The Oxford Handbook of the Ethiopian Economy Fantu Cheru, Christopher Cramer, Arkebe Oqubay, 2019-01-10 From a war-torn and famine-plagued country at the beginning of the 1990s, Ethiopia is today emerging as one of the fastest-growing economies in Africa. Growth in Ethiopia has surpassed that of every other sub-Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years. The government has set its eyes on transforming the country into a middle-income country by 2025, and into a leading manufacturing hub in Africa. The Oxford Handbook of the Ethiopian Economy studies this country's unique model of development, where the state plays a central role, and where a successful industrialization drive has challenged the long-held erroneous assumption that industrial policy will never work in poor African countries. While much of the volume is focused on post-1991 economic development policy and strategy, the analysis is set against the background of the long history of Ethiopia, and more specifically on the Imperial period that ended in 1974, the socialist development experiment of the Derg regime between 1974 and 1991, and the policies and strategies of the current EPRDF government that assumed power in 1991. Including a range of contributions from both academic and professional standpoints, this volume is a key reference work on the economy of Ethiopia.

Cine-Ethiopia Michael W. Thomas, Alessandro Jedlowski, Aboneh Ashagrie, 2018-08-01 Over the past decade, Ethiopian films have come to dominate the screening schedules of the many cinemas in Ethiopia's capital city of Addis Ababa, as well as other urban centers. Despite undergoing an unprecedented surge in production and popularity in Ethiopia and in the diaspora, this phenomenon has been broadly overlooked by African film and media scholars and Ethiopianists alike. This collection of essays and interviews on cinema in Ethiopia represents the first work of its kind and establishes a broad foundation for furthering research on this topic. Taking an interdisciplinary approach to the topic and bringing together contributions from both Ethiopian and international scholars, the collection offers new and alternative narratives for the

development of screen media in Africa. The book's relevance reaches far beyond its specific locale of Ethiopia as contributions focus on a broad range of topics—such as commercial and genre films, diaspora filmmaking, and the role of women in the film industry—while simultaneously discussing multiple forms of screen media, from satellite TV to “video films.” Bringing both historical and contemporary moments of cinema in Ethiopia into the critical frame offers alternative considerations for the already radically changing critical paradigm surrounding the understandings of African cinema.

The Oxford Handbook of Ethiopian Languages Ronny Meyer, Bedilu Wakjira, Zelealem Leyew, 2023-04-27 This handbook provides a comprehensive account of the languages spoken in Ethiopia, exploring both their structures and features and their function and use in society. The first part of the volume provides background and general information relating to Ethiopian languages, including their demographic distribution and classification, language policy, scripts and writing, and language endangerment. Subsequent parts are dedicated to the four major language families in Ethiopia - Cushitic, Ethiosemitic, Nilo-Saharan, and Omotic - and contain studies of individual languages, with an initial introductory overview chapter in each part. Both major and less-documented languages are included, ranging from Amharic and Oromo to Zay, Gawwada, and Yemsa. The final part explores languages that are outside of those four families, namely Ethiopian Sign Language, Ethiopian English, and Arabic. With its international team of senior researchers and junior scholars, *The Oxford Handbook of Ethiopian Languages* will appeal to anyone interested in the languages of the region and in African linguistics more broadly.

Higher Education in Ethiopia Tebeje Molla, 2018-01-18 This book focuses on higher education in Ethiopia, analysing persisting inequalities and policy responses against the backdrop of the extensive expansion and reform that the system has experienced in recent years. Drawing on empirical data generated through interviews, policy reviews and focus-group discussions, it explicates factors of structural inequality ranging from neoliberal policy orientations to repressive gender culture and geo-political peripherality. In a departure from conventional studies that consider policy a response to social problems, the book takes a critical perspective to show the constitutive role of policy, and explains how the representation of the problem of social inequality undermines equity policy outcomes in Ethiopian higher education. Not only does the book problematise the framing of the problem of inequality in the system, it also outlines strategies for designing transformative equity instruments. In explaining structural factors of inequality and equity provisions, the book productively combines sociological concepts with historical accounts and political economy insights. Given the increased economic optimism associated with higher education in sub-Saharan Africa and the neoliberal ideals underpinning much of the restructuring of the system in the region, this is a timely and important contribution that sheds light on the social justice implications and consequences of such changes. It offers fresh accounts of largely neglected qualitative cases of inequality, making it a valuable read for students and researchers in the areas of Ethiopian education policy studies, international and comparative education, and international development.

