Trust and Violence Jan Philipp Reemtsma,2012-04-22 A philosophical investigation into the connections between trust and violence The limiting of violence through state powers is one of the central projects of the modern age. Why then have recent centuries been so bloody? In *Trust and Violence*, acclaimed German intellectual and public figure Jan Philipp Reemtsma demonstrates that the aim of decreasing and deterring violence has gone hand in hand with the misleading idea that violence is abnormal and beyond comprehension. We would be far better off, Reemtsma argues, if we acknowledged the disturbing fact that violence is normal. At the same time, Reemtsma contends that violence cannot be fully understood without delving into the concept of trust. Not in violence, but in trust, rests the foundation of true power. Reemtsma makes his case with a wide-ranging history of ideas about violence, from ancient philosophy through Shakespeare and Schiller to Michel Foucault, and by considering specific cases of extreme violence from medieval torture to the Holocaust and beyond. In the midst of this gloomy account of human tendencies, Reemtsma shrewdly observes that even dictators have to sleep at night and cannot rely on violence alone to ensure their safety. These authoritarian leaders must trust others while, by means other than violence, they must convince others to trust them. The history of violence is therefore a history of the peculiar relationship between violence and trust, and a recognition of trust's crucial place in humanity. A broad and insightful book that touches on philosophy, sociology, and political theory, *Trust and Violence* sheds new, and at times disquieting, light on two integral aspects of our society.

Early Cinema Thomas Elsaesser,Adam Barker,2019-07-25 In the twenty years preceding the First World War, cinema rapidly developed from a fairground curiosity into a major industry and social institution, a source of information and entertainment for millions of people. Only recently have film scholars and historians begun to study these early years of cinema in their own right and not simply as first steps towards the classical narrative cinema we now associate with Hollywood. The essays in this collection trace the fascinating history of how the cinema developed its forms of storytelling and representation and how it evolved into a complex industry with Hollywood rapidly acquiring a dominant role. These issues can be seen to arise from new readings of the so-called pioneers - Melies, Lumiere, Porter, and Griffith - while also suggesting new perspectives on major European filmmakers of the 1910s and 20s. Editor Thomas Elsaesser complements the contributions from leading British, American, and European scholars with introductory essays of his own that provide a comprehensive overview of the field. The volume is the most authoritative survey to date of a key area of contemporary film

research, invaluable to historians as well as to students of cinema.

The Routledge Encyclopedia of Films Sabine Haenni, Sarah Barrow, John White, 2014-09-15 The Routledge Encyclopedia of Films comprises 200 essays by leading film scholars analysing the most important, influential, innovative and interesting films of all time. Arranged alphabetically, each entry explores why each film is significant for those who study film and explores the social, historical and political contexts in which the film was produced. Ranging from Hollywood classics to international bestsellers to lesser-known representations of national cinema, this collection is deliberately broad in scope crossing decades, boundaries and genres. The encyclopedia thus provides an introduction to the historical range and scope of cinema produced throughout the world.

Girl from Mars Tamara Bach, 2008-03-01 Miriam is fifteen and she has lived in the same little town her whole life, going to school with the same kids who know everything about her. But now she's in high school and wishing she lived in a big city where she could meet new people and see new things. In other words, like fifteen-year-olds everywhere, Miriam is desperately waiting for her life to start happening. Something, anything -- a first love, perhaps. And then love comes, in a completely unexpected way, when Miriam meets a new classmate, Laura. Suddenly, life is very complicated and unsettling, as Miriam finds herself lying to her girlfriends, avoiding her brother's probing questions, and second guessing every move she makes. Then Philip, Miriam and Laura take a weekend trip to the big city -- a trip that makes everything clear, and more confusing than ever.

Do Not Become Alarmed Maile Meloy, 2017-06-06 The moving and suspenseful new novel that Ann Patchett calls smart and thrilling and impossible to put down... the book that every reader longs for. "This summer's undoubtable smash hit... an addictive, heart-palpitating story." —Marie Claire The sun is shining, the sea is blue, the children have disappeared. When Liv and Nora decide to take their husbands and children on a holiday cruise, everyone is thrilled. The adults are lulled by the ship's comfort and ease. The four children—ages six to eleven—love the nonstop buffet and their newfound independence. But when they all go ashore for an adventure in Central America, a series of minor misfortunes and miscalculations leads the families farther from the safety of the ship. One minute the children are there, and the next they're gone. The disintegration of the world the families knew—told from the perspectives of both the adults and the children—is both riveting and revealing. The parents, accustomed to security and control, turn on each other and blame themselves, while the seemingly helpless children discover resources they never knew they possessed. *Do Not Become Alarmed* is a story about the protective force of innocence and the limits of parental power, and an insightful look at privileged illusions of safety. Celebrated for her spare and moving fiction, Maile Meloy has written a gripping novel about how quickly what we count on can fall away, and the way a crisis shifts our perceptions of what matters most.

