## Brett Lantz

*Risuko* David Kudler, 2016-06-15 Samurai, assassins, warlords -- and a girl who likes to climb A historical coming-of-age tale of a young girl who is purchased away from her family to become an assassin. Can she come to terms with who she must be? Though Japan has been devastated by a century of civil war, Risuko just wants to climb trees. Growing up far from the battlefields and court intrigues, the fatherless girl finds herself pulled into a plot that may reunite Japan -- or may destroy it. She is torn from her home and what is left of her family, but finds new friends at a school that may not be what it seems. One of the students — or perhaps one of the teachers — is playing the kitsune. The mischievous fox spirit is searching for... something. What do they want? And what will they do to find it? Magical but historical, Risuko follows her along the first dangerous steps to discovering who she truly is. The first volume of the Seasons of the Sword series! Can one girl win a war? Kano Murasaki, called Risuko (Squirrel) is a young, fatherless girl, more comfortable climbing trees than down on the ground. Yet she finds herself enmeshed in a game where the board is the whole nation of Japan, where the pieces are armies, moved by scheming lords, and a single girl couldn't possibly have the power to change the outcome. Or could she? Historical adventure fiction appropriate for teen readers As featured in Kirkus, Foreword, and on the cover of Publishers Weekly! Tight, exciting, and thoughtful... The characters are nicely varied and all the pieces fit into place deftly. -- Kirkus Reviews Risuko is an artfully crafted novel that evokes a heavy sense of place and enchantment.... Risuko's development and evolution are fascinating to watch in this powerful and relentless coming-of-age adventure. -- Foreword Reviews (spotlight review) Vividly portrayed, flush with cultural detail, and smoothly written. -- BookLife

**Machine Learning with R** Brett Lantz, 2013-10-25 Written as a tutorial to explore and understand the power of R for machine learning. This practical guide that covers all of the need to know topics in a very systematic way. For each machine learning approach, each step in the process is detailed, from preparing the data for analysis to evaluating the results. These steps will build the knowledge you need to apply them to your own data science tasks. Intended for those who want to learn how to use R's machine learning capabilities and gain insight from your data. Perhaps you already know a bit about machine learning, but have never used R; or perhaps you know a little R but are new to machine learning. In either case, this book will get you up and running quickly. It would be helpful to have a bit of familiarity with basic programming concepts, but no prior experience is required.

How to be an Attractive Man Adam Kisiel,2019-10-27 How to be an Attractive Man is a book for men of any age who are searching for effective ways to look and feel better. 101 tips have been divided into seven sections, applying respectively to face, body, personality, mind, clothing, hygiene & grooming and living habits. Some time ago, being a perfectly ordinary-looking guy, I was searching for methods to improve my appearance and found an ocean of ideas, tricks, tips and advice, some obstreperous, some easy, some ridiculous, some brilliant. And some even depended on quasi-psychological ways to influence other people's minds, which is complete nonsense. That search gave me food for thought, which in turn persuaded me to write this guide, because I wanted to select the methods that are the simplest, most effective, and depend entirely on you. When you want someone to become interested in you, you usually think how to make her (or him) find you attractive. That is, you start thinking how to deal with the way they see you, and that approach is - and will always be - wrong. That's why this is not a handbook on how to deal with people, but a guide on how to deal with yourself. The only way for others to find you attractive is to become so. This is a book which aims to show you how to achieve that.

**Futuristic Trends in Network and Communication Technologies** Pradeep Kumar Singh, Marcin Paprzycki, Bharat Bhargava, Jitender Kumar Chhabra, Narottam Chand Kaushal, Yugal Kumar, 2018-12-24 This book constitutes the refereed proceedings of the First International Conference on Futuristic Trends in Network and Communication Technologies, FTNCT 2018, held in Solan, India, in February 2018. The 37 revised full papers presented were carefully reviewed and selected from 239 submissions. The prime aim of the conference is to invite researchers from different domains of network and communication technologies to a single platform to showcase their research ideas. The selected papers are organized in topical sections on communication technologies, Internet of Things (IoT), network technologies, and wireless networks.

An Engineer's Guide to Silicon Valley Startups Piaw Na, 2010 This book covers topics of interest to anyone who wants to work at startups: 1. How do you get a job at a startup? 2. How do I choose which startups to talk to? 3. How does one approach interviewing at a startup? 4. Once an offer is pending, how do I negotiate compensation? 5. Once at a startup, what should I do to maximize any gains from my stock options? Drawing from 17 years of work at various pre-IPO corporations in Silicon Valley, the author provides answers to the above questions, including extensive examples, case studies and detailed background.

