Hide, Wood, and Willow Deanna Tidwell Broughton, 2019-06-13 For centuries indigenous communities of North America have used carriers to keep their babies safe. Among the Indians of the Great Plains, rigid cradles are both practical and symbolic, and many of these cradleboards—combining basketry and beadwork—represent some of the finest examples of North American Indian craftsmanship and decorative art. This lavishly illustrated volume is the first full-length reference book to describe baby carriers of the Lakota, Cheyenne, Arapaho, and many other Great Plains cultures. Author Deanna Tidwell Broughton, a member of the Oklahoma Cherokee Nation and a sculptor of miniature cradles, draws from a wealth of primary sources—including oral histories and interviews with Native artists—to explore the forms, functions, and symbolism of Great Plains cradleboards. As Broughton explains, the cradle was vital to a Native infant's first months of life, providing warmth, security, and portability, as well as a platform for viewing and interacting with the outside world for the first time. Cradles and cradleboards were not only practical but also symbolic of infancy, and each tribe incorporated special colors, materials, and ornaments into their designs to imbue their baby carriers with sacred meaning. *Hide, Wood, and Willow* reveals the wide variety of cradles used by thirty-two Plains tribes, including communities often ignored or overlooked, such as the Wichita, Lipan Apache, Tonkawa, and Plains Métis. Each chapter offers information about the tribe's background, preferred types of cradles, birth customs, and methods for distinguishing the sex of the baby through cradle ornamentation. Despite decades of political and social upheaval among Plains tribes, the significance of the cradle endures. Today, a baby

can still be found wrapped up and wide-eyed, supported by a baby board. With its blend of stunning full-color images and detailed information, this book is a fitting tribute to an important and ongoing tradition among indigenous cultures.

Guide to Native American Ledger Drawings and Pictographs in United States Museums, Libraries, and Archives John Lovett,Donald L. DeWitt,1998-11-30 Whether painted by artist-warriors depicting their feats in battle or by other Native American artists, 19th and 20th century ledger drawings—drawn on blank sheets of ledger books obtained from U.S. soldiers, traders, missionaries, and reservation employees—provide an excellent visual source of information on the Great Plains Native Americans. An art form representing a transition from drawing on buffalo hide to a paper medium, ledger drawings range in style, content, and quality from primitive and artistically poor to bold and sharp with lavish use of color. Although interest in ledger drawings has increased in the last 20 years, there has never been a guide to holdings of these drawings. By bringing together the diverse and scattered institutions that hold them, this book will make finding the drawings quicker and easier. Illustrated with examples of ledger drawings, the guide identifies the libraries, archives, historical societies, and museums that hold ledger drawings. The institutions listed range from those with large collections, such as the Smithsonian, Yale, and Oklahoma museums, to institutions with only a few drawings. The book also includes a bibliography of books and articles about Indian pictographic art. The index will enable researchers to locate art by individual artists and tribes.
