**Apprenticed to Justice** Kimberly M. Blaeser, 2007 *Apprenticed to Justice* is a collection of vividly rendered lyrical and narrative poems that trace the complex inheritances of Indigenous America, this "eoestrane map drawn of blood and history." It opens with intriguing glimpses of individuals "a mother "eoborn of dawn / in a reckless moon of miscegenation," "cousins "eowho rotated authority / on marbles sex and skunk etiquette," "women "eoeplanting dreams with dank names like rutabaga and kohlrabi" "and it turns on the notion of legacy. From what dark turmoil of earth do we emerge? How and what do we inherit? To what mesh of tangled origins do we live apprenticed? These are the literal and the metaphorical questions Anishinaabe author Kimberly Blaeser asks in this, her third collection of poetry. Grounded in rich details of places from the Boundary Waters Canoe Area Wilderness to the arctic region of Kirkenes, Norway, the poems link the people and the landscapes through storytelling. Narratives range from the comedy of a missing outhouse floor to the longing for the return of an MIA. The storied landscapes of the poems, the "eoeRocky bottom allotted land(s) / twenty-eight slow horse miles / from the village store," also become intertwined with tribal history. And the remembered tribal accounts of scorched earth campaigns or the Trail of Tears in their turn become enmeshed with contemporary justice issues including Potlatch "e(tm)s relentless clear cutting of forest lands and the strange cannibalism inherent in Sr. Inez Hilger "e(tm)s study of "eoeother "e cultures like that at Blaeser "e(tm)s home, White Earth Reservation. Ultimately, attention to these justice issues invoke the lives of tribal elders whose figurative "eoefragile houses / pegged at the corners with only hope" somehow represent and teach survival. Finally, each movement in the book connects back to the act of writing, to the poems themselves as both remembrance and a kind of revolution "eoe these fingers / drumming on keys."

**The Poetry and Poetics of Gerald Vizenor** Deborah L. Madsen, 2012 The first book devoted exclusively to the poetry and literary aesthetics of one of Native America's most accomplished writers, this collection of essays brings together detailed critical analyses of single texts and individual poetry collections from diverse theoretical perspectives, along with comparative discussions of Vizenor's related works. Contributors discuss Vizenor's philosophy of poetic expression, his innovations in diverse poetic genres, and the dynamic interrelationships between Vizenor's poetry and his prose writings. Throughout his poetic career Vizenor has returned to common tropes, themes, and structures. Indeed, it is difficult to distinguish clearly his work in poetry from his prose, fiction, and drama. The essays gathered in this collection offer powerful

evidence of the continuing influence of Anishinaabe dream songs and the haiku form in Vizenor's novels, stories, and theoretical essays; this influence is most obvious at the level of grammatical structure and imagistic composition but can also be discerned in terms of themes and issues to which Vizenor continues to return.

*Mediating Indianness* Cathy Covell Waegner, 2015-02-01 *Mediating Indianness* investigates a wide range of media—including print, film, theater, ritual dance, music, recorded interviews, photography, and treaty rhetoric—that have been used in exploitative, informative, educative, sustaining, protesting, or entertaining ways to negotiate Native American identities and images. The contributors to this collection are (Native) American and European scholars whose initial findings were presented or performed in a four-panel format at the 2012 MESEA (Society for Multi-Ethnic Studies: Europe and the Americas) conference in Barcelona. The selection of the term Indianness is deliberate. It points to the intricate construction of ethnicity as filtered through media, despite frequent assertions of “authenticity.” From William “Buffalo Bill” Cody’s claim, extravagantly advertised on both sides of the Atlantic, that he was staging “true-to-life” scenes from Indian life in his Wild West shows to contemporary Native hip-hop artist Quetzal MC’s announcement that his songs tell his people’s “own history” and draw on their “true” culture, media of all types has served to promote disparate agendas claiming legitimacy. This volume does not shy away from the issue of evaluation and how it is only tangential to medial artificiality. As evidenced in this collection, “the vibrant, ever-transforming future of Native peoples is located within a complex intersection of cultural influences,” said Susan Power, author of *Sacred Wilderness*.

*The Failure of Certain Charms* Gordon Henry, 2007 This is a poetically charged work of autobiographical retrospection, speculative memory and an artistic alternative to common constructions of identity. The influences include traditional songs, ceremonial undercurrents, dream vehicles, disparate landscapes, chemical vapors, relative longings and belief in the possibility of healing again and again even after death. Some works herein are water-source clear, some are abstract meditative breaths, some are ironic dialogues with memorial humor and some are attempts to tease characters out into the open. This collection is held together by relatives, fragments, an undeniable belief in the creative force of even the slightest wisp of memory.

