Power of 10 Adam Zickerman. 2010-10-12 Fitness expert Adam Zickerman presents a revolutionary exercise program - slow strength training - that will forever change the way people work out. The Power of 10 seems to contradict nearly everything we're accustomed to hearing about exercise. Forget hours on the treadmill, and forget daily visits to the gym. This new program offers 20 minute workout sessions, once or twice per week, with an alluring emphasis on rest and recovery on your days off. The principle behind The Power of 10 is simple: by lifting weights in slow motion, making each rep last 20 seconds (10 seconds lifting and 10 seconds lowering) instead of the typical 7 seconds, you can maximize muscle transformation. The short workouts are so effective that your body will need days to recover and repair properly. Studies have shown that such routines can increase lean body mass, help burn calories more efficiently, and prevent cardio-vascular disease more effectively than aerobic exercise alone.

Making the Time Stuart Tinney.2008-04-15 A crucial element of eventing is that horse and rider complete the cross-country course within a set time ('the optimum time'). If the competitor takes longer, significant penalty points are awarded against him or her. Many eventers try to achieve the optimum time by taking unnecessary risks, which, as Stuart Tinney explains, can be avoided if the correct training is carried out. Stuart Tinney, an Olympic gold medallist, completed the Sydney Olympic course easily within the optimum time, not through uncontrollable speed but through accurate and controlled riding. This skill and the associated training and horse management are explained and demonstrated in the book, including: · Equipment for the horse and rider · Walking the course · Riding cross country safely and efficiently · Training for cross country in the arena · Horse fitness and management · Horse types This book will therefore be of interest to all eventers from introductory to advanced level. In the Middle Are the Horsemen Tik Maynard. 2018-09-01 In 2008, 26-year-old Tik Maynard faced a crossroads not unlike that of other young adults. A university graduate and modern pentathlete, he suffered both a career-ending injury and a painful breakup, leaving him suddenly adrift. The son of prominent Canadian equestrians, Maynard decided to spend the next year as a "working student." In the horse industry, working students aspire to become professional riders or trainers, and willingly trade labor for hands-on education. Here Maynard chronicles his experiences—good and bad—and we follow along as one year becomes three, what began as a casual adventure gradually transforms, and a life's purpose comes sharply into focus. Over time, Maynard evolved under the critical eyes of Olympians, medal winners, and world-renowned figures in the horse world, including Anne Kursinski, Johann Hinnemann, Ingrid Klimke, David and Karen O'Connor, Bruce Logan, and Ian Millar. He was ignored, degraded, encouraged, and praised. He was hired and fired, told he had the "wrong body type to ride" and that he had found his "destiny." He got married and lost loved ones. Through it all he studied the horse, and human nature, and how the two can find balance. And in that journey, he may have found himself.

Know You, Know Your Horse Eunice Rush, Marry Morrow. 2013-02-01 Wouldn't it be wonderful to understand how horses think and will react to certain situations in advance? As a matter of fact, wouldn't it be wonderful to know that about the people in your life, too? Now you can.