The Hollow Land Jane Gardam,2015-01-06 The barren, beautiful Cumbrian fells provide the bewitching setting for the adventures of Bell and Harry, two children who find enchanting wonder at every turn, as they explore THE HOLLOW LAND. Everyday challenges give a daring edge to this rural work and play. There are ancient mysteries to explore and uncover, like the case of the Egg Witch, and everyone is curious about the Household Name, a wildly famous Londoner moving in to the jewel of the territory, Light Trees Farm. With painterly ease, Jane Gardam's stories fly with a marvelous spirit that will delight readers of all ages!

Robert Bosch Peter Theiner,2019-10-15 Robert Bosch (1861 - 1942) was one of the most successful German entrepreneurs and philanthropists of the 20th century and, at the same time, a pioneer of the social market economy. This book presents a comprehensive and impressive biography of a visionary who thought far ahead of his time like almost no other. Peter Theiner follows the traces of this trailblazer of modernity who founded a global company. 1886, Robert Bosch opened his Werkstätte für Feinmechanik und Elektrotechnik, today's Robert Bosch GmbH, in a modest rear building. Pioneering innovations for motorized vehicles emerged from the young company, and Bosch was quickly able to point to tremendous international successes as an industrialist. Today, his name represents the rise of motor vehicles and electricity in the home. In addition, he also had an impact as a benefactor and philanthropist with a well-developed political profile and a strong sense of social responsibility. In a time of wars and upheaval, in an age of extremes, Bosch positioned himself as a staunch Democrat who cut against the grain of German history.

Jessica's Ghost Andrew Norriss,2014-03-05 Francis has never had a friend like Jessica before. She's the first person he's ever met who can make him feel completely himself. Jessica has never had a friend like Francis before. Not just because he's someone to laugh with every day - but because he's the first person who has ever been able to see her . . . Jessica's Ghost is a funny, moving and beautiful book by a master storyteller, about the power of friendship to shine a warm light into dark places.

Go Saddle the Sea Joan Aiken,2007-05-01 Felix Brooke, the orphaned son of an English soldier and an aristocratic Spanish mother, has been raised in the strict, loveless household of his grandfather in Villaverde, Spain. When Felix gains possession of a letter that contains a clue to the whereabouts of his father's family, he gladly runs away from home to pursue the trail. His journey from Spain to far-off England begins the adventure of a lifetime.

Mortimer and the Sword Excalibur Joan Aiken,Quentin Blake,2005-07-01 This is the fifth title to be published by Barn Owl about Arabel and her beloved but impossible raven, Mortimer. An enormous hole is being dug in the park and rumour has it that King Arthur's round table is buried there. None of this interests Mortimer however; his fancy has been taken by the giant grass-cutting machine, the LawnSabre. Mortimer finally gets to work the machine but with disastrous consequences for the round table and the sword Excalibur! Another funny and outrageous story about Arabel and Mortimer

from Joan Aiken and Quentin Blake.

The Day My Father Became a Bush Joke van Leeuwen, 2014 When fighting breaks out in the south, Toda's father is sent there to defend his country, and when living in the city with her grandmother is no longer safe, she is sent across the border to be with her mother.

The Noble Art of the Sword Tobias Capwell, Sydney Anglo, 2012 Accompanying a major international exhibition at the Wallace Collection (May - September 2012), this book celebrates the artistic and cultural importance of the sword, as a symbol of power and prestige, as a flamboyant fashion statement and as an icon of the Age of Discovery. It will feature weapons and related works of art from the Wallace Collection as well as other great collections of arms and armor; never-before-seen illustrated works on fencing drawn from the library of the 8th Lord Howard de Walden; and portraits, prints, and drawings that will help place the Renaissance civilian sword in its social and artistic context. It will also explore the ancient origins of the modern sport of fencing, one of only nine original Olympic events practiced since the first Olympiad of the modern era of 1896, revealing a place in history where art and sport converged.
