The End of Loneliness Benedict Wells.2018-03-08 The international bestseller, translated by the award-winning translator of *The Tobacconist*, Charlotte Collins Winner of the European Union Prize for Literature 'Original and captivating . . . its quiet charm in straightforward prose belies its sharp insight into the human condition' Stylist 'It is impossible to look away from it' The Guardian 'Dazzling' John Irving \*\*\*\*\* I've known Death a long time but now Death knows me. When their idyllic childhood is shattered by the sudden death of their parents, siblings Marty, Liz and Jules are sent to a bleak state boarding school. Once there, the orphans' lives change tracks: Marty throws himself into academic life; Liz is drawn to dark forms of escapism; and Jules transforms from a vivacious child to a withdrawn teenager. The only one who can bring him out of his shell is his mysterious classmate Alva, who hides a dark past of her own, but despite their obvious love for one another, the two leave school on separate paths. Years later, just as it seems that they can make amends for time wasted, the past catches up with them, and fate - or chance - will once again alter the course of a life. Told through the fractured lives of the siblings, *The End of Loneliness* is a heartfelt, enriching novel about loss and loneliness, family and love. \*\*\*\*\* 'This novel has been rightfully described as something of a masterpiece. One thing is for sure - it is not easily forgotten' Sunday Post 'A superbly insightful story' BookRiot

*The Love Revolution* Joyce Meyer.2009-09-22 Joyce Meyer is not satisfied with the status quo. She believes that we each need to become a revolutionary and practice love every day. And if Joyce has her way, the revolution will spread - person by person, house by house, town by town, until the old culture of selfishness and greed gives way to a new culture of concern for others. The book is a revolutionaries' manual, a hands-on primer for bringing the Golden Rule to life in the twenty-first

century. Meyer starts out by giving some stunning statistics. Right now...210,000 children will die this week because of poverty; 640 million children do not have adequate shelter; every day, 3,000 children are abducted into the sex-trafficking industry; every day, 16,000 children die from hunger-related causes. She goes on to say that although crisis is global, the solution is local. We can't solve the world's problems, but that isn't a reason to remain idle. LOVE REVOLUTION focuses on personal behavior on the local scale. It's not just a call to action; it is a call to being: being the person who goes out of your way to encourage someone who's out of hope; being the one who smiles at a stranger; being the one who is willing to do something for nothing. The paradox: when we do something for nothing, what we often get is something far greater.

*Teaching As A Reflective Practice* Ian Westbury, Stefan Hopmann, Kurt Riquarts. 2012-08-06 This volume presents a mix of translations of classical and modern papers from the German Didaktik tradition, newly prepared essays by German scholars and practitioners writing from within the tradition, and interpretive essays by U.S. scholars. It brings this tradition, which virtually dominated German curricular thought and teacher education until the 1960s when American curriculum theory entered Germany--and which is now experiencing a renaissance--to the English-speaking world, where it has been essentially unknown. The intent is to capture in one volume the core (at least) of the tradition of Didaktik and to communicate its potential relevance to English-language curricularists and teacher educators. It introduces a theoretical tradition which, although very different in almost every respect from those we know, offers a set of approaches that suggest ways of thinking about problems of reflection on curricular and teaching praxis (the core focus of the tradition) which the editors believe are accessible to North American readers--with appropriate translation. These ways of thinking and related praxis are very relevant to notions such as reflective teaching and the discourse on teachers as professionals. By raising the possibility that the new tradition of Didaktik can be highly suggestive for thinking through issues related to a number of central ideas within contemporary discourse--and for exploring the implications of these ideas for both teacher education and for a curriculum theory appropriate to these new contexts for theorizing, this book opens up a gold mine of theoretical and practical possibilities.

**Elites and Social Change** Heinrich Best.2009 This book offers a selection of papers from the conference which was held by the Sonderforschungsbereich (Collaborative Research Center) 580 in Dornburg near Jena, Germany. International experts discuss key issues of contemporary sociological research on the late socialist societies, their power and functional elites, and their experiences of transition. In its first section, the recruitment and careers of socialist and post-socialist administrative and economic elites is observed. In its second section, the focus is on elites as creators and creations of social and political change. This book is an excellent analysis showing that elites play the decisive role in the multi-layered process of societal transition, just as they provided the key to understanding the societal dynamics and mechanisms of state socialism before the collapse of the system
