Nuto Revelli

Mussolini's Death March Nuto Revelli, 2013-04-05 In his quest for military glory, Benito Mussolini sent the Italian Eighth Army to the Eastern Front to help fight the Russians, only to have his forces routed within little more than a month of the launch of the Soviet counteroffensives of the winter of 1942-1943. The Cuneense, a division of mountain troops, was hit especially hard, with only a small percentage of its troops straggling back to Italy; the rest were killed in action or died of frostbite or in captivity from malnourishment, overwork, and disease. All told, the Italians suffered roughly 75,000 dead, more than in their six-month campaign in Greece and Albania or in their three years in North Africa. Nuto Revelli, who fought in Russia himself, interviewed forty-three other survivors of the campaign for a book that has become a classic among Italian war memoirs. First published in Italian in 1966 as *La strada del davai*, Revelli's account, now available in English, vividly recaptures the experiences and sobering reflections of these men. It provides a chilling look at an experience that, in English-language writing, has been overshadowed by that of the main actors on the Eastern Front. When news of the rout reached Italy, the shock was devastating. In Revelli's home province of Cuneo, the recruiting territory of the annihilated Cuneense Division, some villages lost almost all men of military age. The resulting rage and bitterness later fueled the partisan war against the Germans and Italian fascists. The veterans of Mussolini's Death March speak candidly of nights in the open, of extreme cold, gnawing hunger, and eruptive madness. Thousands who survived the Soviet onslaught were taken prisoner and died on the so-called *davai* marches-named for Russian guards' command to keep prisoners moving-or later in the camps themselves. Even so, they developed a favorable impression of the Russian people, who provided hospitality in their small houses and aid to the wounded. Together, their recollections provide an eye-opening look at a largely neglected aspect of World War II.

A Drifting Year Dany LaFerrière, 2012-03-23 *A Drifting Year* finds Haitian expatriate Laferrière plagued by his recollections. In this short novel written in stanzas, the young exile arrives in the unfamiliar city of Montreal. Here, he quickly discovers all the things endemic to the Canadian immigrant experience; racism, poverty, and disorientation plague the budding writer. Here is an author at his best when fiction and memoir exploit each other. The dreamscape at the end of the longer novel easily eclipses the cold streets of Montreal and the stinking slums of Port-au-Prince. If *A Drifting Year* is exploratory surgery, *Dead Men* is life-saving trauma. Despite all advances in medicine, time will not be cheated. Only writers

like Laferrière can hope to make the living walk the earth forever. -Excerpt from Hal Niedzvieck's review in Quill and Quire, November 1997

Greek Wisdom Literature and the Middle Ages Francisco Rodríguez Adrados, 2009 In 13th-century Toledo, King Alfonso the Wise fostered the publication of Castilian translations of certain Arabic works that had in turn been translated from Greek and Pehlvi. In this book, which is the revised English version of the Spanish original published under the title of *Modelos griegos de la sabiduría castellana y europea*, the author studies four of these Castilian translations - the *Libro de los Buenos Proverbios*, *Poridad de las Poridades* or *Secreto de secretos*, *Bocados de Oro* and *Historia de la Donzella Teodor* - works of sapiential literature that had an enormous influence in all of Europe. Their Arabic models had been translated from Greek in Bagdad at the instigation of the great caliphs of the 9th century and also in the Fatamid court at Cairo in the 11th century. The traditional view is that this literature is simply of oriental origin, but the author believes that the models were Greek Byzantine works discovered by the Arabs in Syria and Egypt in the 7th and 8th centuries. Their true origin is to be found in the Greek sapiential literature that developed around the figures of Socrates, Plato, Aristotle and Alexander in the Hellenistic, Roman and Byzantine schools of philosophy; its influence can frequently be found reflected in authors of Christian literature. A detailed study of themes, vocabulary and expressions in the works themselves confirms these origins.

The Mothershed Case Stephen J. Rivele, 1992 An account of the shooting death of a L.A. cop describes how two men--a drifter and a model student at New Mexico Institute of Technology--neither of whom knew the other, confessed to the crime. Original.

Whiskey Tales Jean Ray,2018-11-20 Originally published in French in 1925, Whiskey Tales immediately established the reputation of the Belgian master of the weird, Jean Ray (1887-1964), whose writings in the coming years would come to chart

out a literary meeting ground between H.P. Lovecraft and Charles Dickens. A commercial success, the collection earned Ray the appellation of the Belgian Poe. A year later, however, the author would be arrested on charges of embezzlement and serve two years in prison, where he would write some of his best stories. Something of a prequel to later collections such as *Cruise of Shadows* or *Circles of Terror* (both forthcoming from Wakefield Press), *Whiskey Tales* finds Ray embracing the modes of adventure and horror fiction adopted by such contemporaries as Pierre Mac Orlan and Maurice Renard. Taking us from ship's prow to port, from tavern to dead-end lane, these early tales are ruled by the spirits of whiskey and fog, each element blurring the borders between humor and horror, the sentimental and the sinister, the real and the imagined. A handful of these stories first appeared in English in *Weird Tales* in the 1930s, but the majority of this collection has never been translated. This first complete English-language edition is the first in many volumes of Jean Ray's books that Wakefield Press will be bringing out over the coming seasons.
