The American Environment Revisited Geoffrey L. Buckley, Yolonda Youngs, 2018-03-01 This innovative book provides a dynamic—and often surprising—view of the range of environmental issues facing the United States today. A distinguished group of scholars examines the growing temporal, spatial, and thematic breadth of topics historical geographers are now exploring. Seventeen original chapters examine topics such as forest conservation, mining landscapes, urban environment justice, solid waste, exotic species, environmental photography, national and state park management, recreation and tourism, and pest control. Commemorating the twenty-fifth anniversary of the publication of the seminal work *The American Environment: Interpretations of Past Geographies*, the book clearly shows much has changed since 1992. Indeed, not only has the range of issues expanded, but an increasing number of geographers are forging links with environmental historians, promoting a level of intellectual cross-fertilization that benefits both disciplines. As a result, environmental historical geographies today are richer and more diverse than ever. *The American Environment Revisited* offers a comprehensive overview that gives both specialist and general readers a fascinating look at our changing relationships with nature over time.

The Bear in the Blueberry Robin K Robbins, Linda Buckley, 2022-04-04 *The Bear in the Blueberry* is a circle story. The sun, the rain, the earth and even the bear poop are in the blueberry. Everything is in everything so protect the earth. The book includes a blueberry pancake recipe and three pages of bear facts that surprise even longtime Alaskan residents. The watercolor illustrations are beautiful and whimsical with each bear having his or her own distinct personality.

**A Pure Drop' The Life Of Jeff Buckley** Jeff Apter, 2009-11-11 'Jeff Buckley was a pure drop in an ocean of noise.' - Bono It was his take on John Cale's cover version of Leonard Cohen's song 'Hallelujah' that made the number famous and his album - *Grace* - that caused everyone from Led Zeppelin and U2 to Radiohead and Coldplay to look up to Buckley as an illuminating spirit. But who was the man behind the music? Buckley's many personal letters are revealed for the first time. His struggle with writers block is explored, as is his ongoing battles with the concept of stardom, his desire for escape and the attempts to deal with the unavoidable legacy of his equally gifted father, Tim Buckley. In *A Pure Drop*, his friends, peers, enemies, lovers and collaborators all speak of the Jeff Buckley they knew, or in some cases, they thought they knew.

**The Life and Adventures of William Buckley** William Buckley, Tim Flannery, 2017-10-02 'Flannery has done us a

service first by reissuing the story of a fascinating adventure from 200 years ago, and then by setting these events in perspective with his lucid introduction.’ Canberra Times ‘At 2.00 pm on Sunday, 6 July 1835, a giant of a man shambled into the camp left by John Batman at Indented Head near Geelong...’ In 1803 the convict William Buckley, a former soldier, escaped from the first official settlement in Victoria, near Sorrento on Port Phillip Bay. For three decades the ‘wild white man’ lived with Aborigines around the bay, before giving himself up in 1835. First published in 1852, *The Life and Adventures of William Buckley* is the ultimate survival story of early Australia and provides an extraordinary insight into pre-contact indigenous society. Tim Flannery has published over thirty books, including the award-winning *The Future Eaters*, *The Weather Makers* and *Here on Earth* and the novel *The Mystery of the Venus Island Fetish*. In 2005 he was named Australian Humanist of the Year and in 2007 Australian of the Year. In 2007 he co-founded and was appointed Chair of the Copenhagen Climate Council. In 2011 he became Australia’s Chief Climate Commissioner, and in 2013 he founded the Australian Climate Council. ‘This account, in Buckley’s words...has all the elements of a Boy’s Own yarn: convicts, savages, privations, wars, cannibalism, survival, treachery and the founding of a colony.’ Herald Sun

**Jeff Buckley's Grace** Daphne Brooks,2005-04-28 The power and influence of Grace increases with each passing year. Here, Daphne Brooks traces Jeff Buckley's fascinating musical development through the earliest stages of his career, up to the release of the album. With access to rare archival material, Brooks illustrates Buckley's passion for life and hunger for musical knowledge, and shows just why he was such a crucial figure in the American music scene of the 1990s. EXCERPT: Jeff Buckley was piecing together a contemporary popular music history for himself that was steeped in the magic of singing. He was busy hearing how Dylan channeled Billie Holiday in *Blonde On Blonde* and how Robert Plant was doing his best to sound like Janis Joplin on early Led Zeppelin recordings. He was thinking about doo-wop and opera and Elton John and working at developing a way to harness the power of the voice...In the process, he was re-defining punk and grunge attitude itself by rejecting the ambivalent sexual undercurrents of those movements, as well as Led Zeppelin's canonical cock rock kingdom that he'd grown up adoring. He was forging a one-man revolution set to the rhythms of New York City and beyond. And he was on the brink of recording his elegant battle in song for the world to hear.

