The Book of Nights** Sylvie Germain.1993 The patriarch of the Peniel family, with his own daughter, fathers a son, Victor-Flandrin, who goes on to sire fifteen children of his own. Their stories, in turn, are driven by eccentricity and surges of inexplicable events, but no amount of magic or love can keep the Peniels safe from the murderous engines of the world wars.-Booklist review.

**Fictionalizing heterodoxy** Folke Gernert.2019-06-17 The information overload produced by the printing press and the new forms of the structuring of knowledge are echoed in fictional works. The essays assembled in this book study the textualization of problematic forms of knowledge in medieval and early modern Spanish literature. Literary Works like the Libro buen amor, La Lozana Andaluza, or the Guzmán de Alfarache are read against the backdrop of scientific developments of their times.

**Early Global Interconnectivity across the Indian Ocean World, Volume I** Angela Schottenhammer.2019-02-13 This volume investigates the emergence and spread of maritime commerce and interconnectivity across the Indian Ocean World—the world's first "global economy"—from a longue durée perspective. Spanning from antiquity to the nineteenth century, these essays move beyond the usual focus on geographical sub-regions or thematic aspects to foreground inter- and trans-regional connections. Analyzing multi-lingual records and recent archaeological findings, volume I examines mercantile networks, the role of merchants, routes, and commodities, as well as diasporas and port cities.

**Imagining Contagion in Early Modern Europe** Claire L. Carlin.2005-10-14 The ideological underpinnings of early

modern theories of contagion are dissected in this volume by an integrated team of literary scholars, cultural historians, historians of medicine and art historians. Even today, the spread of disease inspires moralizing discourse and the ostracism of groups thought responsible for contagion; the fear of illness and the desire to make sense of it are demonstrated in the current preoccupation with HIV, SARS, 'mad cow' disease, West Nile virus and avian flu, to cite but a few contemporary examples. *Imagining Contagion in Early Modern Europe* explores the nature of understanding when humanity is faced with threats to its well-being, if not to its very survival.

**Le Songe Du Vieil Pelerin** Philippe de Mezieres, G. W. Coopland. 2009-06-18 This French medieval text is now published in its entirety, accompanied by an introduction and extensive synopses in English. Philippe de Mezieres (1327-1405) was a French soldier, publicist and statesman who travelled widely through much of the Christian world and served a number of rulers, particularly the King of Cyprus and Charles V and VI of France. Throughout his life Philippe de Mezieres was obsessed by the ideal that the West must reform itself in the light of the Christian view of the good life and he urged all Christian rulers to join together in a final crusade to liberate the Holy Land and the eastern Christian empires. This is the underlying theme of *Le Songe du Vieil Pelerin*, Philippe de Mezieres' major work. It is divided into three parts: the first is a wide-ranging survey of the Christian world, the second an examination of the state of France and the third a study of the duties and requirements of authority. The style is highly allegorical but contains much personal observation and historical fact.

**Mont-Saint-Michel and Chartres** Henry Adams. 1904

**Introduction to the Mystery of the Church** Benoit-Dominique de La Soujeole, OP. 2014 *Introduction to the Mystery of the Church* is an ecclesiological survey presenting a doctrinal synthesis of the Church. The author's intention is to propose an overview of this mystery in connection with the entirety of the Christian mystery. The book is divided into two major parts, the first presenting the foundations in the Bible and the tradition up to our day, and the second being an explanatory proposal introducing the reader to the Church's definition and personality and concluding with an exposition of the four properties enunciated in the Creed (one, holy, catholic, and apostolic). The value of this way of proceeding is first and foremost in the proposal of a synthesis that allows one to situate each question in its rightful place, such study being oriented toward a better overall grasp of the subject. As the title suggests, the book is an introduction that should allow the reader to apprehend the mystery in its internal coherence in order subsequently, with the aid of other texts, to be able to enter more deeply into the study of one or other specific point. While this ecclesiology treatise is written from a Catholic point of view, an ecumenical perspective is often present, either through the presentation of divergent views from other Christian confessions or through the proposal for a theological convergence.

**Geoffrey Chaucer in Context** Ian Johnson. 2019-07-11 Provides a rich and varied reference resource, illuminating the

different contexts for Chaucer and his work.

**Dictionary of Foreign Quotations** Robert Collison.1980-06-18

**The Chemical Wedding of Christian Rosenkreutz** Joscelyn Godwin.1991-10-01 The Chemical Wedding of Christian Rosenkreutz, often looked upon as the third Rosicrucian manifesto, has an entirely different tone from the other Rosicrucian documents. Unlike the Rosicrucian manifestoes, which address the transformation of society, The Chemical Wedding is concerned with the inner transformation of the soul. It is a deeply interior work, one which asks the reader to step into its world of symbols and walk with Christian Rosenkreutz along his path of transformation. Despite its importance as a key text of the Western esoteric traditions, this is the first ever contemporary English translation of The Chemical Wedding, made especially for this edition by Joscelyn Godwin. Also included in this edition is an introduction and commentary by Adam McLean, which illuminates the transformative symbolism.

