Crystals, Jewels, Stones Isidore Kozminsky. 2012-05-01 This book provides an exhaustive and comprehensive study of the lore and science of precious and semi-precious stones and crystals. Crystals have commanded the attention of thinkers, artists, mystics, magicians, astrologers, alchemists, and all who appreciate beauty. Intimately and mysteriously formed in the fires of Earth's inner essence, what is the meaning of these exquisitely shaped and colored gifts of the sacred bounty of Nature. Occultist Isidore Kozminsky explores the use of precious and semi-precious stones in fields as far flung as healing and design, practical esoteric energy channeling and decoration, as well as in powerful magical talismans by which specific energies may be invoked, and as artistic objects of great beauty. Inspiring mythic tales are balanced with practical instructions and knowledge about the astrological sympathies of crystals and the energy work and healing properties associated with all the major categories of precious stones. From Plato to Leonardo da Vinci, Kozminsky traces crystal lore through the researches of astrologers, magi, alchemists and Hermetic philosophers--all of whom explored the use of stones in the Universal Order and Harmony of the natural world.

19 Big Secrets about Astro Gems Heinz Krug, Robert Thurston. 2013-11 19 Big Secrets About Astro Gems is a book about gem crystals in the context of an ancient system of astrology--the science of jyotish, which has existed in India since Vedic times, extending back at least 5,000 years. The authors, Dr. Heinz Krug and Dr. Robert Thurston, with a background in both the physical sciences and Sanskrit studies, have made an extensive study of jyotish and bring out that it correlates with cutting-edge studies in physics and genetics, and contains a highly practical technology for improving people's lives. The authors reveal a technology to utilize the discovery made by Fritz Popp and others that the physiology absorbs and emits light in very specific frequencies. They utilise jyotish, which can be translated as light, to distinguish those specific frequencies. So, gems and jyotish become the tools not only to illuminate the unfolding destinies of individuals, but also to change these destinies for the better. Gems are used to influence the frequencies of light coming into the bodies' quantum light fields, facilitating cell repair and allowing for higher levels of function. This is a practical manual more than a theoretical treatise. Krug and Thurston explain the difference between jyotish and western astrology, the degree of accuracy required to produce an individual birth chart, and the significance of an individual's physical location on Earth in influencing health and prosperity. They explain the relationship of individuals with our planet's quantum energy fields and how gems,

when properly selected, filter white sunlight, selecting those frequencies that balance the individual's energies with these fields. Very importantly, they bring out that lab-created gems, as they are far purer and are able to trigger laser light, are most valuable for use in this technology. They are also more affordable than mined gems, and obtained without cruelty or hardship, The authors touch on the details of correct gem selection and usage, including the pitfalls to avoid, and how to achieve the long-term goals of personal fulfillment and, ultimately, enlightenment.

The Healing Power of Gemstones Harish Johari.1996-09-01 Drawing on the ancient Hindu disciplines of Tantra and Ayurveda, as well as astrology and his own family tradition of gemology, Harish Johari offers practical methods to utilize the power stored in gems to maximize physical and psychological balance and well-being. The origins of gem healing can be traced to the earliest Sanskrit scriptures, in which gems are valued for their ability to absorb and transmit vital life forces. Ayurvedic healers, Indian astrologers, and Tantric alchemists all made use of gem formulas in their various practices. The author describes these in vivid detail as well as the attributes and powers of the sun and planets according to Hindu astrology and legend as they relate specifically to the use of gems. Here they play a critical role in enhancing the positive power of the planets and reducing their negative influence. Charts are included that determine the appropriate gems to be worn according to one's astrological sun sign and ascendant. Detailed instructions necessary for the creation of gem talismans and the rituals that use gems to obtain desired effects are also supplied by the author. The Healing Power of Gemstones, the most comprehensive survey of this subject available today, is both a practical guide to the chemical and subtle nature of gemstones and a traditional overview of their use throughout the ages.