**Gender, Violence, Refugees** Susanne Buckley-Zistel,Ulrike Krause,2017-08-01 Providing nuanced accounts of how the social identities of men and women, the context of displacement and the experience or manifestation of violence interact, this collection offers conceptual analyses and in-depth case studies to illustrate how gender relations are affected by displacement, encampment and return. The essays show how these factors lead to various forms of direct, indirect and structural violence. This ranges from discussions of norms reflected in policy documents and practise, the relationship between relief structures and living conditions in camps, to forced military recruitment and forced return, and covers countries in Africa, Asia and Europe.

The colonisation of time Giordano Nanni,2017-02-01 The Colonisation of Time is a highly original and long overdue examination of the ways that western-European and specifically British concepts and rituals of time were imposed on other cultures as a fundamental component of colonisation during the nineteenth century. Based on a wealth of primary sources, it explores the intimate relationship between the colonisation of time and space in two British settler-colonies (Victoria, Australia and the Cape Colony, South Africa) and its instrumental role in the exportation of Christianity, capitalism, and modernity, thus adding new depth to our understanding of imperial power and of the ways in which it was exercised and limited. All those intrigued by the concept of time will find this book of interest, for it illustrates how western-European time's rise to a position of global dominance—from the clock to the seven-day week—is one of the most pervasive, enduring and taken-for-granted legacies of colonisation in today's world.

*BUCKLEY, BATMAN & MYNDIE: Echoes of the Victorian culture-clash frontier* ,2021-01-01 Sounding 1: BEFORE 1840 The notes, journals and characters of Aboriginal Protectors William Thomas and his Chief George Robinson form the backbone of this compilation. With this ethnographic material we learn something of the Kulin worldview into this mostly white-fella history. Sounding 1: Before 1840 describes the initial British and European experiences, events, observations, intentions, self-serving judgements, ignorance, naivete, treachery and so on when they found Oz and proclaimed the continent theirs by the now obvious fiction of terra nullius - Latin legalese for 'land belonging to no people'. The reader may enjoy separating the grains of truth from the chaff propaganda of Empire capitalism or racist / sectarian Christian bible dogma that was the self-serving mindset of the white land-takers. Batman and Fawkner's land-hunting deals with local koori's along with the re-emergence of the remarkable wild white castaway Buckley made their mark on the first settlement at Melbourne. The focus widens in 1836 with Surveyor-General Major Mitchell's and his Wuradjuri guides 'conquering the interior' from the Murray near Mildura to the Western District at Portland and then back north-east across the state to the Murray upstream at Albury. His wheel tracks opened up Victoria from the north. First contact race interactions at Port Phillip and the notion of cultural-coexistence during the first five years leads to the role of 'successful battler' and publican Fawkner in the colonial invasion process from Kulin country to sheep-run to city. Sounding 1 then winds up with Melbourne's first executions and descriptions of Port Phillip as the money melting pot forming the Melbourne hub of world capitalism. Twentieth century academic studies now identify native religion, language zones, tribal locations and clan heads at the time of dispossession by pirate capitalism. In describing the Australian land-rush the chapter echoes oscillate between history, sociology, race theory, trade and class wars, whaling and sealing, imperialism and the monopoly East India Company army mates all pitted against the 'vanishing race' of hunter-gathering 'savages'. The dispossession was virtually complete in Victoria before the 1850's gold rushes transformed the sheep-runs into banker's dividend wealth for the 'winners'. Sounding

2: DISPOSSESSION AT MELBOURNE: Sounding 2 unfolds gently with a wistful early Melbourne memoir involving Batman's lost lawyer Gellibrand in 1836 but then we confront the frontier 'kill or be killed' point of necessity. The violent life, times and fate of mass murderer Fred Taylor who was first employed as overseer for banker Swanston's Bellarine peninsula land-grab sets the local dispossession tone. Taylor's repeated atrocities today exposes a credibility gap in Oz - between civilized progress and slaughter, that now looms over all else in Victoria's birth as an independent state in 1851. The winter of 1837 saw the first violent death of a white squatter and his servant by 'savage natives' north-west of Williamstown at Mt Cotterell. Town leaders such as Fawkner and 'police chief' Henry Batman formed a posse that also included clan heads from both the Melbourne and Geelong tribal areas. Buckley refused to take part in the vigilante party and its punitive actions belied the humanitarian standards expressed in Batman's treaty deed. This revenge slaughter and destruction of 'villages' by the white invaders forced the Sydney government to investigate and so began administering 'law and order' at Port Phillip. By 1838 Sydney trumped Batman's land-grab and the penal government of NSW on the one hand executing eight 'whites' for killing what the newspapers called 'savages', while on the other hand providing sufficient speedy cavalry to tackle black resistance in Victoria at places such as west of Colac and near Benalla after the Faithfull massacre. The arrival in 1839 of first governor La Trobe and the Aboriginal Protectorate plan then unfolds the development of town civic structures while tribal life disintegrates. Government and private measures to 'tame the naked Melbourne natives' culminated with the dawn Merri Creek round-up in October 1840 of hundreds of Kulins by Major Lettsom's redcoats and townsmen. This appears as the death blow to tribal life, and with the first shiploads of migrating British colonists arriving in 1841, near genocide for the Kulin, Mara, Kurnai and Murray River first-peoples.

