**Edward II: With Related Texts** Christopher Marlowe, Stephen J. Lynch. 2015-03-15 This exciting new edition of Edward II is indeed reader friendly. Of particular distinction are the introductory sections which include a thorough account of Marlowe's biography, a fresh critical examination of the play, plus a bibliography for further reading; a wise consideration of the date and text; and extensive annotations, especially helpful to students who have difficulties with the language. Of special value to both students and scholars are the Related Texts that follow the text of the play: three sections of documentary evidence on historical sources; power and politics; and love, friendship, and homoeroticism--all vital to an understanding of the play. No previous edition of the play manages to encompass so much. --Robert A. Logan, University of Hartford

**Global Workplace** Roger Blanpain, Susan Bisom-Rapp. 2014-10-30 The first casebook covering both international and comparative labor and employment law is characterized by its authorship by prolific, respected scholars, all of whom have taught law outside the United States. A solid conceptual framework compares national laws dealing with individual collective employment rights, including antidiscrimination law and privacy law, and considers the systems used to resolve labor and employment disputes in the context of international labor law. A sweeping coverage of international labor law considers the

International Labour Organization, NAFTA and other bilateral trade agreements that include labor standards, and the European Union. In addition, The Global Workplace explores transnational corporations' self-regulatory efforts (or codes of conduct,) and the mechanisms for pursuing international labor standards in United States courts. Comparisons are drawn among the laws of the United States, Canada, Mexico, the United Kingdom, Germany, France, China, Japan and India. Exploring the similarities and the differences among various approaches to the employment relationship allows students to better understand and evaluate the approach each country takes, and helps them develop a normative approach to labor and employment law. National legal materials are presented within historical and cultural context. The International law of expropriation as reflected in the work of the Iran-U.S. claims tribunals Allahyar

Mouri.1994-01-06 This book deals with expropriation and other measures affecting property rights as set out in the awards of the Iran-U.S. Claims Tribunal, and thus examines the relation between general international law and the *lex specialis*, viz., the provisions of the Algiers Declarations and the Treaty of Amity between the Governments of Iran and the United States. It studies what rights have been considered as property rights capable of being independently expropriated or affected by other measures, and what rights have not been so qualified, although they might have been considered as forming an element of valuation. Furthermore, the liability and attributability issues are discussed, as are the methods of compensation and of valuation.

**California Is Still Coming Up Short on Electricity** Sean Randolph.2008-05 Despite California's aggressive response to the 2000-2001 energy crisis & the ongoing work of regulators to reach policy consensus, there is still a meaningful risk that future power supplies will come up short. One of the key drivers of this risk is a highly uncertain investment climate. In addition, the State's power policy still has significant flaws that will challenge long-term reliability & will contribute to continued high retail electricity costs for consumers. This paper highlights the risks of a near- to medium-power-supply shortage & sets forth options policy makers have for alleviating these risks. It also identifies the key longer-term challenges that policy makers face in reforming the State's power sector. Illustrations.

**Literature After Globalization** Philip Leonard. 2013-02-14 Choice Outstanding Academic Title 2014 Literature after Globalization offers a detailed study of recent literary and theoretical responses to technology, globalization, and national identity. Focusing on texts of the the 1990s and 2000s, particularly novels and other writing by Mark Danielewski, Hari Kunzru, Indra Sinha, and Neal Stephenson, it charts a departure from narratives of globalization which declare the collapse

of national cultures, and it considers how national sovereignty has been reinvented and reasserted in the face of technology's transnational effects. Drawing upon recent theoretical responses to technology and culture (including work by Yochai Benkler, Manuel Castells, Gilles Deleuze, Jacques Derrida, N. Katherine Hayles, Paul Virilio, and McKenzie Wark) this book will explore how, in these novels, the notion of an inclusive globalization has been replaced by a sense of national globalism.

**Law, Text, Terror** Peter Goodrich, Lior Barshack, Anton Schutz. 2013-10-18 The essays collected here under the governing signs, Law, Text, Terror have their origins in a singular and topical desire. Their motive is most immediately that of acknowledging the massive and eccentric contribution of the philologist, psychoanalyst and Romanist jurist Pierre Legendre to the study of legal institutions and juridical practices. He has unceasingly asked the question 'why law?' and in endeavouring to answer that question, in the course of over twenty-five books published during the last forty years, he has traversed a unique and uniquely idiosyncratic body of disciplines and knowledges relevant to the symbolic forms and institutional functions of the Western legal order. These essays reflect that singularity of drive as well as that diversity of scholarly interests by taking up, playing with, varying and developing the themes of text and terror, law and territory, that Legendre either introduced or made peculiarly his own.

**Shakespeare's Imaginary Constitution** Paul Raffield. 2010-10-28 Through an examination of six plays by Shakespeare, the author presents an innovative analysis of political developments in the last decade of Elizabethan rule and their representation in poetic drama of the period. The playhouses of London in the 1590s provided a distinctive forum for discourse and dissemination of nascent political ideas. Shakespeare exploited the unique capacity of theatre to humanise contemporary debate concerning the powers of the crown and the extent to which these were limited by law. The autonomous subject of law is represented in the plays considered here as a sentient political being whose natural rights and liberties found an analogue in the narratives of common law, as recorded in juristic texts and law reports of the early modern era. Each chapter reflects a particular aspect of constitutional development in the late-Elizabethan state. These include abuse of the royal prerogative by the crown and its agents; the emergence of a politicised middle class citizenry, empowered by the ascendancy of contract law; the limitations imposed by the courts on the lawful extent of divinely ordained kingship; the natural and rational authority of unwritten *lex terrae*; the poetic imagination of the judiciary and its role in shaping the constitution; and the fusion of temporal and spiritual jurisdiction in the person of the monarch. The book advances original insights into the complex and agonistic relationship between theatre, politics, and law. The plays discussed offer persuasive images both of the crown's absolutist tendencies and of alternative polities predicated upon classical and humanist principles of justice, equity, and community. 'It is now canon in progressive U.S. legal scholarship that to focus solely on the text of our Constitution is myopic. We look as well for constitutional moments, moments when the *zeitgeist* is so transformed that our

