Sophie's World Jostein Gaarder, 2007-03-20 One day Sophie comes home from school to find two questions in her mail: Who are you? and Where does the world come from? Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

Being and Time Martin Heidegger, 1996-01-01 A new, definitive translation of Heidegger's most important work.

API Design for C++ Martin Reddy, 2011-03-14 API Design for C++ provides a comprehensive discussion of Application Programming Interface (API) development, from initial design through implementation, testing, documentation, release, versioning, maintenance, and deprecation. It is the only book that teaches the strategies of C++ API development, including interface design, versioning, scripting, and plug-in extensibility. Drawing from the author's experience on large scale, collaborative software projects, the text offers practical techniques of API design that produce robust code for the long term. It presents patterns and practices that provide real value to individual developers as well as organizations. API Design for C++ explores often overlooked issues, both technical and non-technical, contributing to successful design decisions that produce high quality, robust, and long-lived APIs. It focuses on various API styles and patterns that will allow you to produce elegant and durable libraries. A discussion on testing strategies concentrates on automated API testing techniques rather than attempting to include end-user application testing techniques such as GUI testing, system testing, or manual testing. Each concept is illustrated with extensive C++ code examples, and fully functional examples and working source code for experimentation are available online. This book will be helpful to new programmers who understand the fundamentals of C++ and who want to advance their design skills, as well as to senior engineers and software architects seeking to gain new expertise to complement their existing talents. Three specific groups of readers are targeted: practicing software engineers and architects, technical managers, and students and educators. The only book that teaches the strategies of C++ API development, including design, versioning, documentation, testing, scripting, and extensibility. Extensive code examples illustrate each concept, with fully functional examples and working source code for experimentation available online. Covers various API styles and patterns with a focus on practical and efficient designs for large-scale long-term projects.

Parenting Matters National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing

demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

How to Make Money in Stocks: A Winning System in Good Times or Bad William J. O'Neil, 1994-09-22 William J. O'Neil's proven investment advice has earned him millions of loyal followers. And his signature bestseller, *How to Make Money in Stocks*, contains all the guidance readers need on the entire investment process from picking a broker to diversifying a portfolio to making a million in mutual funds. Living the Good Long Life Martha Stewart, 2013-04-23 Martha Stewart's engaging handbook for living your healthiest life after 40—with expertise from doctors and specialists on eating, exercise, wellness, home, and organizing, as well as caring for others. Martha Stewart's *Living the Good Long Life* is a practical guide unlike any other: honest and upbeat, with clear and motivating charts, resources, and tips from doctors and wellness specialists. From the best ways to organize your home to protecting your mental well-being and appearance as you age, this book gives accessible ideas that you can incorporate every day. And when it's time to explore caregiving for others, you'll know how to enrich their quality of life while preventing your own fatigue. Martha's 10 Golden Rules for Successful Aging provide a framework for chapters that cover your changing needs with every decade, including: -Healthy Eating: Stock a healthy pantry for your dietary needs. -Healthy Fitness: Stand strong on your feet by increasing your balance, endurance, and flexibility. -A Healthy Brain: Stimulate new brain activity to prevent memory loss. -A Healthy Outlook: Maintain a sense of daily purpose by strengthening social connections. -Healthy Living Every Day: Medicate wisely while paying attention to aches and pains. -Healthy Looks: Take care of your skin and match your makeup to your age. -Healthy Home: Create a home that is a reflection of how you want to live. -Healthy Living into the Future: Be your own wellness CEO to prevent future illness. -Healthy Caring: Prepare for helping others while caring for yourself, and much more! Healthy living begins with establishing small habits, and with *Living the Good Long Life* you'll

have a dependable source for thriving in your 40s, 50s, 60s, and beyond. In my Foundation's health initiatives—and in my own life—I've seen again and again how even small measures to improve your health can make a big difference. Living the Good Long Life is full of simple ideas that can be incorporated into daily routines to help you feel better and keep on doing what you love. —President Bill Clinton For thirty years, Martha Stewart has carefully coached us on how to take care of our homes, our menus, our crafts. And now in *Living the Good Long Life*, she has brought her brilliant skills to the mission of helping us take care of ourselves. With sparkling prose, no-nonsense instruction, and, as always, oceans of wisdom, Martha implores readers not to recoil from their advancing years, but to embrace and celebrate them—with invaluable tips on keeping our diets healthy, our bodies pumping, and our outlook forever sunny. I just loved this book. —Marlo Thomas

Perturbation theory for linear operators Tosio Kato, 2013-06-29

My Age of Anxiety Scott Stossel, 2014-01-07 A riveting, revelatory, and moving account of the author's struggles with anxiety, and of the history of efforts by scientists, philosophers, and writers to understand the condition. As recently as thirty-five years ago, anxiety did not exist as a diagnostic category. Today, it is the most common form of officially classified mental illness. Scott Stossel gracefully guides us across the terrain of an affliction that is pervasive yet too often misunderstood. Drawing on his own long-standing battle with anxiety, Stossel presents an astonishing history, at once intimate and authoritative, of the efforts to understand the condition from medical, cultural, philosophical, and experiential perspectives. He ranges from the earliest medical reports of Galen and Hippocrates, through later observations by Robert Burton and Søren Kierkegaard, to the investigations by great nineteenth-century scientists, such as Charles Darwin, William James, and Sigmund Freud, as they began to explore its sources and causes, to the latest research by neuroscientists and geneticists. Stossel reports on famous individuals who struggled with anxiety, as well as on the afflicted generations of his own family. His portrait of anxiety reveals not only the emotion's myriad manifestations and the anguish anxiety produces but also the countless psychotherapies, medications, and other (often outlandish) treatments that have been developed to counteract it. Stossel vividly depicts anxiety's human toll—its crippling impact, its devastating power to paralyze—while at the same time exploring how those who suffer from it find ways to manage and control it. *My Age of Anxiety* is learned and empathetic, humorous and inspirational, offering the reader great insight into the biological, cultural, and environmental factors that contribute to the affliction.
