**Books-In-Brief: Rethinking Muslim Women & The Veil (Albanian Language)** Katherine Bullock,2018-01-01 Until now the bulk of the literature about the veil has been written by outsiders who do not themselves veil. This literature often assumes a condescending tone about veiled women, assuming that they are making uninformed decisions choices about veiling makes them subservient to a patriarchal culture and religion. “Rethinking Muslim Women and the Veil” offers an alternative viewpoint, based on the thoughts and experiences of Muslim women themselves. This is the first time a clear and concise book-length argument has been made for the compatibility between veiling and modernity. Katherine Bullock uncovers positive aspects of the veil that are frequently not perceived by outsiders. “Rethinking Muslim Women and the Veil” looks at the colonial roots of the negative Western stereotype of the veil. It presents interviews with Muslim women to discover their thoughts and experiences with the veil in Canada. The book also offers a positive theory of veiling. The author argues that in consumer capitalist cultures, women can find wearing the veil a liberation from the stifling beauty game that promotes unsafe and unhealthy ideal body images for women. This book also includes an extensive bibliography on topics related to Muslim women and the veil.

**Coaching Basketball Technical & Tactical Skills** Coach Education,2006-11-29 Numerous coaching books cover the skills and drills of basketball, but very few hit on the tactical skills of the game—the situational decisions players and coaches make that often determine the outcome of games. That's where Coaching Basketball Technical and Tactical Skills, an American Sport Education Program (ASEP) publication, stands out. Written by Kathy McGee, the winningest high school girls' basketball coach in Michigan, in consultation with USA Basketball's Don Showalter, this book will prepare you to be a better teacher and tactician of the game whether you coach men's or women's basketball. Technical skills (such as dribbling, shooting, and rebounding) are examined in depth, as are the tactical skills (such as the give-and-go, backdoor cut, and trapping). More than 195 photos and illustrations bring the basic to intermediate skills to life, while sample season and practice plans will help you in your preparation. You'll find quick tips on how to detect and correct errors in both male and

female athletes, cues they need to be aware of in various tactical situations, and key information they need in order to make the appropriate on-court decisions. Produced by ASEP and endorsed by the Women's Basketball Coaches Association (WBCA), this book serves as a resource for the Coaching Basketball Technical and Tactical Skills online course, a part of ASEP's Bronze Level Professional Coaches Education Program. Numerous state high school associations, colleges and universities, national sport organizations, and national governing bodies of Olympic sports use the Bronze Level in whole or in part to qualify coaches. The Bronze Level prepares coaches for all aspects of coaching and is a recognized and respected credential for all who earn it.

**Let's Get Free** Paul Butler, 2010-06-08 Drawing on his personal fascinating story as a prosecutor, a defendant, and an observer of the legal process, Paul Butler offers a sharp and engaging critique of our criminal justice system. He argues against discriminatory drug laws and excessive police power and shows how our policy of mass incarceration erodes communities and perpetuates crime. Controversially, he supports jury nullification—or voting “not guilty” out of principle—as a way for everyday people to take a stand against unfair laws, and he joins with the “Stop Snitching” movement, arguing that the reliance on informants leads to shoddy police work and distrust within communities. Butler offers instead a “hip hop theory of justice,” parsing the messages about crime and punishment found in urban music and culture. Butler’s argument is powerful, edgy, and incisive.

**Baudolino** Umberto Eco, 2011-05-15 BAUDOLINO gravita em torno dos prazeres da corte de Federico Hohenstaufen, conhecido como Barbarossa, à época da Terceira Cruzada. A história engloba justamente o período entre 1152 e 1204, começando com a ascensão de Barbarossa ao trono e terminando com a conquista de Constantinopla pela temida ordem dos cavaleiros templários. A trama é protagonizada por Baudolino - adolescente, criativo e mentiroso que dá título à obra - e Niceta Coniate, personagem inspirado em um historiador e orador que viveu na corte de Constantinopla. A narrativa retrocede, enquanto Baudolino conta a Niceta suas aventuras e desventuras, numa mistura de fantasia e realidade, História e faz-de-conta. Tudo isso temperado por inúmeras situações cômicas. No intervalo, Eco embaralha os seus personagens inventados e produz o mais recorrente efeito de seu texto: interferir em acontecimentos históricos conhecidos por meio de atos ou circunstâncias vividas pelos personagens fictícios.

**Usual Cruelty** Alec Karakatsanis, 2019-10-29 From an award-winning civil rights lawyer, a profound challenge to our society's normalization of the caging of human beings, and the role of the legal profession in perpetuating it Alec Karakatsanis is interested in what we choose to punish. For example, it is a crime in most of America for poor people to wager in the streets over dice; dice-wagerers can be seized, searched, have their assets forfeited, and be locked in cages. It's perfectly fine, by contrast, for people to wager over international currencies, mortgages, or the global supply of wheat; wheat-wagerers become names on the wings of hospitals and museums. He is also troubled by how the legal system works when it is trying to punish people. The bail system, for example, is meant to ensure that people return for court dates. But it has morphed into a way to lock up poor people who have not been convicted of anything. He's so concerned about this that he has personally sued court systems across the country, resulting in literally tens of thousands of people being released from jail when their money bail was found to be unconstitutional. Karakatsanis doesn't think people who have gone to law school, passed the bar, and sworn to uphold the Constitution should be complicit in the mass caging of human beings—an everyday brutality inflicted disproportionately on the bodies and minds of poor people and people of color and for which the legal system has never offered sufficient justification. *Usual Cruelty* is a profoundly radical reconsideration of the American injustice system by someone who is actively, wildly successfully, challenging it.

**A Broom of One's Own** Nancy Peacock, 2009-10-13 For the twice-published novelist, reading an article about herself in the *National Enquirer*—under the headline *Here's One for the Books: Cleaning Lady Is an Acclaimed Author*—was more than a shock. It was an inspiration. In *A Broom of One's Own*, Nancy Peacock, whose first novel was selected by the *New York Times* as a Notable Book of the Year, explores with warmth, wit, and candor what it means to be a writer. An encouragement to all hard-working artists, no matter how they make a living, Peacock's book provides valuable insights and advice on motivation, craft, and criticism while offering hilarious anecdotes about the houses she cleans.

*A New History of Classical Rhetoric* George A. Kennedy, 2009-07-01 George Kennedy's three volumes on classical rhetoric have long been regarded as authoritative treatments of the subject. This new volume, an extensive revision and abridgment of *The Art of Persuasion in Greece*, *The Art of Rhetoric in the Roman World*, and *Greek Rhetoric under Christian Emperors*, provides a comprehensive history of classical rhetoric, one that is sure to become a standard for its time. Kennedy begins by identifying the rhetorical features of early Greek literature that anticipated the formulation of metarhetoric, or a theory of

rhetoric, in the fifth and fourth centuries b.c.e. and then traces the development of that theory through the Greco-Roman period. He gives an account of the teaching of literary and oral composition in schools, and of Greek and Latin oratory as the primary rhetorical genre. He also discusses the overlapping disciplines of ancient philosophy and religion and their interaction with rhetoric. The result is a broad and engaging history of classical rhetoric that will prove especially useful for students and for others who want an overview of classical rhetoric in condensed form.
