Ma quando il loro bollente incontro porta a conseguenze inaspettate, Nik non può fare altro che combattere perché suo figlio sia incluso nella linea di successione di Drakon. Anche se questo vorrà dire trascinare la dolce Mia fuori dal proprio letto per metterla sul trono e farne la sua regina.

**Dosso's Fate** Dosso Dossi,1998 Dosso Dossi has long been considered one of Renaissance Italy's most intriguing artists. Although a wealth of documents chronicles his life, he remains, in many ways, an enigma, and his art continues to be as elusive as it is compelling. In *Dosso's Fate*, leading scholars from a wide range of disciplines examine the social, intellectual, and historical contexts of his art, focusing on the development of new genres of painting, questions of style and chronology, the influence of courtly culture, and the work of his collaborators, as well as his visual and literary sources and his painting technique. The result is an important and original contribution not only to literature on Dosso Dossi but also to the study of cultural history in early modern Italy.

Azeez knows he must assume the crown—but will this unforgettable woman agree to be his desert queen?

[Images of Colonialism and Decolonisation in the Italian Media](#) Paolo Bertella Farnetti,Cecilia Dau Novelli,2017-11-06 The twentieth century saw a proliferation of media discourses on colonialism and, later, decolonisation. Newspapers, periodicals,

films, radio and TV broadcasts contributed to the construction of the image of the African “Other” across the colonial world. In recent years, a growing body of literature has explored the role of these media in many colonial societies. As regards the Italian context, however, although several works have been published about the links between colonial culture and national identity, none have addressed the specific role of the media and their impact on collective memory (or lack thereof). This book fills that gap, providing a review of images and themes that have surfaced and resurfaced over time. The volume is divided into two sections, each organised around an underlying theme: while the first deals with visual memory and images from the cinema, radio, television and new media, the second addresses the role of the printed press, graphic novels and comics, photography and trading cards.

And despite Ari’s devastating good looks, she has no desire to. Or at least that’s what she keeps telling herself! Ari shouldn’t find his own secretary attractive, but something about her calls to him. He knows there is only one way to overcome this desire—and that is to sate it. Three weeks in Athens should be enough time to get to know his sensible secretary better . . . !

*From Darkness to Light: Writers in Museums 1798-1898* Katherine Manthorne, 2019 From Darkness to Light explores from a variety of angles the subject of museum lighting in exhibition spaces in America, Japan, and Western Europe throughout the nineteenth and twentieth centuries. Written by an array of international experts, these collected essays gather perspectives from a diverse range of cultural sensibilities. From sensitive discussions of Tintoretto's unique approach to the play of light and darkness as exhibited in the Scuola Grande di San Rocco in Venice, to the development of museum lighting as part of Japanese artistic self-fashioning, via the story of an epic American painting on tour, museum illumination in the work of Henry James, and lighting alterations at Chatsworth (to name only a few topics) this book is a treasure trove of illuminating contributions. The collection is at once a refreshing insight for the enthusiastic museum-goer, who is brought to an awareness of the exhibit in its immediate environment, and a wide-ranging scholarly compendium for the professional who seeks to proceed in their academic or curatorial work with a more enlightened sense of the lighted space.--Publisher's website.

Far away from his desert kingdom, Prince Shahir enjoys the serenity of his castle retreat in Scotland. Noun+Noun Compounds in Italian Radimský Jan,2015-12-28 This book investigates one concrete compounding pattern in present-day Italian within a larger overview of Italian compounding. Various accounts and classifications of Noun + Noun combinations in Italian are reviewed, with special focus on the status of the lexical integrity hypothesis. The author sets out to propose an integrated approach to the Noun + Noun compounding pattern, rigorously based on large representative data sets that were extracted from the Italian web corpus ItWaC as both automatically and manually post-processed frequency lists. On the basis of such data, it is aimed to show the behaviour of various subtypes of Noun + Noun compounds. Starting out with the Bisetto-Scalise classification, the author carefully examines the status of coordinate compounds, ATAP compounds (i.e., the group comprising attributive and appositive structures) and subordinate compounds (comprising verbal-nexus and grounding compounds), discussing both theoretical and empirical implications of this classification scheme. Moreover, the original Bisetto-Scalise model is supplemented with further classification levels in order to capture specific compounding types such as relational (i.e. inherently trinominal) compounds. A major merit of the present study lies in the quantitative dimension of the data it deals with. In light of this data, the author emphasizes the gradient nature of the traditional dichotomy between syntax and compounding. The book will thus appeal not only to the linguists interested specifically in Italian word-formation, but also to a larger community of scholars who seek a more general view of the word-formation phenomena.

Hidden Histories D. Medina Lasansky,2018-01-10 Tuscany is a landscape whose cultural construction is complicated and multi-layered. It is this very complexity that this book seeks to untangle. By revealing hidden histories, we learn how food, landscape and architecture are intertwined, as well as the extent to which Italian design and contemporary consumption patterns form a legacy that draws upon the Romantic longings of a century before. In the process, this book reveals the extent to which Tuscany has been constructed by Anglos — and what has been distorted, idealized and even overlooked in the process.