2010/11 Social Accounting Matrix for Ethiopia: A Nexus Project SAM Ahmed, Hashim A., Tebekew, Tewodros, Thurlow, James, 2017-11-17 The purpose of this paper is used to document the different steps followed to construct the 2010/11 Social Accounting Matrix for Ethiopia. The SAM is an extension of the Standard Nexus Structure. It consists of 63 activity sectors, 67 commodity sectors, three types of factors of production: labor (rural and urban disaggregated by level of education), land, and capital (disaggregated by crops, livestock, mining and other sectors). The household sector is divided spatially into urban and rural households. Rural households are further disaggregated into households that earn crop and/or livestock incomes (i.e., farm households) and those that do not earn incomes from either source (i.e., nonfarm households). Households are further disaggregated into per capita expenditure quintiles. This SAM allows analyzing issues at the detailed level and to better understand the potential impacts of policy changes for both better off and more vulnerable households.

The Ethiopian Army Fantahun Ayele, 2014-10-30 The Ethiopian popular revolution of 1974 ended a monarchy that claimed descent from King Solomon and the Queen of Sheba, and brought to power a military government that created one of the largest and best-equipped armies in Africa. In his panoramic study of the Ethiopian army, Fantahun Ayele draws upon his unprecedented access to Ethiopian Ministry of Defense archives to study the institution that was able to repel the Somali invasion of 1977 and suppress internal uprisings, but collapsed in 1991 under the combined onslaught of armed insurgencies in Eritrea and Tigray. Besides military operations, The Ethiopian Army discusses tactical areas such as training, equipment, intelligence, and logistics, as well as grand strategic choices such as ending the 1953 Ethio-American Mutual Defense Agreement and signing a treaty of military assistance with the Soviet Union. The result sheds considerable light on the military developments that have shaped Ethiopia and the Horn in the twentieth century.

The Economywide Effects of Teff, Wheat, and Maize Production Increases in Ethiopia Benson, Todd,Engida, Ermias,Thurlow, James,2014 The government of Ethiopia is investing significant public resources to increase overall national production of teff, wheat, and maize. To better understand the likely economywide effects of increases of between 12 and 14 percent in the national production of these cereals, a set of production increase scenarios for each crop were run using a computable general equilibrium model of the Ethiopian economy. The analyses were extended to also consider the effects of several international wheat price and wheat import scenarios, a wheat subsidy program, and maize exports. Among the effects considered are changes in economic growth, prices, total household consumption, cereal and calorie consumption levels, and poverty measures.

Global Status Report on Road Safety 2015 World Health Organization,2015-12-17 The Global status report on road safety 2015, reflecting information from 180 countries, indicates that worldwide the total number of road traffic deaths has plateaued at 1.25 million per year, with the highest road traffic fatality rates in low-income countries. In the last three years, 17 countries have aligned at least one of their laws with best practice on seat-belts, drink-driving, speed, motorcycle helmets or child restraints. While there has been progress towards improving road safety legislation and in making vehicles safer, the report shows that the pace of change is too slow. Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development: halving the global number of deaths and injuries from road traffic crashes by 2020. Made possible through funding from Bloomberg Philanthropies, this report is the third in the series, and provides a snapshot of the road safety situation globally, highlighting the gaps and the measures needed to best drive progress.--Publisher's description.

The Traditional Teaching of the Ethiopian Orthodox Täwahedo Church Christine Chaillot,2023-11-06 Christine Chaillot's new book, *The Traditional Teaching of the Ethiopian Orthodox Täwahedo Church: Faith and Spirituality*, presents a topic that is little known if at all known outside Ethiopia, even in Christian circles. Moreover, it is a much neglected field in the wider study of African education. It is a teaching based on ancient texts and books, taught orally to the students who will

become the future clergy and who will then share their knowledge with the faithful in Church life. The studies of the different disciplines are pursued at different schools and at different levels, in liturgy, theology with commentaries of books (Old and New Testaments, books of the Church fathers and monks) as well as composition of poems (qenes) and iconography. All this teaching presented in the present volume is deeply related to the faith and spirituality of the Ethiopian Orthodox Church. This teaching is a unique intangible cultural heritage. One wonders, however, what its future will be in the context of the modern educational methods and social attitudes that have evolved in Ethiopia over the last half-century.
