WJP Rule of Law Index 2016, 2016-10-20 The World Justice Project (WJP) joins efforts to produce reliable data on rule of law through the WJP Rule of Law Index 2016, the sixth report in an annual series, which measures rule of law based on the experiences and perceptions of the general public and in-country experts worldwide. We hope this annual publication, anchored in actual experiences, will help identify strengths and weaknesses in each country under review and encourage policy choices that strengthen the rule of law. The WJP Rule of Law Index 2016 presents a portrait of the rule of law in each country by providing scores and rankings organized around eight factors: constraints on government powers, absence of corruption, open government, fundamental rights, order and security, regulatory enforcement, civil justice, and criminal justice. A ninth factor, informal justice, is measured but not included in aggregated scores and rankings. These factors are intended to reflect how people experience rule of law in everyday life. The country scores and rankings for the WJP Rule of Law Index 2016 are derived from more than 110,000 households and 2,700 expert surveys in 113 countries and jurisdictions. The Index is the world's most comprehensive data set of its kind and the only to rely solely on primary data, measuring a nation's adherence to the rule of law from the perspective of how ordinary people experience it. These features make the Index a powerful tool that can help identify strengths and weaknesses in each country, and help to inform policy debates, both within and across countries, that advance the rule of law.

European Health Law Andre Den Exter, 2017 'European Health Law' is the result of a long-term collaboration project between academic health lawyers working at various European research institutions. The result is a comprehensive volume on health law, exploring various aspects of health law. Health law - as understood by the authors - reflects a so-called triangular relationship between the patient, health provider and health financier. As such, this volume covers a wide range of topics focussing on patients' rights and duties, the role of health professionals, and health care financing and rationing, as well as public health and health related issues, such as occupational health and environmental health.

Czech Law Michal Tomášek,2010 In 2005 the Ministry of Education, Youth and Sports of the Czech Republic granted to the Charles University Law Faculty funds to research developments in Czech law from the last twenty years. Their findings were compiled into a four-volume collection entitled *New Phenomena in Law at the Beginning of the 21st Century*. In *Czech Law Between Europeanization and Globalization*, editor Michal Tomášek features those selections from the original monograph that are most relevant to an international audience. Translated into English, the texts in this collection are divided into four sections: Historical Impulses for the Development of Law, Theoretical and Constitutional Impulses for the Development of Law, Transformation of Public Law, and Transformation of Private Law. Accompanying each section are extensive bibliographies to help those unfamiliar with the Czech legal system. A major contribution from many of the leading Czech legal scholars, *Czech Law Between Europeanization and Globalization* provides necessary background to all who study comparative, European, and international law.

Bankruptcy Tax Guide - Publication 908 (For Use in Preparing 2020 Return) Internal Revenue Service,2021-03-05 This publication isn't intended to cover bankruptcy law in general, or to provide detailed discussions of the tax rules for the more complex corporate bankruptcy reorganizations or other highly technical transactions. Additionally, this publication isn't updated on an annual basis and may not reflect recent developments in bankruptcy or tax law. If you need more guidance on the bankruptcy or tax laws applicable to your case, you should seek professional advice. This publication explains the basic federal income tax aspects of bankruptcy. A fundamental goal of the bankruptcy laws enacted by Congress is to give an honest debtor a financial fresh start. This is accomplished through the bankruptcy discharge, which is a permanent injunction (court-ordered prohibition) against the collection of certain debts as a personal liability of the debtor. Bankruptcy proceedings begin with the filing of either a voluntary petition in the United States Bankruptcy Court, or in certain cases an involuntary petition filed by creditors.

Examples from other countries are also discussed, in particular some of the Balkan countries, where the parallel process of building a national identity while also establishing a European one is taking place.