*Stirring Up the Water* Cat Ruiz, 2008 *Stirring up the Water* is a river of merging currents. In this award-winning first collection, the waters are at times stirred softly as though with the tips of the fingers, and at times harshly like an oar thrusting into the water’s depths. These poems address issues of ethnic identity, class, and love. They explore life’s injustices and dive into ages-old religious-spiritual questioning, casting their nets far across a philosophical sea. Ruiz “charts her stories” around the world from Australia to Canada to Spain, and lets herself “be carried by the current” of each place, “listening and learning” from them without intruding upon their sanctity. She contemplates the natural world by “living in the moment of bird wing and flight,” and by showing the ever-present “cycle of life, journey, death, then life again.” After

exploring the tough and the gentle sides of human behaviour, she discovers the depth and purity at the core of human love. With these poetic waters we see that to live “at the edge” is no less bountiful than to live with a sense of normality and is often more conducive to seeing and knowing “the mystery.” Presented in freestyle verse and formal rhythms, *Stirring up the Water* is honest and forthright, at times simple and at times complex in vision. These waters offer channels of wisdom that are accessible to all seekers, poets and non-poets alike. *Stirring up the Water* won the First Book Award in Poetry from the Native Writers Circle of the Americas.

**Absentee Indians and Other Poems** Kimberly Blaeser, 2002-10-31 *Absentee Indians and Other Poems* evokes personal yet universal experiences of the places that Native Americans call home, their family and national histories, and the emotional forces that help forge Native American identities. These are poems of exile, loss, and the celebration of that which remains. Anchored in the physical landscape, Blaeser’s poetry finds the sacred in those ordinary actions that bind a community together. As Blaeser turns to the mysterious passage from sleeping to wakefulness, or from nature to spirit, she reveals not merely the movement from one age or place to another, but the movement from experience to vision.

The Poems of Sidney West Juan Gelman, 2008 This translation offers to English readers for the first time the splendid verse of imaginary American author Sidney West, created by Juan Gelman, one of the greatest living poets of the Hispanic world. These laments question Western assumptions surrounding death, erase boundaries between poetry and narrative, privilege the magical as a vital aspect of reality and seek the transformation of the lyric persona.

**A Book of Golden Deeds of All Times and All Lands** Charlotte Mary Yonge, 1913

Journal with No Subject Juan Calzadilla, 2008 The first collection of the poetry of Juan Calzadilla to be translated into English, *Journal with No Subject* spans eleven books published from 1962 to the present. This poetry denounces the dehumanization of modernity, appropriates surrealistic language, questions identity and poetry itself, and dissolves the coherent, autonomous subject. Uniting political and aesthetic radicalism, Calzadilla ultimately reestablishes faith in poetry.

**Effigies III** Allison Adelle Hedge Coke, Brandy Nālani McDougall, Craig Santos Perez, 2019-02-15 This anthology furthers this braiding with the work of four emerging Pacific islander women poets from Guam, Hawai’i, and Fiji. Despite their distant origins, all these writers explore culture, history, politics, genealogy, feminism, and the environment. They each have their own unique style, ranging from the lyric to the avant-garde.

**Copper Yearning** Kimberly Blaeser, 2020-07-14 *Copper Yearning* invests itself in a compassionate dual vision—bearing witness to the lush beauty of our intricately woven environments and to the historical and contemporary perils that threaten them. Kimberly Blaeser’s fourth collection of poetry deftly reflects her Indigenous perspective and a global awareness. Through vividly rendered images, the poems dwell among watery geographies, alive to each natural nuance, alive also to the uncanny. Set in fishing boats, in dreams, in prisons, in memory, or in far flung countries like Bahrain, the pieces sing of

mythic truths and of the poignant everyday injustices. But, whether resisting threats to effigy mounds or inhabiting the otherness of river otter, ultimately they voice a universal longing for a place of balance, a way of being in the world—for the ineffable.

**One World, One Earth** Meryl Hammond, Rob Collins, 1993 One World, One Earth is a handbook for adults who want to work with children to explore peace, environmental and social justice issues. It features sensitive discussions about how to co-learn and co-lead with young people, and detailed suggestions for organizing a group within existing institutions (schools, scout troops, churches), creating a cooperative learning environment, involving the wider community, and sustaining enthusiasm.

