**Pirates, Jack Tar, and Memory** Paul A. Gilje,William Pencak,2007 These nine essays explore new directions and ways to pursue the elusive Jack Tar--the common sailor in the early modern world. We see him as a pirate, learn something of the ships he sailed, and share his experience in the Revolutionary War and War of 1812. We also see him as a spinner of yarns--a great story teller--helping to mold his own and our national identity, while contributing to the development of a unique American literature. We see some Jacks seeking social mobility. We see others challenging authority aboard ships and during shipwrecks. While Jack in some ways remains elusive, and it is impossible to calculate his movements, as sailor Nathaniel Ames wrote, these essays move us closer to an understanding of his eccentric path.

**Affective Health and Masculinities in South Africa** Hans Reihling, Taylor & Francis Group, 2021-12-13 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
