**Position Pieces for Cello** Rick Mooney, Position Pieces for Cello is designed to give students a logical and fun way to learn their way around the fingerboard. Each hand position is introduced with exercises called Target Practice, Geography Quiz, and Names and Numbers. Following these exercises are tuneful cello duets which have been specifically composed to require students to play in that hand position. In this way, students gain a thorough knowledge of how to find the hand positions and, once there, which notes are possible to play. Using these pieces (with names like I Was a Teenage Monster, The Irish Tenor, and I've Got the Blues, Baby), position study on the cello has never been so much fun!

*Tonalization* Dr. Shinichi Suzuki, Dr. Suzuki questioned why all vocalists vocalize every day to improve their voices, but instrumentalists do not do so every day with their instruments. He believes that on any instrument, one needs to practice to make a more beautiful tone. First he talks about playing a beautiful resonant tone with the bow while plucking the string with a finger. When a pizzicato is played, the resonance goes on for a long time. Students should listen to that resonance and play the same kind of clear beautiful sound. He talks about how to make a difference in the tone by using a different bow speed, how to practice to find the resonance point, how to change the weight of the arm on the bow to produce a different kind of tone, and how to change tone color. This book includes all of Dr. Suzuki's basic ideas about tone.
