Greetings from E Street Robert Santelli.2006-09-28 Greetings from E Street celebrates the passionately loved group that has been entertaining the world for 35 years. Written with their cooperation, this fully illustrated informal biography combines rare photographs with 30 removable facsimiles of E Street memorabilia, including Bruce Springsteen's first business card and hand-written set list, and even two fabulous posters. Longtime band intimate Robert Santelli captures the ecstatic highs and devastating lows on the E Street Band's roller coaster ride to stardom. He follows the band from the early days in Asbury Park, New Jersey, to the critical acclaim of *Born to Run*, the mania of *Born in the U.S.A.* and international touring, and each member's unique projects. Throughout, the band's signature combination of friendship, humor, and stellar musicianship is revealed in stories, snapshots, and the ephemera of life of the road. Warm and personal, *Greetings from E Street* is a postcard from the most famous address in rock and roll.

Bohemian Paris Dan Franck.2007-12-01 “[An] epic account of life and loves among artists and writers in Paris from belle époque to world slump.” —William Feather, *The Spectator* A legendary capital of the arts, Paris hosted some of the most legendary developments in world culture—particularly at the beginning of the twentieth century, with the flowering of fauvism, cubism, dadaism, and surrealism. In *Bohemian Paris*, Dan Franck leads us on a vivid and magical tour of the Paris of 1900-1930, a hotbed of artistic creation where we encounter Apollinaire, Modigliani, Cocteau, Matisse, Picasso, Hemingway, and Fitzgerald, working, loving, and struggling to stay afloat. Sixteen pages of black-and-white illustrations are featured. “Franck spins lavish historical, biographical, artistic, and even scandalous details into a narrative that will captivate both serious and casual readers . . . Marvelous and informative.” —Carol J. Binkowski, *Library Journal*

Achtung-Panzer! Heinz Guderian.1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Buyology Martin Lindstrom.2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

Munari's Books Giorgio Maffei. 2015-06-23 One of the greatest graphic designers of the twentieth century—called by Picasso the Leonardo of our time—Italian artist and designer Bruno Munari (1907–1998) considered the book the best medium to communicate his visual ideas, showcase his art, and convey his creative spirit. Primarily produced in large quantities for the general public, his more-than-sixty publications—from design manuals and manifestos to visionary tactile children's books—displayed all the beauty and technical ingenuity of works of art. *Munari's Books*, the first English-language monograph to focus on his remarkable achievements in publishing, examines in detail his seventy-year legacy in print, from his pioneering work as a graphic designer and collaborations with major publishers to his experimental visual projects and innovative contributions to the fields of painting, sculpture, design, photography, and teaching. Featuring critical essays and a wealth of color illustrations, this long-overdue monograph is a visually rich introduction to Munari's remarkably multifaceted career.

Men and Bears AA.VV..2020-01-23 The time of Carnival represents a “wild” time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.