**Music in Cinema** Michel Chion.2021-10-12 Michel Chion is renowned for his explorations of the significance of frequently overlooked elements of cinema, particularly the role of sound. In this inventive and inviting book, Chion considers how cinema has deployed music. He shows how music and film not only complement but also transform each other. The first section of the book examines film music in historical perspective, and the second section addresses the theoretical implications of the crossover between art forms. Chion discusses a vast variety of films across eras, genres, and continents, embracing all the different genres of music that filmmakers have used to tell their stories. Beginning with live accompaniment of silent films in early movie houses, the book analyzes Al Jolson's performance in *The Jazz Singer*, the zither in *The Third Man*, Godard's patchwork sound editing, the synthesizer welcoming the flying saucer in *Close Encounters of the Third Kind*, and the Kinshasa orchestra in *Félicité*, among many more. Chion considers both original scores and incorporation of preexisting works, including the use and reuse of particular composers across cinematic traditions, the introduction of popular music such as jazz and rock, and directors' attraction to atonal and dissonant music as well as *musique concrète*, of which he is a composer. Wide-ranging and original, *Music in Cinema* offers a welcoming overview for students and general readers as well as refreshingly new and valuable perspectives for film scholars.

*Aristotle's Animals in the Middle Ages and Renaissance* Carlos G. Steel, Guy Guldentops, Pieter Beullens. 1999 Aristotle's zoological writings with their wealth of detailed investigations on diverse species of animals have fascinated medieval and Renaissance culture. This volume explores how these texts have been read in various traditions (Arabic, Hebrew, Latin), and how they have been incorporated in different genres (in philosophical and scientific treatises, in florilegia and encyclopedias, in theological symbolism, in moral allegories, and in manuscript illustrations). This multidisciplinary and multilinguistic approach highlights substantial aspects of Aristotle's animals.

Love and its Critics Michael Bryson, Arpi Movsesian. 2017-07-10 This book is a history of love and the challenge love offers to the laws and customs of its times and places, as told through poetry from the Song of Songs to John Milton's Paradise Lost. It is also an account of the critical reception afforded to such literature, and the ways in which criticism has attempted to stifle this challenge. Bryson and Movsesian argue that the poetry they explore celebrates and reinvents the love the troubadour poets of the eleventh and twelfth centuries called fin'amor: love as an end in itself, mutual and freely chosen even in the face of social, religious, or political retribution. Neither eros nor agape, neither exclusively of the body, nor solely of the spirit, this love is a middle path. Alongside this tradition has grown a critical movement that employs a 'hermeneutics of suspicion', in Paul Ricoeur's phrase, to claim that passionate love poetry is not what it seems, and should be properly understood as worship of God, subordination to Empire, or an entanglement with the structures of language itself - in short, the very things it resists. The book engages with some of the seminal literature of the Western canon, including the Bible, the poetry of Ovid, and works by English authors such as William Shakespeare and John Donne, and with criticism that stretches from the earliest readings of the Song of Songs to contemporary academic literature. Lively and enjoyable in its style, it attempts to restore a sense of pleasure to the reading of poetry, and to puncture critical insistence that literature must be outwitted. It will be of value to professional, graduate, and advanced undergraduate scholars of literature, and to the educated general reader interested in treatments of love in poetry throughout history.

**Predictive Technology in Social Media** Cristina Fernández-Rovira, Santiago Giraldo-Luque. 2022-07-07 Can behaviour on social media predict future purchase patterns? Can what we click on social media foresee which political party will we vote for? Can the information we share on our wall foretell the next series I might want to watch? Can the likes on Instagram and Facebook predict the time one will spend on digital platforms in the next hour? The answer is no longer science fiction. It points to the ability of mainstream social media platforms such as Facebook and Twitter to be able to deliver specialised advertising services to highly targeted audience segments controlled by the billions of devices that flood our daily lives. At the same time, it highlights a more relevant problem: can social media guide, suggest or impose a certain behaviour or

thought? Everything seems to indicate that they can do it. Predictive Technology in Social Media comprises 10 essays that reflect on the power of the predictive technology of social media in culture, entertainment, marketing, economics and politics. It shows, from a humanistic and critical perspective, the predictive possibilities of social media platforms, as well as the risks this entails for cultural plurality, everyday consumption, the monopolistic concentration of the economy and attention, and democracy. The text is an invitation to think, as citizens, about the unbridled power we have ceded to digital platforms. A new voice to warn about the greatest concentration of communicative power ever seen in the history of humanity.
