Cavalos Marchadores Do Brasil José Luiz Côrtes Gama,2015-06-10 A introdução do cavalo ibérico no Brasil Colônia, após curvas e contracurvas, foi responsável pela formação de seis raças nacionais de cavalos marchadores e de uma raça de asinino de marcha. Este livro mergulha no universo conturbado do cavalo marchador. Dakota White David Rhody,2006-09 Forty-five year old Gus Gravesen is a successful San Francisco event producer. Mid-career and midlife, he is still in love with his wife and enjoys his job. But one odd and engaging trip to the Black Hills of South Dakota changes his life. Gus becomes obsessed with the plight of the Lakota Sioux and with the role his family might have played in their oppression decades before. Recurring trips to the Black Hills fuel Gus's fascination. Although he was always intrigued by his South Dakota roots, Gus can suddenly think of little else. Putting his California life at risk, he sets up shop in Hill City, South Dakota, where he entangles a Lakota couple in a project driven by his white man's guilt. Gus plans to hold a major race to raise funds for the Crazy Horse Monument, a mountain sculpture honoring the great Oglala Sioux warrior. When his obsession brings him near his breaking point, Gus finds a savior in the form of a mysterious old Sioux named White Owl. But will Gus be able to come to terms with the past?

Newton and His Falling Apple Kjartan Poskitt, 2011 Everybody's heard of Isaac Newtown. He is horribly famous for discovering gravity, being clever and getting hit on the head with an apple. Everything you ever wanted to know about the man with the apple.

Einstein's Greatest Mistake David Bodanis, 2016-09-29 Widely considered the greatest genius of all time, Albert Einstein revolutionised our understanding of the cosmos with his general theory of relativity and helped to lead us into the atomic age. Yet in the final decades of his life he was also ignored by most working scientists, his ideas opposed by even his closest friends. This stunning downfall can be traced to Einstein's earliest successes and to personal qualities that were at first his best assets. Einstein's imagination and self-confidence served him well as he sought to reveal the universe's structure, but when it came to newer revelations in the field of quantum mechanics, these same traits undermined his quest for the ultimate truth. David Bodanis traces the arc of Einstein's intellectual development across his professional and personal life, showing how Einstein's confidence in his own powers of intuition proved to be both his greatest strength and his ultimate undoing. He was a fallible genius. An intimate and enlightening biography of the celebrated physicist, Einstein's Greatest Mistake reveals how much we owe Einstein today - and how much more he might have achieved if not for his all-too-human flaws.

Wolf Called Sadie Moss, 2019-03-02 My world was a gray blur until I met them. My shifters. The men who rescued me from the lie I was living. For a brief moment, even in the midst of chaos, I found happiness. Then Strand found me again. Now my new life hangs in the balance. Doctor Shepherd isn't done with his little experiment, and he wants me back, alive. When Strand hunters rip me away from everything good I fought so hard for, something inside me snaps. But when my wolf is finally called, her untamed power upends everything in my life--including my relationships with the four shifter men who mean more to me than anything. There's a monster inside me. And she'll either save me or destroy me. Wolf Called is the second book in The Last Shifter series, a reverse harem story intended for ages 18+. This book contains strong language, violence, sexual situations, and a heroine who doesn't have to choose between her men.

Landscapes of the Metropolis of Death Otto Dov Kulka,2013-01-31 Otto Dov Kulka's memoir of a childhood spent in Auschwitz is a literary feat of astounding emotional power, exploring the permanent and indelible marks left by the Holocaust Winner of the JEWISH QUARTERLY-WINGATE PRIZE 2014 As a child, the distinguished historian Otto Dov Kulka was sent first to the ghetto of Theresienstadt and then to Auschwitz. As one of the few survivors he has spent much of his life studying Nazism and the Holocaust, but always as a discipline requiring the greatest coldness and objectivity, with his personal story set to one side. But he has remained haunted by specific memories and images, thoughts he has been unable to shake off. Translated by Ralph Mandel. 'The greatest book on Auschwitz since Primo Levi ... Kulka has achieved the impossible' - the panel of Judges, Jewish Quarterly-Wingate Prize

The New Reform Judaism Dana Evan Kaplan,2020-04-01 This is the book that American Jews and particularly American Reform Jews have been waiting for: a clear and informed call for further reform in the Reform movement. In light of profound demographic, social, and technological developments, it has become increasingly clear that the Reform movement will need to make major changes to meet the needs of a quickly evolving American Jewish population. Younger Americans in particular differ from previous generations in how they relate to organized religion, often preferring to network through virtual groups or gather in informal settings of their own choosing. Dana Evan Kaplan, an American Reform Jew and pulpit rabbi, argues that rather than focusing on the importance of loyalty to community, Reform Judaism must determine how to engage the individual in a search for existential meaning. It should move us toward a critical scholarly understanding of the Hebrew Bible, that we may emerge with the perspectives required by a postmodern world. Such a Reform Judaism can at once help us understand how the ancient world molded our most cherished religious traditions and guide us in addressing the increasingly complex social problems of our day.

