German Army Uniforms of World War II Stephen Bull.2021-02-04 In the years after World War I, the defeated and much-reduced German Army developed new clothing and personal equipment that drew upon the lessons learned in the trenches. In place of the wide variety of uniforms and insignia that had been worn by the Imperial German Army, a standardized

approach was followed, culminating in the uniform items introduced in the 1930s as the Nazi Party came to shape every aspect of German national life. The outbreak of war in 1939 prompted further adaptations and simplifications of uniforms and insignia, while the increasing use of camouflaged items and the accelerated pace of weapons development led to the appearance of new clothing and personal equipment. Medals and awards increased in number as the war went on, with grades being added for existing awards and new decorations introduced to reflect battlefield feats. Specialists such as mountain troops, tank crews and combat engineers were issued distinctive uniform items and kit, while the ever-expanding variety of fronts on which the German Army fought - from the North African desert to the Russian steppe - prompted the rapid development of clothing and equipment for different climates and conditions. In addition, severe shortages of raw materials and the demands of clothing and equipping an army that numbered in the millions forced the simplification of many items and the increasing use of substitute materials in their manufacture. In this fully illustrated book noted authority Dr Stephen Bull examines the German Army's wide range of uniforms, personal equipment, weapons, medals and awards, and offers a comprehensive guide to the transformation that the German Army soldier underwent in the period from September 1939 to May 1945.

**Wireless Imagination** Douglas Kahn, Gregory Whitehead. 1994 By gathering both original essays and several newly translated documents into a single volume, editors Douglas Kahn and Gregory Whitehead provide a close audition to some of the most telling and soundful moments in the deaf century, including the fantastic acoustic scenarios projected through the writings of Raymond Roussel, the gap music of Marcel Duchamp, the varied sonic activities of the early Russian avant-garde and of French Surrealism, the language labyrinths constructed by the producers of New German Horspiel, and the cut-up ventriloquism of William S. Burroughs. Approaches in the essays vary from detailed historical reconstructions to more speculative theory, providing a rich chorus of challenges to the culturally entrenched regime of the visual. Supporting documents include F.T. Marinetti's explosive manifesto on the aesthetics of Futurist radio and the full text of Antonin Artaud's blistering radio performance, *To Have Done with the Judgment of God*.

**Achtung-Panzer!** Heinz Guderian.1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**A Reference Grammar of French** R. E. Batchelor,M. Chebli-Saadi.2011-07-14 A Reference Grammar of French is a lively, wide-ranging and original handbook on the structure of the French language. Also included is a user-friendly introduction to the French language, from its Latin origins to modern times. A full glossary explains any terms that might confuse the less experienced reader, and the index leads the student through the detailed labyrinth of grammatical features. This handbook will be an invaluable resource for students and teachers who want to perfect their knowledge of all aspects of French grammar.

**Experimental Sound and Radio** Allen S. Weiss.2001-06-27 This book, which originally appeared as a special issue of *TDR/The Drama Review*, explores the myriad aesthetic, cultural, and experimental possibilities of radiophony and sound art. Art making and criticism have focused mainly on the visual media. This book, which originally appeared as a special issue of *TDR/The Drama Review*, explores the myriad aesthetic, cultural, and experimental possibilities of radiophony and sound art. Taking the approach that there is no single entity that constitutes radio, but rather a multitude of radios, the essays explore various aspects of its apparatus, practice, forms, and utopias. The approaches include historical, political, popular cultural, archeological, semiotic, and feminist. Topics include the formal properties of radiophony, the disembodiment of the radiophonic voice, aesthetic implications of psychopathology, gender differences in broadcast musical voices and in narrative

radio, erotic fantasy, and radio as an electronic memento mori. The book includes a new piece by Allen Weiss on the origins of sound recording. Contributors John Corbett, Tony Dove, René Farabet, Richard Foreman, Rev. Dwight Frizzell, Mary Louise Hill, G. X. Jupiter-Larsen, Douglas Kahn, Terri Kapsalis, Alexandra L. M. *Team Teaching at the College Level* Horatio M. Lafauci, Peyton E. Richter. 2016-01-26 Team Teaching at the College Level describes a college-level team teaching program which affords unusual opportunities for developing an educational environment that fosters productive personal relationships between and among college students and faculty. The book describes the nature and scope of selected team teaching programs; the manner in which such programs can be administered; the potential impact of team teaching on a developing curriculum; the role of faculty and students who constitute the teaching-learning team; the particular housing requirements of team teaching programs; and finally, the limitations and future prospects of this emerging concept. In the following chapters frequent reference is made to the philosophy, program, and methodology of Boston University's College of Basic Studies, where a team system was first developed in 1949 and where an entire collegiate two-year program of studies functions on a team teaching plan. This College's extensive experience with team teaching has made possible refinements which may interest those seeking to broaden their understanding of the potential role and function of team teaching in higher education. \* Rich in case studies, examples, and in-chapter elements that focus on the challenges of launching and operating a technology venture \* In-depth examination of intellectual property development, valuation, deal structuring, and equity preservation, issues of most relevance to technology start-ups \* Extensive discussion of technology management and continuous innovation as a competitive advantage \* Addresses the issue of leading, managing, motivating, and compensating technical workers \* More time on the fundamentals of marketing and selling, as these are elements of entrepreneurship commonly most neglected by engineers and scientists

