In this book, a systematic scientific understanding of GovTech is formed, the central place of Big Data in this system is substantiated, and modern experience in the functioning and development of this system is considered in detail. The contribution of the book to the literature is to bridge the gap between theory and practice of GovTech through a comprehensive study of all its manifestations in the three parts of the book. Dare to Prepare Ronald M. Shapiro, Gregory Jordan, 2009-02-24 Over the course of a forty-year career in the worlds of law, sports, business, and politics, Ron Shapiro has worked with and advised an incredible variety of people. What he's found is that the secret ingredient for getting into the winner's circle is simply the discipline of methodical preparation: that old-school, step-by-step way of having all your ducks in a row, whether you are an executive getting ready to do a deal or make a speech; a pitcher studying the traits of opposing hitters and keeping a meticulous notebook of their strengths and weaknesses; an international trade negotiator who knows all about the issues and the people on the other side before sitting down at the table; or a surgeon who rehearses like a classical musician. Deep down, you know you should do it. But how often do you wing it and fly by the seat of your pants because "Gosh, I don't have time . . . I've done this before . . . I know what I'm doing"? It is obvious that you have to get ready for whatever game you're playing, but all too frequently methodical preparation is the missing ingredient in today's world of instant analysis, easy access to information, and glibness that sounds good at first but is unconnected with the reality at hand. In *Dare to Prepare*, successful people such as wine guru Robert Parker, investment legend Bill Miller, pianist Leon Fleisher, Goldman Sachs partner Lisa Fontenelli, broadcaster Bob Costas, firefighter Ann Marie Tierney, New York Mets manager Willie Randolph, and many others share the way they apply discipline in preparing for career-changing games, deals, meetings, and interviews. Cal Ripken Jr. played thousands of games in the major leagues but prepared for each like it was his first. NPR host Liane Hansen has interviewed countless people but approaches each interview with the same meticulous research time and time again. Make sure there are no slips "twixt cup and lip" as you get ready for your next personal or professional challenge by daring to prepare.

Entrepreneurship in the Hospitality, Tourism and Leisure Industries Biswajit Pattajoshi, 2018-10-10 Many standard BOP models have been undergoing radical transformations. Newer functioning models with inclusivity with holistic, systems approach is the mantra. Development has morphed into community leadership, and societal fabric building now frames the

effect of corporate governance activities on shareholder value. Not surprisingly, new voices have been calling for reinvention of marketing. CEO's cannot get clear, compelling answers about marketing's impact on the bottom line. The adage of Sam Wanamaker- that he knows that 50 percent of his advertisement works but he does not know which half -still haunts management. Consider the following: Economic liberalisation has given a new impetus to the hospitality industry. It costs an average of US\$50-80 million to set up five-star hotels with 300 rentable rooms in India. The gestation period is usually between three and four years. Movements in real estate prices have to be watched, though they have stabilised in the past three years or so. Non-five-star hotels are obviously cheaper and have smaller gestation periods, but international chains are expected to go into the five-star category. Biswajit Pattajoshi offers not only a candid critique of eradicating poverty, through bottom of pyramid spins but more important a clear agenda -indeed the Samaritans agenda-for meaningful change in end of poverty by immortal brand equity white horse. He calls upon leadership to deliver value and solutions, not physicality colours. He believes that the stalwart must understand their building blocks and operations from finance to supplier partnerships. They must co-operate and compete on multidisciplinary teams, because BOP model fails whenever any part of greater agenda fails to cohort with great acres. BOP's are posing titan challenges to manage marketing tornadoes, many of which are exemplary spectaculars in waves of shareholders. Marketing change agents have led to innovative, community building indispensability models that track futuristic transformation eradicating poverty, establishing peace revolution. If community building model's take-off profits are harnessed by the BOP.