**The Tyranny of Big Tech** Josh Hawley, 2021-05-04 The reign of Big Tech is here, and Americans' First Amendment rights hang by a keystroke. Amassing unimaginable amounts of personal data, giants like Google, Facebook, Amazon, and Apple—once symbols of American ingenuity and freedom—have become a techno-oligarchy with overwhelming economic and political power. Decades of unchecked data collection have given Big Tech more targeted control over Americans' daily lives than any company or government in the world. In The Tyranny of Big Tech, Senator Josh Hawley of Missouri argues that these mega-corporations—controlled by the robber barons of the modern era—are the gravest threat to American liberty in decades. To reverse course, Hawley argues, we must correct progressives' mistakes of the past. That means recovering the link between liberty and democratic participation, building an economy that makes the working class strong, independent, and beholden to no one, and curbing the influence of corporate and political elites. Big Tech and its allies do not deal gently with those who cross them, and Senator Hawley proudly bears his own battle scars. But hubris is dangerous. The time is ripe to overcome the tyranny of Big Tech by reshaping the business and legal landscape of the digital world.

**Imperialism** John Atkinson Hobson, 1902

**The Conquest of Bread** Peter Kropotkin, 2021-07-21T00:29:42Z The Conquest of Bread is a political treatise written by the anarcho-communist philosopher Peter Kropotkin. Written after a split between anarchists and Marxists at the First International (a 19th-century association of left-wing radicals), The Conquest of Bread advocates a path to a communist society distinct from Marx and Engels's Communist Manifesto, rooted in the principles of mutual aid and voluntary cooperation. Since its original publication in 1892, The Conquest of Bread has immensely influenced both anarchist theory and anarchist praxis. As one of the first comprehensive works of anarcho-communist theory published for wide distribution, it both popularized anarchism in general and encouraged a shift in anarchist thought from individualist anarchism to social anarchism. It was also an influential text among the Spanish anarchists in the Spanish Civil War of the 1930s, and the late anarchist theorist and anthropologist David Graeber cited the book as an inspiration for the Occupy movement of the early 2010s in his 2011 book Debt: The First 5,000 Years. This book is part of the Standard Ebooks project, which produces free

public domain ebooks.

*The Mandaean Book of John* Charles G. Häberl, James F. McGrath, 2019-11-18 Given the degree of popular fascination with Gnostic religions, it is surprising how few pay attention to the one such religion that has survived from antiquity until the present day: Mandaism. Mandaeans, who esteem John the Baptist as the most famous adherent to their religion, have in our time found themselves driven from their historic homelands by war and oppression. Today, they are a community in crisis, but they provide us with unparalleled access to a library of ancient Gnostic scriptures, as part of the living tradition that has sustained them across the centuries. Gnostic texts such as these have caught popular interest in recent times, as traditional assumptions about the original forms and cultural contexts of related religious traditions, such as Judaism, Christianity, and Islam, have been called into question. However, we can learn only so much from texts in isolation from their own contexts. Mandaean literature uniquely allows us not only to increase our knowledge about Gnosticism, and by extension all these other religions, but also to observe the relationship between Gnostic texts, rituals, beliefs, and living practices, both historically and in the present day.

**Why We Read Fiction** Lisa Zunshine, 2006 Why We Read Fiction offers a lucid overview of the most exciting area of research in contemporary cognitive psychology known as Theory of Mind and discusses its implications for literary studies. It covers a broad range of fictional narratives, from Richardson's *Clarissa*, Dostoyevski's *Crime and Punishment*, and Austen's *Pride and Prejudice* to Woolf's *Mrs. Dalloway*, Nabokov's *Lolita*, and Hammett's *The Maltese Falcon*. Zunshine's surprising new interpretations of well-known literary texts and popular cultural representations constantly prod her readers to rethink their own interest in fictional narrative. Written for a general audience, this study provides a jargon-free introduction to the rapidly growing interdisciplinary field known as cognitive approaches to literature and culture.

*American Military History Volume 1* Army Center of Military History, 2016-06-05 American Military History provides the United States Army-in particular, its young officers, NCOs, and cadets-with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the United States was already a world power. The Army had sent large expeditionary forces beyond the American

hemisphere, and at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a generation would shape the Army of the future. But world war-global war-was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009.

*Hoosiers and the American Story* Madison, James H., Sandweiss, Lee Ann, 2014-10 A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

*The Continental Army* Robert K. Wright, 1983 A narrative analysis of the complex evolution of the Continental Army, with the lineages of the 177 individual units that comprised the Army, and fourteen charts depicting regimental organization.
