Recipe for a Blue Ribbon School Brent Walker, 2007-02 If you keep doing what you have always done, you will continue to get what you have always gotten. Westside Elementary in Powell, Wyoming, went from mediocre scores on the Wyoming State Test to being one of the top academic schools in the state. In *Recipe for a Blue Ribbon School*, author and school principal Brent Walker details different interventions that resulted in Westside being recognized as a No Child Left Behind-Blue Ribbon School. Real change requires you to start using what you already have differently. In most cases the changes were not new but a different way of doing things. The staff started using assessment data to drive the schedules, programs, use of time, collaboration, and use of technology to truly focus on each child becoming proficient in reading, math, and writing. In addition, different amounts of learning time were provided for every student. These two paradigm shifts allowed Westside's staff to prove their philosophy: All kids can learn. True change requires trust, courage, and stamina. By working together as a team using a unique collaboration model, the staff of Westside made passive learners into active learners. Discover how you too can help your students achieve academic greatness!

Buy High, Sell Higher Joe Terranova, 2012-01-03 Whether you're a professional investor or just want to trade like one, *Buy High, Sell Higher* will show you how to pick winners, maximize gains and minimize losses...In this book, you'll learn how

a stock's price is just the beginning of the story, and that other indicators like moving averages and volume can help you to spot stocks that have momentum. You'll also learn how to determine the optimal moment to buy a stock, when to sell it, how to protect yourself against sudden reversals in the market, and how to capitalize on moments when other investors are retreating. What's the best month to buy tech stocks? To sell an energy asset? And what is the one-day of the year that you should never, ever trade on? Answers to these and other questions are just some of the insights that Joe Terranova shares in *Buy High, Sell Higher*. Terranova is a series regular on CNBC's *Fast Money* and the Chief Market Strategist for Virtus Investment Partners, a firm with over \$25 billion in assets under management. Prior to joining Virtus, he spent 18 years at MBF Clearing Corp., where he was the director of trading and managed more than 300 traders. And as viewers of CNBC's *Fast Money* know, Joe is a master at demystifying the forces that drive today's markets. So why not let him show you how to use telltale signs to spot investments that are poised for lift-off.
