South-Asian Fiction in English Alex Tickell,2016-04-30 This collection offers an essential, structured survey of contemporary fictions of South Asia in English, and includes specially commissioned chapters on each of the national traditions of the region. It covers less well known writings from Pakistan, Sri Lanka and Bangladesh as well as the more firmly established canon of contemporary Indian literature, and features chapters on important new and emergent forms such as the graphic novel, genre fiction and the short story. It also contextualizes some key 'transformative' aspects of recent fiction such as border and diaspora identities; new middle-class narratives and popular genres; and literary response to terror and conflict. Edited and designed with researchers and students in mind, the book updates existing criticism and represents a readable guide to a dynamic, rapidly changing area of global literature.

Soccer's Neoliberal Pitch John M. Sloop, 2023-05-23 American sports agnostics might raise an eyebrow at the idea that soccer represents a staging ground for progressive cultural, social, and political possibility within the United States. It is just another game, after all, in a society where mass-audience spectator sport largely avoids any political stance in other than a generic, corporate-friendly patriotism. But John Sloop picks up on the work of Laurent Dubois and others to see in American soccer—a sport that has achieved immense participation and popularity even as it struggles to establish major league status—a game that permits surprisingly diverse modes of thinking about national identity because of its marginality. As a rhetorician who engages with both critical theory and culture, John Sloop seeks to read soccer as the game intersects with gender, race, sexuality, class, and the logic of neoliberal values. The result of this engagement is a sense of both enormous possibility, and real constraint. If American soccer offers more possibility because of its marginality, looking at how these cultural, social, and political possibilities are closed off or constrained can provide valuable insights into American culture and values. In *Soccer's Neoliberal Pitch*, Sloop analyzes a host of soccer-adjacent case studies: the equal pay dispute between the US women's national team and the US Soccer Federation, the significance of hooligan literature, the introduction of English soccer to American TV audiences, the strange invisibility of the Mexican soccer league despite its consistent high TV ratings, and the reading of US national teams as underdogs despite the nation's quasi-imperial dominance of the Western hemisphere. While there is a growing bookshelf of titles on soccer and a growing number on American soccer, *Soccer's Neoliberal Pitch* is the first and only book-length analysis of soccer through a rhetorical lens. This book is a model for critical cultural work with sports, with appeal to not only sports studies, but cultural studies, communication, and even gender studies classrooms. It is, independent of its bona fides, an engaging and enjoyable read for the soccer fan and the soccer-curious--

Sport in a Changing World Howard Nixon II, 2015-07-24 This book shows how the dynamic interplay of a powerful golden triangle of sports, media, and business interests with social, cultural, economic, and political forces shapes sport in a changing world. This edition is a condensed and updated version of the first edition, with an emphasis on current social issues in sport. It also has more global content. The golden triangle concept is more developed and applied more extensively. Other key themes of the first edition—power, status, and inequality—are also more developed. New Stop and Think Questions have been added to challenge students to think about the meaning of what they have read. The book is now divided into five sections. The new sections highlight sociology and the sociology of sport; inequality and diversity; globalization and social deviance; major social contexts of sport, including the high school, college, and professional levels; and power, political

economy, and global sports.

Translation and Global Spaces of Power Stefan Baumgarten, Jordi Cornellà-Detrell, 2018-10-09 This book focuses on the role of translation in a globalising world. It presents a series of case studies that explore the ways in which translation is subject to ideology and power play across diverging domains and genres. Broadly based on a discussion of 'translation and the economies of power', the chapters examine an array of contextual and textual factors, ranging from global, regional and institutional power relations to the linguistic, stylistic and rhetorical implications of translation decisions. The book maps the multiple ways in which power relations and ideological positions affect cross-cultural communication, with special reference to repressive practices in history, translation policies, media power and commercial hegemonies. It concludes that future translation research will benefit from a more sustained emphasis on the power of technology and economic capital.

Football and Health Improvement: an Emergent Field Daniel Parnell, Andy Pringle, 2018-04-19 There is developing interest in the use of sporting settings as a channel to connect people to health improvement services and an emerging body of research highlights football as being associated with positive motivational and social elements that support the maintenance of a physically active lifestyle. This text provides insights into a range of issues surrounding the role of football as a vehicle for health improvement for different groups. The contributors to this volume share some of the challenges and the benefits of using professional football settings as a channel for connecting people to health improvement opportunities. These chapters will be of interest to a range of stakeholders involved in research, policy and practice who stand to benefit from building partnerships with colleagues with expertise in (I) conducting evaluation and (II) reporting evaluation and research outcomes in peer-reviewed mediums, reflecting the value of partnerships between football-led health improvement and evaluators. This book was previously published as a special issue of Soccer & Society.