**A Hereditary Consumptive's Successful Battle for Life** James Monroe Buckley, 1892 A very pragmatic work intended for people who suffer with consumption or lung disease. Apparently the author's interest in the subject started when he applied for life insurance. He was rejected because not only did his father die of consumption at age 37, but his mother and brother had also died of lung disease. This book, based on an article that had appeared in *The Christian Advocate*, was written to provide an overall explanation of consumption and the challenges that one faces living with that disease. The main principle underlying successfully living with consumption is the maintenance of a positive environment, including deep breathing of pure air. Explaining the evolution of his own maladies and how he overcame them, he focuses on climate, breathing, and overall environment. He discusses diet and various medications, relating specific case studies and referencing well-known physicians such as Austin Flint and Valentine Mott. The last chapter deals with the case of Dr. Henry J. Bowditch of Boston, and how he was cured of consumption.--Antiquarian bookseller's description, 2017.

**This Fragile Planet** The XIVth Dalai Lama Tenzin Gyatso, 2021-05-19 An ethical approach to dealing with the urgent issues of climate change and taking care of our delicate ecosystems. This *Fragile Planet* features 80 inspiring quotations from His Holiness the Dalai Lama on environment, matched with 120 eye-catching photos and visuals from a dozen professional photographers - all carefully curated and edited by Tibet expert Michael Buckley. The book lays out the vision of His Holiness concerning secular ethics and environmental protection, great respect for all living beings, the importance of interdependence, and the concept of universal responsibility for protecting Mother Earth. Material in the book is as current as Earth Day 2021. The Dalai Lama's 1989 Nobel Peace Prize was the first ever awarded on the basis of environmental protection. Over the decades since, His Holiness has worked tirelessly as an environmental activist, making this one of his key commitments in life. He is a staunch advocate of the value of education of the heart - the need for compassion and ethics, inspiring the coming generations - and has worked closely with educators to realise this vision.

**A Conservative Environmentalist** Thomas G. Smith, 2024-06-07 A wealthy textile titan from Carlisle, Pennsylvania, Frank Masland Jr. was an ardent political conservative and an equally fervent conservationist who was well known and highly respected in the mid-twentieth-century environmental preservation community. This eye-opening biography charts Masland's life work, telling the story of how he and fellow Republicans worked with Democrats to expand the national park system, preserve wild country, and protect the environment. Though a conservative conservationist appears to be a contradiction in terms today, this was not necessarily the case when Masland and his compatriots held sway. Conservatives, Masland insisted, had a duty to be good stewards of the earth for present and future generations, and they worked closely with members of both parties in Congress and nonpolitical conservation groups to produce landmark achievements. When conservatives turned against environmentalism during the Reagan presidency, Masland refused to join what historians have termed the "Republican reversal." During his long life of nearly a hundred years, Masland used his voice, influence, experiences with nature, and considerable wealth to champion environmental causes at the national, state, and local levels. Engaging, informative, and at times eyebrow-raising, this portrait of a passionately anti-statist nature-loving Republican environmentalist documents the history of the twentieth-century conservation movement and reminds us of a time when conservative Republicans could work with liberal Democrats to protect the environment.

*Active Hope (revised)* Joanna Macy, Chris Johnstone, 2022-06-22 The challenges we face can be difficult even to think about. Climate change, war, political polarization, economic upheaval, and the dying back of nature together create a planetary emergency of overwhelming proportions. This revised, tenth anniversary edition of *Active Hope* shows us how to

strengthen our capacity to face these crises so that we can respond with unexpected resilience and creative power. Drawing on decades of teaching an empowerment approach known as the Work That Reconnects, the authors guide us through a transformational process informed by mythic journeys, modern psychology, spirituality, and holistic science. This process equips us with tools to face the mess we're in and play our role in the collective transition, or Great Turning, to a life-sustaining society.

**Meltdown in Tibet** Michael Buckley, 2014-11-11 Tibetans have experienced waves of genocide since the 1950s. Now they are facing ecocide. The Himalayan snowcaps are in meltdown mode, due to climate change—accelerated by a rain of black soot from massive burning of coal and other fuels in both China and India. The mighty rivers of Tibet are being dammed by Chinese engineering consortiums to feed the mainland's thirst for power, and the land is being relentlessly mined in search of minerals to feed China's industrial complex. On the drawing board are plans for a massive engineering project to divert water from Eastern Tibet to water-starved Northern China. Ruthless Chinese repression leaves Tibetans powerless to stop the reckless destruction of their sacred land, but they are not the only victims of this campaign: the nations downstream from Tibet rely heavily on rivers sourced in Tibet for water supply, and for rich silt used in agriculture. This destruction of the region's environment has been happening with little scrutiny until now. In *Meltdown in Tibet*, Michael Buckley turns the spotlight on the darkest side of China's emergence as a global super power.
