Pedagogia, Relazione d'aiuto e persona anziana Giuseppe Vico,Marisa Musaio,Vittore Mariani,2019-05-20 Vittore Mariani - Marisa Musaio (edd.). Prefazione di Giuseppe Vico Il volume propone una riflessione pedagogica e metodologica finalizzata al miglioramento degli interventi all'interno delle residenze per anziani, alla luce di uno sguardo antropologico, etico e teleologico che ispiri modalità operative vissute con senso di cura, entusiasmo, passione e intelligenza. In una prospettiva di speranza non ingenua, espressa in una progettualità concreta, gli autori si propongono di valorizzare l'apporto educativo a favore delle persone anziane, non come intervento settoriale né come mera animazione, ma come intervento che si rivolge alla centralità di persone e relazioni, che attua un coordinamento multidimensionale e interprofessionale, per ricercare sempre una sinergia a favore della persona e la promozione del benessere integrale di tutti i soggetti coinvolti nella relazione d'aiuto: gli anziani, i loro familiari e gli operatori. Il volume si rivolge in particolare a educatori, animatori, pedagogisti, responsabili e operatori di residenze e altri servizi per anziani, a familiari, volontari, studenti universitari dei corsi pedagogico-educativi, a responsabili e docenti di corsi per professioni e servizi a favore degli anziani, a decisori politici e tecnici impegnati nell'attuazione delle normative sociosanitarie e della loro implementazione, ma anche a tutti coloro che hanno a cuore l'essere umano in quella delicata fase dell'esistenza che è l'anzianità. Vittore Mariani, pedagogista, docente a contratto presso la Facoltà di Scienze della Formazione dell'Università Cattolica del Sacro Cuore dove insegna Metodologia

della gestione integrata del gruppo e Metodologia delle attività formative e speciali. Marisa Musaiò, pedagoga, professore associata di Pedagogia generale e sociale presso la Facoltà di Scienze della Formazione dell'Università Cattolica del Sacro Cuore dove insegna Teoria della Relazione d'aiuto, Pedagogia delle relazioni educative e Pedagogia degli adulti.

Quaderno Anchise n.2 La relazione formativa Pietro Enzo Vigorelli,2017-07-25 Rinnovare le case per anziani (RSA), renderle più adatte per una vita il più possibile normale e attiva. È un progetto ambizioso ma ineludibile che passa attraverso la formazione degli operatori dell'assistenza. Il Quaderno Anchise n. 2 vuole contribuire a questo rinnovamento mettendo a fuoco la relazione tra chi è deputato alla formazione e gli operatori. Partendo da questa relazione si può impostare una formazione capacitante e influire in modo efficace sulla qualità dell'assistenza. Dopo un saggio introduttivo sulla formazione degli adulti, l'Autore esamina in modo dettagliato la relazione tra formatore e operatori e quella tra operatori e anziani con demenza. Il testo è ricco di esempi ed è arricchito dai contributi esperienziali di altri formatori che fanno riferimento all'ApproccioCapacitante®.

The Alzheimer's Prevention Plan Patrick Holford, Deborah Colson, Shane Heaton,2011-02-17 Alzheimer's disease and age-related memory loss are on the increase. The burden this condition places on sufferers, their families and health care systems is immense. In this reassuring and practical book, top nutritionist and mental health expert Patrick Holford argues that memory decline and Alzheimer's disease can be arrested, and the risks of developing such diseases reduced significantly, if you take action early. THE ALZHEIMER'S PREVENTION PLAN is based on research into nutritional medicine from experts around the world, and features the latest scientific findings on how nutrition can help prevent this devastating condition. It features a specially formulated Alzheimer's prevention diet and a ten-step plan to enhance your memory, which includes a simple test to discover your risk, and reverse it in eight weeks; memory boosting vitamins and minerals; essential fats that help your brain think faster; and simple lifestyle changes and exercises to keep your mind young.

