Sustainable and hybrid technologies, pioneered in small inland watercraft toward the end of the 20th century, have in recent years been scaled up to create integrated electric drives for the largest ocean-going vessels. This comprehensive history traces the birth and rebirth of the electric boat from 1835 to the present, celebrating the Golden Age of electric launches, 1880–1910.

**Affective Health and Masculinities in South Africa** Hans Reihling.2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis

of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

**Bughouse #1** .2015-11-09 Set in a 'bug noir' Manhattan of the nineteen-fifties, Bughouse weaves the story of an ensemble of characters who are essentially human beings with bug-like features, as they dance on the edge of the abyss. Steve Lafler brings alive a lost era of jazz and drugs that evokes a range of emotions and experience rarely seen in comic books.

**Pirates, Jack Tar, and Memory** Paul A. Gilje, William Pencak. 2007 These nine essays explore new directions and ways to pursue the elusive Jack Tar--the common sailor in the early modern world. We see him as a pirate, learn something of the ships he sailed, and share his experience in the Revolutionary War and War of 1812. We also see him as a spinner of yarns--a great story teller--helping to mold his own and our national identity, while contributing to the development of a unique American literature. We see some Jacks seeking social mobility. We see others challenging authority aboard ships and during shipwrecks. While Jack in some ways remains elusive, and it is impossible to calculate his movements, as sailor Nathaniel Ames wrote, these essays move us closer to an understanding of his eccentric path.

**Captured at Sea** Jatin Dua. 2019-12-10 How is it possible for six men to take a Liberian-flagged oil tanker hostage and negotiate a huge pay out for the return of its crew and 2.2 million barrels of crude oil? In his gripping new book, Jatin Dua answers this question by exploring the unprecedented upsurge in maritime piracy off the coast of Somalia in the twenty-first century. Taking the reader inside pirate communities in Somalia, onboard multinational container ships, and within

insurance offices in London, Dua connects modern day pirates to longer histories of trade and disputes over protection. In our increasingly technological world, maritime piracy represents not only an interruption, but an attempt to insert oneself within the world of oceanic trade. Captured at Sea moves beyond the binaries of legal and illegal to illustrate how the seas continue to be key sites of global regulation, connectivity, and commerce today.

Radar Instruction Manual United States. Maritime Administration,United States Marine Corps.2005 Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

My favorite part about DigiLibraries.com is that you can click on any of the categories on the left side of the page to quickly see free Kindle books that only fall into that category. It really speeds up the work of narrowing down the books to find what I'm looking for. The split between "free public domain ebooks" and "free original ebooks" is surprisingly even. A big chunk of the public domain titles are short stories and a lot of the original titles are fanfiction. Still, if you do a bit of digging around, you'll find some interesting stories. GetFreeBooks: Download original ebooks here that authors give away for free. Obooko: Obooko offers thousands of ebooks for free that the original authors have submitted. You can also borrow and lend Kindle books to your friends and family. Here's a guide on how to share Kindle ebooks.