**China's Outbound Tourism** Wolfgang Arlt, 2006-09-27 The book analyzes the history and development of Chinese international travelling, the politics and economics behind the upsurge, and the background of the travellers. Experts on key destinations offer their first hand experiences of Chinese outbound tourism.

eCulture Alfredo M. Ronchi, 2009-03-10 Do virtual museums really provide added value to end-users, or do they just contribute to the abundance of images? Does the World Wide Web save endangered cultural heritage, or does it foster a society with less variety? These and other related questions are raised and answered in this book, the result of a long path

across the digital heritage landscape. It provides a comprehensive view on issues and achievements in digital collections and cultural content.

**Communities Dominate Brands** Tomi T. Ahonen, Alan Moore, 2005 *Communities Dominate Brands: Business and marketing challenges for the 21st century* is a book about how the new phenomenon of digitally connected communities are emerging as a force to counterbalance the power of the big brands and advertising. The book explores the problems faced by branding, marketing and advertising facing multiple radical changes in this decade. *Communities Dominate Brands* discusses how disruptive effects of digitalisation and connectedness introduce threats and opportunities. The authors compellingly illustrate how modern consumers are forming communities and peer-groups to pool their power resulting in a dramatic revolution of how businesses interact with their customers. The book provides practical guidance of how to move from obsolete interruptive advertising to interactive engagement marketing and community based communications, with dozens of real business examples from around the world. *Communities Dominate Brands* addresses its topic from a marketing (including advertising and branding) perspective and maintains a rigorous focus on business and profit dimensions of the issues involved. The book discusses such recent phenomena as blogging, virtual environments, mobile phone based swarming and massively multiplayer games. The book introduces a new generation of consumers called Generation-C (for Community). The book also discusses such new concepts as the Connected Age, Reachability, the Four C's, Alpha Users, and introduces Communities as an unavoidable new element into the traditional communication model. Combining the digital trends, modern management theories, and emerging new customer behaviour, *Communities Dominate Brands* arrives to its conclusion, that traditional marketing methods are increasingly ineffective and even becoming counterproductive. The power of the brands and the abuses by marketing have created a vacuum for a counterbalance, and digitally connected communities, the blogosphere, gamers, and especially the always-on connectedness of those on mobile phone networks, are emerging as the counterforce to redress the balance. The power of smart mobs and digitally enlightened communities will react rapidly to marketing excesses as the natural force balancing the power of the brands. The way a business can and must interact with the powerful new communities is through engagement marketing, by enticing the communities to interact with the brands. *Communities Dominate Brands* covers the major changes taking place in business and industry worldwide from leading digitally connected societies such as Finland, Korea, Japan, Hong Kong, UK and the USA. The authors discuss the business relevance of such community related technologies and phenomena such as blogging, CANs, iPod, MMOGs, MVNOs, PVRs, Ringing Tones, SMS text messaging, swarming, VOD. This is the definitive business book on the impact of new technologies, not explaining how technology works, but showing what businesses need to do to make money in the new digitally converging environment. *Communities Dominate Brands* analyses early successes of engaging communities by global brands such as Adidas, Apple, Audi, BBC, Boeing, Coca Cola, eBay, Ford, Google, Guinness, Hush Puppies, Lonely

Planet, MTV, Nokia, Orange, Philips, Red Bull, Sony, Tesco, Tony & Guy, Vodafone, etc. The lessons are amplified with insights from rough punishment by communities suffered by Hutchison/Three networks, Kryptonite locks, Mazda, the Philippines Government, etc. Fully indexed, impeccably researched with documented sources, offering over 50 current business examples and over a dozen case studies, *Communities Dominate Brands* is a hands-on practical business handbook on how to adjust marketing to deal with communities. With tools such as the Four C's and Reachability, the authors provide a competitive head-start to all who want to achieve customer satisfaction and return business in the 21st century.

**The Wooden Sword** Lawrence Wright, 1967

**Applied Parallel Computing: Advanced Scientific Computing** Juha Fagerholm, Juha Haataja, Jari Järvinen, Mikko Lyly, Peter Raback, Ville Savolainen, 2003-08-03 This book constitutes the refereed proceedings of the 6th International Conference on Applied Parallel Computing, PARA 2002, held in Espoo, Finland, in June 2002. The 50 revised full papers presented together with nine keynote lectures were carefully reviewed and selected for inclusion in the proceedings. The papers are organized in topical sections on data mining and knowledge discovery, parallel program development, practical experience in parallel computing, computer science, numerical algorithms with hierarchical memory optimization, numerical methods and algorithms, cluster computing, grid and network technologies, and physics and applications.

**Groups and Interaction** Binxing Fang, Yan Jia, 2019-08-05 The three volume set provides a systematic overview of theories and technique on social network analysis. Volume 2 of the set mainly focuses on the formation and interaction of group behaviors. Users' behavior analysis, sentiment analysis, influence analysis and collective aggregation are discussed in detail as well. It is an essential reference for scientist and professionals in computer science.