The Enabling Approach Projects for Elderly with Dementia Pietro Vigorelli,2019

The Memory Artists Jeffrey Moore,2007-04-01 Winner of the Canadian Authors Association Award for Best Novel Noel Burun has synesthesia and hypermnesia: he sees words in vibrant explosions of colors and shapes, which collide and commingle to form a memory so bitingly perfect that he can remember everything, from the 1001 stories of The Arabian Nights to the color of his bib as a toddler. But for all his mnemonic abilities, he is confronted every day with a reality that is as sad as it is ironic: his beloved mother, Stella, is stricken with Alzheimer's disease, her memory slowly slipping into the quicksands of oblivion. The Memory Artists follows Noel, helped by a motley cast of friends, on his quest to find a cure for his

mother's affliction. The results are at the same time darkly funny, quirkily inventive, and very moving. Alternating between third-person narratives and the diaries of Noel and Stella, Jeffrey Moore weaves a story filled with fantastic characters and a touch of suspense that gets at the very heart of what it means to remember and forget, and that is a testament to the uplifting power of family and friendship.

Making Rounds with Oscar David Dosa, 2010-02-02 A remarkable cat. A special gift. A life-changing journey. They thought he was just a cat. When Oscar arrived at the Steere House Nursing and Rehabilitation Center in Rhode Island he was a cute little guy with attitude. He loved to stretch out in a puddle of sunlight and chase his tail until he was dizzy. Occasionally he consented to a scratch behind the ears, but only when it suited him. In other words, he was a typical cat. Or so it seemed. It wasn't long before Oscar had created something of a stir. Apparently, this ordinary cat possesses an extraordinary gift: he knows instinctively when the end of life is near. Oscar is a welcome distraction for the residents of Steere House, many of whom are living with Alzheimer's. But he never spends much time with them -- until they are in their last hours. Then, as if this were his job, Oscar strides purposely into a patient's room, curls up on the bed, and begins his vigil. Oscar provides comfort and companionship when people need him most. And his presence lets caregivers and loved ones know that it's time to say good-bye. Oscar's gift is a tender mercy. He teaches by example: embracing moments of life that so many of us shy away from. *Making Rounds with Oscar* is the story of an unusual cat, the patients he serves, their caregivers, and of one doctor who learned how to listen. Heartfelt, inspiring, and full of humor and pathos, this book allows readers to take a walk into a world rarely seen from the outside, a world we often misunderstand.

Adherence to Long-term Therapies Eduardo Sabaté, 2003 This report is based on an exhaustive review of the published literature on the definitions, measurements, epidemiology, economics and interventions applied to nine chronic conditions and risk factors.

Validation Techniques for Dementia Care Vicki de Klerk-Rubin, 2008 Communication and relationship difficulties are among the most frustrating aspects of caring for older adults with dementia. Overcome these challenges using the compassionate and empathetic techniques of the Validation approach. Pioneered by social worker Naomi Feil more than 40 years ago, Validation has helped families and professional caregivers improve communication, sidestep conflict, and maintain connections by validating expressed feelings rather than by focusing on an older adult's confusion.

Dementia Ellen Hickey,Michelle S. Bourgeois,2011-02-14 Dementia: From Diagnosis to Management - A Functional Approach is a comprehensive description of a functional and behavioral approach to assessing and treating persons with dementia. While very practical, the information is embedded in a scientific context of the causes, neuropsychological manifestations, and complications of dementia. The management of the impairments of dementia is centered on its functional consequences and impact on daily living. The chapters describe behavioral interventions and environmental strategies that aim to improve daily activities and quality of life from a proactive communication and memory basis. Specific suggestions are provided to enhance family involvement and staff relationships, interdisciplinary cooperation, reimbursement, and documentation across various home and institutional settings. The book is written in a straightforward style and is evenhanded in its critical analyses of the evidence available to inform practice. The extensive clinical backgrounds of the authors allow them to use 'real world' case studies to illustrate common challenges of persons with dementia and potential solutions for caregivers. Further resources and clinical materials are included in comprehensive appendices. The volume provides essential reading for clinicians and administrators who seek to improve the lives of people with dementia and those who care for them. It is also an invaluable reference for beginning students in adult language disorders and gerontology.