fundamental legal charter changes with it. In this breathtakingly erudite book, Paul Raffield argues that the late-Elizabethan period was such a constitutional moment in England, a moment literally played out for the polity by the greatest dramatist of all time. A lawyer and a thespian, Raffield handles both legal and literary sources with exquisite care. As with the works of the Old Masters, one dwells pleasurably on each detail until their cumulative force presses one backward to see the canvas in its sudden, glorious entirety. A major achievement.' Kenji Yoshino Chief Justice Earl Warren Professor of Constitutional Law, NYU School of Law

Whytock. 2022-10-27 The purchase of this ebook edition does not entitle you to receive access to the Connected eBook on CasebookConnect. You will need to purchase a new print book to get access to the full experience including: lifetime access to the online ebook with highlight, annotation, and search capabilities, plus an outline tool and other helpful resources. *Transnational Law and Practice* emphasizes the knowledge and skills that students need to solve the real-world transnational legal problems they are likely to encounter as lawyers in today's globalized world—regardless of their field of practice and regardless of whether they are interested in international law as such. The casebook covers public international law and international courts; but unlike traditional international law casebooks, it urges students not to be “international law-centric” or “international court-centric” and gives them the resources to learn how to use national law and national courts, and private norms and alternative dispute resolution methods, to solve transnational legal problems on behalf of their clients. New to the Second Edition: Substantially re-written chapter on recognition and enforcement of foreign judgments to reflect recent important developments Excerpts from and discussion of new Supreme Court decisions on extraterritoriality, personal jurisdiction, the Alien Tort Statute and Foreign Sovereign Immunity Excerpts from the new Restatement (Fourth) of the Foreign Relations Law of the United States and the draft Restatement of the U.S. Law of International Commercial and Investor-State Arbitration Professors and students will benefit from: A practice-oriented approach that focuses on the knowledge and skills students need to solve real-world transnational legal problems on behalf of their clients. Comparative perspectives throughout. A team of authors with a wide range of expertise and experience in transnational litigation, arbitration, international law, constitutional law and transnational business transactions. An excellent alternative to classic public international law texts for introductory or first-year courses on international or transnational law. Multiple uses: With advanced material on transnational practice in U.S. courts, also ideal for upper-division courses on international civil litigation. Practical materials not traditionally included in public international law casebooks, such as materials on

transnational commercial arbitration and conflict of laws. Extensive explanatory text to facilitate student learning and notes and questions that emphasize real-world lawyering, not just theory and doctrine. Review questions at the end of each chapter to help students synthesize, logically structure, and flowchart complex material.

The International Law Character of the Iran-United States Claims Tribunal Mohsen Mohebi.1999-10-06 Determining whether the Iran-US Claims Tribunal (the Tribunal) is a truly public international tribunal is not merely an interesting theoretical exercise. The Tribunal's legal character has significant ramifications, for example on enforceability at the international level, the applicability and scope of res judicata regarding dismissed claims, and the evidentiary value of its jurisprudence, particularly pursuant to Article 38(1) of the ICJ statute. This title explores the legal character of the Tribunal and its status under the law of peaceful settlement of international disputes. The public or private nature of the Tribunal is a matter of significant controversy. Certain peculiarities of the Tribunal, namely its accessibility to private claimants, the exclusion of the exhaustion of local remedy rule, and the regime provided for the execution of its awards suggests that it is not, in fact, wholly public. Conversely, the author analyses the Tribunal under a three-part test for public international character - (1) international treaty as origin, (2) applicable law international in nature, (3) controlling parties subject to international law - and finds that it meets all three criteria. In doing so, the author admittedly counters the apparent position of the Tribunal itself that its nature is a hybrid of both public and private elements. The International Law Character of the Iran-United States Claims Tribunal includes: - a historical survey on international tribunals; an analysis of the adverse arguments; and - a detailed discussion of the Tribunal's practice on expropriation cases to give a concrete example of its functioning on international law level, is considered in detail inPart Three. The controversial nature of the author's thesis, the thoroughness of the analysis, and the importance of the Tribunal itself make this a book of interest and import for academics who keep abreast of international law developments.

Encyclopedia of Love in World Religions features approximately 300 subject entries, as well as insightful biographic sketches of preeminent thinkers, all written by a multidisciplinary team of some of the foremost scholars on the subject. Collectively, they encompass love's integral—and sometimes conflicting—role in shaping beliefs and behavior in a vastly diverse world.

**Ways to Modernity in Greece and Turkey** Anna Frangoudaki, Caglar Keyder. 2007-04-27 This is a clear and original examination of the impact of modernity on Greece and Turkey, and the influence of the West on these former states of the Ottoman Empire during the crucial hundred years between 1850 and 1950. Ways to Modernity in Greece and Turkey explores the reactions and coping mechanisms displayed in both societies in reaction to Europe's all-pervasive influence. Elites in both societies engaged in defensive modernization, culminating in parallel attempts to mould their nations in line with the western blueprint. The authors examine reforms in the legal regime, the changing nature of family and gender relations, and re-engineered conceptions of space and the built environment. They describe and analyse different aspects of the changes in the two societies over this period, as they defined their practices and identities against Europe, and often against each other.
