Hooked Nir Eyal,2014-11-04 Revised and Updated, Featuring a New Case Study How do successful companies create products people can't put down? Why do some products capture widespread attention while others flop? What makes us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process embedded into the products of many

successful companies to subtly encourage customer behavior. Through consecutive “hook cycles,” these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. Hooked is based on Eyal’s years of research, consulting, and practical experience. He wrote the book he wished had been available to him as a start-up founder—not abstract theory, but a how-to guide for building better products. Hooked is written for product managers, designers, marketers, start-up founders, and anyone who seeks to understand how products influence our behavior. Eyal provides readers with:

- Practical insights to create user habits that stick.
- Actionable steps for building products people love.
- Fascinating examples from the iPhone to Twitter, Pinterest to the Bible App, and many other habit-forming products.

*Cognitive-Behavioral Therapy for Avoidant/Restrictive Food Intake Disorder* Jennifer J. Thomas, Kamryn T. Eddy, 2018-11-15 This book outlines a new cognitive-behavioral treatment for patients of all age groups with avoidant/restrictive food intake disorder.

Social Behavior Mapping Michelle Garcia Winner, 2007 Cognitive behavioral techniques are those which help a student to learn the thinking behind expected behaviors. Social Stories (developed by Carol Gray) are one type of cognitive behavioral technique for teaching students how to cope in a specific context or with specific people. Social Behavior Mapping is another complimentary method, which helps students to understand how our behaviors (expected and unexpected) impact how people feel, which then impacts how they treat us, which impacts how we feel about ourselves. Social Behavior Maps demonstrate to students how we all impact each other emotionally and behaviorally. This technique is not a panacea, but instead helps to demystify the complexity of social thought and related behaviors. It is being embraced in classrooms all over the United States. On this DVD, the evolution of social behavior mapping is explained along with step-by-step instructions on how to use this valuable treatment strategy. This DVD corresponds with a book called Social Behavior Mapping, also by Michelle Garcia Winner.--Container.

*The Power of Habit* Charles Duhigg, 2012-02-28 NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. *Ask a Manager* Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. *The Real Food Solution* Wendy McCallum, 2015-12-15 Food coach and nutrition educator Wendy McCallum has worked with many families to find successful strategies for clean eating, featuring affordable real food that everyone enjoys. This approach leads to gradual weight loss -- that stays off -- and increased energy, all while eating healthier, tastier meals. There's no shortage of popular approaches to weight loss and wellness, including paleo, gluten-free, and vegan diets. There is wide understanding of the advantages of "real" or "clean" food and recipes. But most people find it difficult to make changes in their diet and even harder to maintain these changes -- not to mention how tough it is to get the whole family to buy into a new way of eating. This is not a radical, instantaneous solution but instead a real, lasting change -- in the family kitchen and on the scale -- which comes from slow and steady building of positive habits that are enjoyable, not painful. It's flexible, kid-friendly, and even fun -- as Wendy has seen firsthand in her work with families of all shapes and sizes. *The Real Food Solution*

presents her approach in full, with lots of background information, six weeks of meal plans and 70+ recipes -- including pantry and grocery lists -- making it fun and easy to achieve real change with real food.

**Teaching Protective Behaviours to Young Children** Carolyn Gelenter, Belinda Riley, 2017-07-05 This programme aims to provide children aged 4-7 years with awareness and strategies for keeping safe. Although it may be difficult to accept, children and young people from any community, including those with disabilities, can be put at risk of harm, abused or hurt, regardless of their age, gender, religion or ethnicity. All children have the right to be safeguarded from abuse or neglect so they have the opportunity to reach their potential and be successful adults. Protective behaviours teaches children to develop an awareness of personal safety; helps them to identify and express their feelings; make choices and solve problems. First Steps to Safety has taken the core protective behaviour principles and created a teaching framework with overarching aims, with supporting lesson plans, resources and activities, in a 10 week programme that can be picked up and used by anyone in school wanting to empower children and young people of any age and any capability to develop personal safety. The information and strategies provided to children are generic and applicable across a range of situations that may arise, for example bullying, internet safety, being harmed, feeling sad or feeling unsafe. Sessions include: my body parts; showing my feelings; my body, thoughts and feelings all go together; feeling safe; behaviour choices; to empower children to feel safe and know they have a right to feel safe; to give children the confidence and ability to assertively manage their own safety; to children the skills to take responsibility for their own bodies, thoughts, feelings and behaviour; to enable children with a range of communication abilities to ask for help; for children to have awareness of their body, thoughts, feelings and behaviour; have a vocabulary to express how their thoughts and feelings affect their bodies; know the early warning signs for feeling unsafe; know they can make different behaviour choices based on feelings; and know who good people are to go to for help and how to ask for help.
