365 Sports Cars You Must Drive John Lamm,Steve Sutcliffe,Larry Edsall,James Mann,Kris Palmer,2020-10-27 365 Sports Cars You Must Drive puts you in the driver's seat of a century's worth of sports car legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase getting there is half the fun must have owned a sports car. And the wag who suggested that it's the journey not the destination? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck magazine chief photographer John Lamm, along with other top motoring contributors, gives the reader illustrated profiles of every sports car you've ever dreamed of driving! Now, imagine if you could drive a different sports car—any sports car—every single day for a year. Which would you choose?

Italian Modern, a Design Heritage Giovanni Albera,Nicolas Monti,1989 A selective view of the best of industrial production from the country that is today universally recognized as the most stimulating design source in the world. Nearly 200 pages are devoted to hundreds of full-color illustrations of objects.

Primo Levi Ian Thomson,2014-03-11 Primo Levi, author of *Survival in Auschwitz* and *The Periodic Table*, wrote books that have been called the essential works of humankind. Yet he lived an unremarkable existence, remaining until his death in the house in which he'd been born; managing a paint and varnish factory for thirty years; and tending his invalid mother to the

last. Now, in a matchless account, Ian Thomson unravels the strands of a life as improbable as it was influential, the story of the most modest of men who became a universal touchstone of conscience and humanism. Drawing on exclusive access to family members and previously unseen correspondence, Thomson reconstructs the world of Levi's youth--the rhythms of Jewish life in Turin during the Mussolini years--as well as his experience in Auschwitz and difficult reintegration into postwar Italy. Thomson presents Levi in all his facets: his fondness for Louis Armstrong and fast cars, his insomnia and many near-catastrophic work accidents. Finally, he explores the controversy and isolation of Levi's later years, along with the increasing tensions in his life--between his private anguish and gift for friendship; his severe bouts of depression and passion for life and ideas; his pervasive dread and reasoned, pragmatic ethic. Praised in Britain as the best sort of history and a model of its kind, Primo Levi: A Life is certain to take its place as the standard biography and a necessary companion to the works themselves.

The German Defense Of Berlin Oberst a.D. Wilhem Willemar, 2015-11-06 Often written during imprisonment in Allied War camps by former German officers, with their memories of the World War fresh in their minds, The Foreign Military Studies series offers rare glimpses into the Third Reich. In this study Oberst a.D. Wilhem Willemar discusses his recollections of the climatic battle for Berlin from within the Wehrmacht. "No cohesive, over-all plan for the defense of Berlin was ever actually prepared. All that existed was the stubborn determination of Hitler to defend the capital of the Reich. Circumstances were such that he gave no thought to defending the city until it was much too late for any kind of advance planning. Thus the city's defense was characterized only by a mass of improvisations. These reveal a state of total confusion in which the pressure of the enemy, the organizational chaos on the German side, and the catastrophic shortage of human and material resources for the defense combined with disastrous effect. "The author describes these conditions in a clear, accurate report which I rate very highly. He goes beyond the more narrow concept of planning and offers the first German account of the defense of Berlin to be based upon thorough research. I attach great importance to this study from the standpoint of military history and concur with the military opinions expressed by the author."-Foreword by Generaloberst a.D. Franz Halder.

FIAT in Motorsport ANTHONY. BAGNALL, Tony Bagnall, 2020-09-22 FIAT in Motorsport is an in-depth look at Fiat's historical and prestigious involvement in all forms of motorsport from the earliest days of racing right up to the present day. The achievements of the cars and drivers are described in detail, along with many original photographs, sourced from the official Fiat archives. In the early days, before the First World War, Fiat was a major contender in Grand Prix racing, and employed many of the leading drivers of the era. Although it withdrew from Grand Prix racing in 1927, Fiat cars were still to be seen participating in high-profile races, such as the Mille Miglia. In these events most Fiat models were sports editions of the highly successful 'Balilla' range. In 1952 the introduction of the sensational 8V coupé resulted in many racing successes

in private owners' hands, while the late 1950s saw the introduction of 'Formula Junior' class of racing and Fiat-engined cars were very successful in the early years. In the 1970s, Abarth, then owned by Fiat, successfully ran the rally team, which resulted in three World Championships. Speed record attempts over the years are also detailed in this fascinating history of Fiat's sporting achievements.

Italian Fascism and Developmental Dictatorship A. James Gregor,2014-07-14 Political scientists generally have been disposed to treat Italian Fascism--if not generic fascism--as an idiosyncratic episode in the special history of Europe. James Gregor contends, to the contrary, that Italian Fascism has much in common with an inclusive class of developmental revolutionary regimes. Originally published in 1980.
