Scapegoats of the Empire George Witton.2023-11-20 Scapegoats of the Empire is an autobiography by George Witton. Witton was a lieutenant in the Bushveldt Carbineers in the Boer War in South Africa during the early 20th century. Excerpt: Life in camp at Beira was almost a repetition of Langwarrin, being principally occupied in attending to and exercising the horses. On my arrival in camp I was instructed by Captain Dallimore to act as squadron-quartermaster-sergeant; my duties were to see that rations and forage were drawn daily and all camp equipment kept in order. Occasionally I went out on the veldt when exercising the horses; there appeared to be plenty of game about, and whenever a small buck rose up close to us there would be a hue-and-cry after it. Sometimes we would succeed in running it down in the long grass.

Infrastructure & Governance Sameer Kochhar.2008 This compilation has emerged from a recent National Consultation on Infrastructure and Governance called India @ Work Summit, organised by Skoch Consultancy Services, providing critical insights into the subject of infrastructure and governance, all pointing to a common goal of inclusive growth. The book opens with a chapter entitled: Participatory Democracy, Infrastructure and Empowerment. Offering the concerned reader the collective wisdom of eminent policy makers and distinguished experts, the content in this volume is organised under seven sections.

Sustainable Resource Management Chaudhery Mustansar Hussain, Juan F. Velasco-Munoz.2021-06-20 Sustainable Resource Management: Modern Approaches and Contexts presents the application of the current concept of sustainability to the management of natural resources, such as water, land, minerals and metals using theoretical field knowledge and illustrative real-world examples. Initially, the book defines sustainability, detailing its evolution and how it has been adapted to each of the contexts in which it is used. Furthermore, sustainability is made up of three main areas of science—environmental, social and economic—which are rarely considered together. This book is a complete reference guide to sustainability of natural resources for academics, researchers, practitioners and postgraduate-level students, and more. As sustainability is an interdisciplinary field, linked to most sciences, it is also of use to all fields of science that need to maintain sustainable practices and specific details on the methodologies and techniques needed for sustainable resource management. Provides an integrated approach for modern tools, methodologies and indicators for sustainable resource management Evaluates emerging trends and advanced approaches in sustainable resource management, detailing the most up-to-date research and management considerations Describes advanced sustainable resource management technologies and presents case studies where applicable

Global Tuberculosis Report 2017 World Health Organization.2017-12-13 WHO's Global Tuberculosis Report provides a comprehensive and up-to-date assessment of the TB epidemic and of progress in care and prevention at global, regional and country levels. This is done in the context of recommended global TB strategies and associated targets, and broader development goals. For the period 2016-2035, these are WHO's End TB Strategy and the United Nations' (UN) Sustainable Development Goals (SDGs), which share a common aim: to end the global TB epidemic. The main data sources for the report are annual rounds of global TB data collection implemented by WHO's Global TB Program since 1995 and databases maintained by other WHO departments, UNAIDS and the World Bank. In WHO's 2017 round of global TB data collection, 201 countries and territories that account for over 99% of the world's population and TB cases reported data.

Student Retention & Graduate Destination Moeketsi Letseka.2010 Student attrition has been a perennial theme in South African higher education throughout the decade. In its National Plan for Higher Education (2001), the Department of Education attributed high dropout rates primarily to financial and/or academic exclusions. Four years later, it reported that 30% of students dropped out in their first year of study and a further 20% during their second and third years. Against this backdrop, the erstwhile research programme on Human Resources Development initiated a research project to investigate more thoroughly why students dropped out, what led them to persist in higher education to graduation, and what made for a successful transition to the labour market. The chapters in this volume address these issues in relation to one or more of seven institutional case studies conducted in 2005.

My Reminiscences of the Anglo-Boer War Ben J. Viljoen.2019-12-02 My Reminiscences of the Anglo-Boer War is Viljoen's firsthand experiences of The Second Boer War. Also known as the Boer War, the Anglo-Boer War, or the South African War, this war was a conflict fought between the British Empire and the two Boer Republics (the South African Republic and the Orange Free State) over the Empire's influence in Southern Africa from 1899 to 1902. Excerpt: In offering my readers my reminiscences of the late War, I feel that it is necessary to ask their indulgence and to plead extenuating circumstances for many obvious shortcomings. It should be pointed out that the preparation of this work was attended with many difficulties and disabilities, of which the following were only a few:— (1) This is my first attempt at writing a book, and as a simple Afrikaner I lay no claim to any literary ability.

Nutrition Intervention Strategies in National Development Barbara Underwood.2012-12-02 Nutrition Intervention Strategies in National Development reviews nutritional programs as key components of policy planning for national development in general and health programs in particular. It summarizes research on targeted application of nutrition knowledge in public health and efforts to reduce worldwide malnutrition, and it highlights the importance of planned controlled change in the quality of diet as a preventive strategy against widespread disease. Organized into seven sections encompassing 33 chapters, this volume begins with an overview of the basic concepts of nutrition intervention and some elements of successful nutrition intervention strategies. It then discusses the economic effects of early malnutrition and economic considerations for nutrition intervention programs; the role of the government in income distribution and nutritional improvement; supplementary feeding programs; and strategies for addressing protein energy malnutrition. The reader is also introduced to the nutrition-infection cycle in relation to intervention techniques, nutrient-specific interventions including prevention of iron deficiency, and nutrition education. Scientists, nutritionists, policymakers, medical doctors, economists, education specialists, and health workers concerned with nutrition intervention programs will find this book extremely helpful.

The Palgrave Handbook of Agricultural and Rural Development in Africa Evans S. Osabuohien.2020-07-06 This handbook examines agricultural and rural development in Africa from theoretical, empirical and policy stand points. It discusses the challenges of the United Nations Sustainable Development Goals (SDGs) and assesses how poverty and other development concerns can be addressed in rural communities through agricultural transformation. Additionally, the handbook extends the Post-2015 Development Agenda and it emphasizes the importance of the agricultural sector as it is closely related to the issues of food sustainability, poverty reduction, and employment creation. The contributors suggest multiple evidence-based policies to develop the rural areas through the transformation of the agricultural sector which can

significantly benefit the African continent.