East Midlands English Natalie Braber, Jonnie Robinson, 2018-07-23 This volume will provide a comprehensive yet accessible description of East Midlands English, an area of neglect in linguistic research. Existing publications, which

aggregate the findings of earlier surveys and more recent localised studies presenting an overview of regional speech in the UK, are either lacking up-to-date research data from the East Midlands or simply ignore the region. A coordinated survey of dialects of the East Midlands was part of the Survey of English Dialects (SED) in the 1950s. This data is now over sixty years old and focuses almost exclusively on broad rural dialect speakers. This book will fill the knowledge and literature gaps by comparing vernacular speech in different urban and rural locations in the East Midlands, and examining whether the East Midlands is a 'transition zone' between the North and South. Recordings held by the British Library will be used, and will be supplemented with recordings made with local speakers. Language in the East Midlands is distinctive and there is considerable regional variety, for instance, between speech in the major urban centres of Nottingham, Derby and Leicester. Bringing out this regional variation will also improve our wider understanding of language variation in English. The concept of the East Midlands in itself is not a clear one, and this volume aims to address such issues and to examine what makes the East Midlands an area of itself and what this area includes.

LGBT Football Fans Rory Magrath, 2023-11-10 While recent years have seen the emergence of a significant body of research on LGBT inclusion in sport, little is known about LGBT fans. This book provides the first in-depth examination of LGBT football fans' experiences and sense of place in the contemporary English game. Drawing on almost 100 semi-structured interviews with LGBT fans, it explores several important findings, including how these fans represent 'authentic' notions of fandom, the emergence of LGBT Fan Groups, improved stadium environment for LGBT fans, LGBT-themed chanting and the role of governing bodies and professional football clubs. The research presented in this book extends current theorising of under-represented groups of sports fans. This is fascinating and important reading for those with an interest in the sociology of sport, sports fandom, gender and sexuality.

Implementing Sport Policy Marc Keech, Iain Lindsey, John Hayton, 2023-07-18 This book critically examines the roles and contributions of different organisations in the implementation of sport policy in the UK and, therefore, provides an important guide to the complexities of implementing sport policy and of achieving policy goals through, and for, sport. Presenting analytical chapters by leading sport researchers alongside shorter commentaries by practitioners working in the field, this book outlines the uneven path between policy planning and real-world outcomes. Adopting a multi-level analysis, this book examines the interlocking structures and challenges of organisations, from grassroots voluntary sport to national governing bodies and professional clubs, and considers the most important issues affecting UK sport policy today. This is fascinating reading for any student, researcher or practitioner working in sport policy, sport for development, sport management, sport coaching, physical education and related areas of policy such as public health, community development, social policy, public policy and education.

Chaplaincy and Practical Theology Stephen B. Roberts, Sarah Dunlop, 2022-02-23 Chaplaincy has emerged as a highly significant form of ministry in the twenty-first century, and chaplaincy studies is growing as a field of study that learns from the experience and work of chaplains in their diverse sectors. Chaplains from a range of different faith traditions pioneer ministry within the secular yet religiously plural contexts of contemporary life with often considerable creativity and skill, generating a wealth of insight to be gleaned for understanding the place of faith in the modern world. One of the disciplines that has been most concerned with gleaning those insights and developing the field of chaplaincy studies is practical theology. The journal Practical Theology (formerly Contact) is a key repository for much of the wisdom gained through such study, and this book draws on the archive of the journal to trace the development of chaplaincy research and provide a resource for those seeking to join the conversation about the nature and significance of chaplaincy as a form of ministry and mission today. Drawing on different sectors of chaplaincy and different methodological approaches, this book is invaluable for those engaged in chaplaincy work, those seeking to research that work, and for anyone interested in contemporary, pioneering forms of ministry.

How the number of foreign players influences the performance of national clubs and the national team

Carsten Richter, 2015-12-14 Master's Thesis from the year 2015 in the subject Sport - Sport Economics, Sport Management, grade: 1.3, Birkbeck, University of London (Management), course: MSc Sport Management and Marketing, language: English, abstract: This paper is about whether the number of foreign players might have an influence on the performance of clubs and national teams. Before analysing the mentioned correlation, this research explains in detail all the different potential factors which might also influence performance. This paper highlights different regulations that have a considerable influence on clubs, such as the UEFA home-grown player regulation and different domestic rules. Other sources of impact are the different youth academy systems. The German youth development system has been an important factor in the success of the German national team since its establishment in 2004, which might be due to the increasing number of competitions in which young German players are determined to get a place. The English Premier League is starting to follow in the footsteps of Germany by implementing different regulations to support English players. Italy, however, is showing dramatic differences with regard to its countrywide youth systems because it seems to merely focus on the academies of the different clubs. Similar systems can be found in Spain, which has, nonetheless, two very successful academies 'La Masia' and 'La Fábrica'. Other related factors to consider are language and funding. As English is one of the most spoken languages in the world, the Premier League is attracting players from a variety of countries. Yet as we are living in a modern economic world, the money factor is also quite important. The Premier League is one of the leagues with the biggest revenue streams in the world. The League shares its revenue with the clubs, which they can then spend on players. Hence, the Premier League is the most valued league in football and is spending millions of pounds per year on buying the best players in the

world, at the expense of young English players.
