SuperTutor Exam Prep Property and Casualty Mike Hanover.2017-07-24 Cutting-Edge Test-Taking Methods, Proven To SucceedWith such detailed, thorough guides already available, why do students still have so much trouble passing the Property and Casualty Insurance exam?That was the question insurance veteran Mike Hanover kept asking himself. After

surveying the market, he found his answer: The right test-prep methods had not been put into a book yet. So he sat down and carefully put together this unique book and test-prep system - based on his own proven track record of success. Namely, a system that has helped students pass, after all other attempts had failed. Hanover knows the insurance profession from the inside out. He has sold insurance; recruited, trained and managed agents; even directed attorneys and claims adjusters. But most important to you, the author has taught P&C test-prep classes for time-pressured people who had not previously been able to pass the test. Students love his classes, because afterwards they walk into the exam room and pass the test. Hanover spent years honing a method of presenting information that's completely different than the traditional firehose approach. Traditional test-prep methods ask students to turn themselves into giant mental sponges - absorbing massive amounts of unfamiliar information, seemingly at random, and then somehow knowing just how to squeeze out the right droplet of information when it comes time to answer a question in the exam room. Of course, the traditional approach doesn't work for a lot of people in the real world. Hanover's SuperTutor approach is different. It's designed to match closely how learning actually takes place in adults. This method organizes small, manageable clusters of information around simple core concepts. This means first, you easily internalize each concept. And that makes it much easier to answer any given test question correctly. Why is it easier? Because with the SuperTutor method, you answer from a position of strength. You already know the core concept. Your confidence is high, and the right answer is obvious. If you're getting ready for the property and casualty insurance exam, let SuperTutor's exam prep guide help you pass your test. With almost 800 different sample questions with easy to understand explanations, this book helps you quickly understand the terms and concepts you will see on your property and casualty exam, so you can pass your test the first time. And since it is electronic, you can start studying right away. If you don't have a Kindle Device, you can access this material on most computers or tablets with the Kindle Application, or read it online in the Kindle Cloud Reader. The first part of this book covers general insurance, personal lines insurance, and commercial insurance. Each section contains questions and answers similar to what you're likely to encounter on your property and casualty exam. After you have studied the individual sections, there are three 150-question practice exams using questions you have already studied. Use this to verify you have mastered the material. The final study section is an assessment test. It contains 150 questions you have not seen before. Each question is similar to what you have studied, but worded differently. People who score at least 80% on this section almost always pass their state insurance exam. If you're short on time, don't worry! Start with the assessment test, and use that to determine which areas you need the most practice with. The SuperTutor method is streamlined, to help you maximize your study time and pass the test easily. Pick up SuperTutor Property & Casualty Exam Prep today, so you can pass your test and begin a new, rewarding career.

We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. You should use this product together with other study resources for the best possible exam prep coverage. This product focuses on principles and concepts related to property insurance.

Property & Casualty Exam Practice Questions Exam Secrets Test Prep Staff P-C.2018-04-12 Property & Casualty Exam Practice Questions are the simplest way to prepare for the Property & Casualty Insurance Exam. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. If someone has never taken a practice test, then they are unprepared for the types of questions and answer choices that they will encounter on the official test. There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices. Another advantage of taking practice tests is that you can assess your performance and see if you need to study and practice more, or if you're already prepared enough to achieve success on your test day. If you do well on the practice test, then you know you're prepared. If you struggle on the practice test, then you know you may still have more work to do to get prepared. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our Property & Casualty Exam Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our Property & Casualty Exam Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand.

Supertutor Exam Prep Property & Casualty Mike Hanover.2016-05-28 Cutting-Edge Test-Taking Methods, Proven To Succeed With such detailed, thorough guides already available, why do students still have so much trouble passing the Property and Casualty Insurance exam? That was the question insurance veteran Mike Hanover kept asking himself. After surveying the market, he found his answer: The right test-prep methods had not been put into a book yet. So he sat down carefully put together this unique book and test-prep system - based on his own proven track record of success. Namely, a system that has helped students pass, after all other attempts had failed. Hanover knows the insurance profession from the inside out. He has sold insurance; recruited, trained and managed agents; even directed attorneys and claims adjusters. But most important to you, the author has taught P&C test-prep classes for time-pressured people who had not previously been

able to pass the test. Students love his classes, because afterwards they walk into the exam room and pass the test. Hanover spent years honing a method of presenting information that's completely different than the traditional firehose approach. Traditional test-prep methods ask students to turn themselves into giant mental sponges - absorbing massive amounts of unfamiliar information, seemingly at random, and then somehow knowing just how to squeeze out the right droplet of information when it comes time to answer a question in the exam room. Of course, the traditional approach doesn't work for a lot of people in the real world. Hanover's SuperTutor approach is different. It's designed to match closely how learning actually takes place in adults. This method organizes small, manageable clusters of information around simple core concepts. This means first, you easily internalize each concept. And that makes it much easier to answer any given test question correctly. Why is it easier? Because with the SuperTutor method, you answer from a position of strength. You already know the core concept. Your confidence is high, and the right answer is obvious. If you're getting ready for the property and casualty insurance exam, let SuperTutor's exam prep guide help you pass your test. With more than 800 different sample questions with easy to understand explanations, this book helps you quickly understand the terms and concepts you will see on your property and casualty exam, so you can pass your test the first time. And since it is electronic, you can start studying right away. If you don't have a Kindle Device, you can access this material on most computers or tablets with the Kindle Application, or read it online in the Kindle Cloud Reader. The first part of this book covers general insurance, personal lines insurance, and commercial insurance. Each section contains 25 questions followed by the question with the right answer, allowing you to focus your study time. After you have studied the individual sections, there are three 150-question practice exams using questions you have already studied. Use this to verify you have mastered the material. The final study section is an assessment test. It contains 150 questions you have not seen before. Each question is similar to what you have studied, but worded differently. People who score at least 80% on this section almost always pass their state insurance exam. If you're short on time, don't worry! Start with the assessment test, and use that to determine which areas you need the most practice with. The SuperTutor method is streamlined, to help you maximize your study time and pass the test easily. Pick up SuperTutor Property & Casualty Exam Prep today, so you can pass your test and begin a new, rewarding career.