The Boundaries of Judaism Donniel Hartman,2007-09-27 The factionalism and denominationalism of modern Jewry makes it supremely difficult to create a definition of the Jewish people. Instead of serving as a uniting force around which community is formed, Judaism has itself become a source of divisions. Consequently, attempts to identify beliefs or practices essential for membership in the Jewish people are almost doomed to failure. Aiming to take readers beyond the divisions that characterize modern Jewry, this book explores the ever contentious question of who is a Jew. Through a historical survey of the shifting boundaries of Jewish identity and deviance over time, the book provides new insights into how Jewish law over the centuries has erected boundaries to govern and maintain the collective identity of the Jewish people. Drawing on these historical strategies the book identifies the causes and reasons that underlie them, and employs these in order to help construct a guide for creating a structure of boundaries relevant for contemporary Jewish existence.

500 Cookies Philippa Vanstone, Carol Beckerman, 2013 There's nothing more appealing than a freshly baked batch of cookies cooling on a rack, and the sweet, sugary smells that fill the kitchen. Since 2005, 500 Cookies has been the go-to cookie book for thousands of home cooks. Now a second edition, with more than 170 new recipes plus a new chapter on Indulgent Cookies, will carry on the tradition. Here is everything you need to know including an invaluable introduction to all the basic cookie-making techniques, followed by 500 clear and easy-to-follow recipes. Recipes gathered from around the world include family favorites as well as new delicacies. 500 Cookies is the go-to book for both expert and novice cookie bakers everywhere.

A Life of Meaning Rabbi Dana Evan Kaplan, PhD, 2017-11-28 Reform Judaism is constantly evolving as we continue to seek a faith that is in harmony with our beliefs and experiences. This volume offers readers a thought-provoking collection of essays by rabbis, cantors, and other scholars who differ, sometimes passionately, over religious practice, experience, and belief. Its goal is to situate Judaism in a contemporary context, and it is uniquely suited for community discussion as well as study groups.

The Sugar Trade Daniel Strum, 2013 This book provides a thoroughly researched and richly illustrated account of a key element of the early modern Atlantic world: the sugar trade linking Brazil, Portugal, and the Netherlands. The study seeks to illuminate the economic, social, political, and cultural dimensions of this commerce. Indeed, trade supported Brazil's rise as the world's leading producer of sugar and the first great plantation colony. Likewise, the sugar trade boosted the economy of Portugal and contributed to the upsurge of the Dutch market. The increasing availability of sugar transformed the European diet (along with some medical theories); and sweets came to play an important part in a variety of social practices. In the political arena, sugar and sugar-producing areas became strategic targets in global conflicts. Furthermore, as this trade expanded, it figured centrally in the evolution of a wide range of financial techniques, business strategies, and institutions of governance--which merchants exploited in order to make their transactions more efficient. The book provides a clear examination of these increasingly sophisticated practices, and shows how they had much in common with today's business

operations.

Our Immoral Soul Rabbi Nilton Bonder, 2014-02-11 Rabbi Bonder turns a few conventional ideas on their heads as he identifies the forces at play in individual, social, and spiritual transformation. Many people believe that obedience to the established moral order leads to the well-being of society as well as the salvation of their souls. On the contrary, says Bonder, the human spirit is nourished by the impulse to betray and transgress the ways of the past. Even the Bible legitimizes our God-given urge to disobey in order to evolve, grow, and transcend. It is this immoral soul of ours that impels us to do battle with God—and out of this clash, Bonder predicts, a new humanity will emerge. In the course of discussion, he examines a variety of intriguing issues touching on religion, science, and culture, including the findings of evolutionary psychology; the relation of body and soul; infidelity in marriage; the stereotype of Jew as traitor; sacrifice and redemption in Judaism and Christianity; and the Messiah as archetypal transgressor.