**The Aesthetics of Excess** Allen S. Weiss. 1989-01-01 This book investigates the reciprocal and often transgressive relations between rhetorical figures and libidinal activity. The works of Nietzsche, Artaud, Bataille, Klossowski, and Sade are reconsidered in light of the modernist and postmodernist problematics of simulacra, fascination, sublimation and desublimation, perversion, deconstruction, and libidinal economies. Reading across the boundaries of philosophy, art history, comparative literature, film studies, and psychoanalytic theory, this work reveals the manner in which theoretical discourse is imbued with passional motivations, and, conversely, shows how the passions are structured according to logical and rhetorical figures. In offering specific rereadings of several key figures of our modernist tradition, this work helps identify the sources of the 'postmodern condition.' It thus provides a theoretical foundation for contemporary art and literary criticism--

especially of those works to be found at the margins of our culture.

**Buyology** Martin Lindstrom.2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In Buyology, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? Buyology is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

*Arabic Administration in Norman Sicily* Jeremy Johns.2002-10-07 In the late eleventh century, Sicily - originally part of the Islamic world - was captured by Norman, French and Italian adventurers, led by Roger de Hauteville. For the next 150 years, Roger and his descendants ruled the island and its predominantly Arabic-speaking Muslim population. Jeremy Johns' 2002 book represents a comprehensive account of the Arabic administration of Norman Sicily. While it has generally been assumed that the Normans simply inherited their Arabic administration from the Muslim governors of the island, the author uses the unique Sicilian Arabic documents to demonstrate that the Norman kings restructured their administration on the model of the contemporary administration of Fatimid Egypt. Controversially, he also suggests that, in doing so, their intention was not administrative efficiency but the projection of their royal image. This is a compelling and accessible account of the Norman rulers and how they related to their counterparts in the Muslim Mediterranean.

*The Acharnians* Aristophanes.2021-04-25 Acharnians is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance from some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.

*Jean Desmet and the Early Dutch Film Trade* Ivo Blom,Ivo Leopold Blom.2003 The Netherlands Film Museum's Desmet Collection contains the estate of Dutch cinema owner and film distributor Jean Desmet (1875-1956): almost nine hundred European and American films of all genres, a collection of publicity material, and a massive business archive. These three

sources form the basis of this book, the first comprehensive reconstruction of Desmet's career. **Ida Lupino** Ida Lupino, Mary Ann Anderson.2011-12 Ida Lupino did not want to be an actress; composing and writing were her major interests. Ida branched out into film directing and producing in 1949, becoming one of two women to enter the male-dominated field. While her feature films were primarily aimed at female audiences, on television Ida Lupino quickly became known for her skill at directing westerns, mysteries and detective dramas - shows aimed at male viewers and many featuring all-male casts. No one ever asked me to direct a love story, she said. About the Author Mary Ann Anderson has had a varied and extensive career in the world of show business. She was exposed to the entertainment industry early on as the daughter of Emily McLaughlin, who played nurse Jesse Brewer for more than 25 years in ABC's General Hospital. As an author, Mary Ann has published *Portrait of a Soap Star: The Emily McLaughlin Story*. Mary Ann served as conservator for Ida Lupino, the actress and director, from 1984 to 1995. Many Brentwood residents who lived on Old Oak Lane recall the time Miss Lupino set her mailbox on fire. She also delighted in watering her lawn and the neighbors - not the neighbors' lawns, but the neighbors! Through her association with Miss Lupino, Mary Ann met many other legends of Old Hollywood, such as Olivia de Havilland, Joan Fontaine, Barbara Hale and Marie Windsor. Mary Ann has been instrumental in bringing the stories of Ida Lupino to A&E's *Biography* and Jeffrey Hunter to E!'s *Mysteries and Scandals*, by researching, writing and appearing in them. She also worked on the *Ida Lupino Paper Doll Book*, released by Paper Studio Press.

**The Mousterian Sequence of Hummal (Syria)** Thomas C. Hauck.2013 A sequence of more than 60 Palaeolithic

cultural layers makes the well-site of Hummal in the arid steppe region of El Kowm [Central Syria], that has been investigated since 2002, a very important site. Since about one million years ago, humans repeatedly occupied the area of the spring during a range of environmental conditions. This study deals with the upper most part of a sequence of more than 30 Mousterian strata. While organic remains such as animal bones are badly preserved and therefore rare, the stone artefacts provide rich material for a techno-typological analysis. Herds of grazing wild animals such as horses, gazelles, ostriches, and camels gathered at the waterhole in the course of their annual migrations and were hunted by humans. Additionally, the site had ready access to high-quality flint. The presence, absence, relative frequency, and size of certain artefact types such as cores, cortical flakes, and tools allow the reconstruction of different supply strategies. For obtaining standardised blanks, two variants of the Levallois method were applied. They served for the production of different tools in the course of time.
