Mark Mazower

Dark Continent Mark Mazower,2009-05-20 An unflinching and intelligent alternative history of the twentieth century that provides a provocative vision of Europe's past, present, and future. [A] splendid book. —The New York Times Book Review Dark Continent provides an alternative history of the twentieth century, one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take. Mark Mazower strips away myths that have comforted us since World War II, revealing Europe as an entity constantly engaged in a bloody project of self-invention. Here is a history not of inevitable victories and forward marches, but of narrow squeaks and unexpected twists, where townships boast a bronze of Mussolini on horseback one moment, only to melt it down and recast it as a pair of noble partisans the next.

The Anatomy of Fascism Robert O. Paxton,2007-12-18 What is fascism? By focusing on the concrete: what the fascists did, rather than what they said, the esteemed historian Robert O. Paxton answers this question. From the first violent uniformed bands beating up “enemies of the state,” through Mussolini’s rise to power, to Germany’s fascist radicalization in World War II, Paxton shows clearly why fascists came to power in some countries and not others, and explores whether fascism could exist outside the early-twentieth-century European setting in which it emerged. A deeply intelligent and very readable book. . . . Historical analysis at its best. -The Economist *The Anatomy of Fascism* will have a lasting impact on our understanding of modern European history, just as Paxton’s classic *Vichy France* redefined our vision of World War II. Based on a lifetime of research, this compelling and important book transforms our knowledge of fascism—“the major political innovation of the twentieth century, and the source of much of its pain.”

The Cambridge History of the Second World War: Volume 2, Politics and Ideology Richard Bosworth, Joseph Maiolo,2017-11-23 War is often described as an extension of politics by violent means. With contributions from twenty-eight eminent historians, Volume 2 of *The Cambridge History of the Second World War* examines the relationship between ideology and politics in the war's origins, dynamics and consequences. Part I examines the ideologies of the combatants and shows how the war can be understood as a struggle of words, ideas and values with the rival powers expressing divergent claims to justice and controlling news from the front in order to sustain moral and influence international opinion. Part II looks at politics from the perspective of pre-war and wartime diplomacy as well as examining the way in which neutrals were

treated and behaved. The volume concludes by assessing the impact of states, politics and ideology on the fate of individuals as occupied and liberated peoples, collaborators and resisters, and as British and French colonial subjects.

The Politics of War Trauma Jolande Withuis, Annet Mooij, 2010 This study compares the policies and attitudes toward the health consequences of World War II in eleven European countries: Austria, Belgium, Denmark, East Germany, France, Italy, Luxembourg, the Netherlands, Norway, Poland, and West Germany. It shows the remarkably asynchronous development in these countries of health care financing and treatment for war survivors, and of the patients' perception of their own health. Using an innovative and multidisciplinary approach, Withuis and Mooij analyze postwar health care in the context of the European political climate at that time.

Hitler's Empire Mark Mazower, 2013-03-07 The powerful, disturbing history of Nazi Europe by Mark Mazower, one of Britain's leading historians and bestselling author of *Dark Continent* and *Governing the World* *Hitler's Empire* charts the landscape of the Nazi imperial imagination - from those economists who dreamed of turning Europe into a huge market for German business, to Hitler's own plans for new transcontinental motorways passing over the ethnically cleansed Russian steppe, and earnest internal SS discussions of political theory, dictatorship and the rule of law. Above all, this chilling account shows what happened as these ideas met reality. After their early battlefield triumphs, the bankruptcy of the Nazis' political vision for Europe became all too clear: their allies bailed out, their New Order collapsed in military failure, and they left behind a continent corrupted by collaboration, impoverished by looting and exploitation, and grieving the victims of war and genocide. About the author: Mark Mazower is Ira D. Wallach Professor of World Order Studies and Professor of History Professor of History at Columbia University. He is the author of *Hitler's Greece: The Experience of Occupation, 1941-44*, *Dark Continent: Europe's Twentieth Century*, *The Balkans: A Short History* (which won the Wolfson Prize for History), *Salonica: City of Ghosts* (which won both the Duff Cooper Prize and the Runciman Award) and *Governing the World: The History of an Idea*. He has also taught at Birkbeck College, University of London, Sussex University and Princeton. He lives in New York.

Treatment of Male Infertility J. Bain, Wolf-Bernhard Schill, L. Schwarzstein, 2012-12-06 Our insight into the mechanisms of the physiology of reproduction has experienced a swift and constant development these last few years. The advent of more sophisticated diagnostic methods and their relatively easy clinical application allow for the incorporation of that knowledge into the evaluation of the infertile couple. These facts, together with an obvious change in social psychology, have facilitated the development of different specialities dealing with the problems of infertility. It is now possible in medical centers all around the world to undertake a better disposition of the infertile husband to look for advice, to be studied, and treated. Confronted with this situation we are still unable to offer specific therapy in most cases; however, empirically based therapy

abounds. Advances in therapy have not kept pace with our increased physiological knowledge and improved diagnostic techniques. Pathophysiological mechanisms and etiological factors in male infertility are largely unknown. This has significantly hampered both clinical evaluation and advances in treatment allowing for frequent non scientific therapeutic incursions into the armamentarium of the andrologist. Several factors have given birth to therapeutic fashions, which are bound to survive as long as this state of lack of knowledge continues. For example, we may ask whether the treatment of varicocele constitutes a fashion? Though we accept the treatment of varicocele as the best available treatment of male infertility, we do not know its mechanism of action and so we cannot predict a therapeutic result.

The Routledge Companion to Fascism and the Far Right Peter Davies, Derek Lynch, 2005-08-16 The Routledge Companion to Fascism and the Far Right is an engaging and accessible guide to the origins of fascism, the main facets of the ideology and the reality of fascist government around the world. In a clear and simple manner, this book illustrates the main features of the subject using chronologies, maps, glossaries and biographies of key individuals. As well as the key examples of Hitler's Germany and Mussolini's Italy, this book also draws on extreme right-wing movements in Latin America, Eastern Europe and the Far East. In a series of original essays, the authors explain the complex topics including: the roots of fascism fascist ideology fascism in government and opposition nation and race in fascism fascism and society fascism and economics fascism and diplomacy.

Memory and Punishment Emanuela Fronza, 2018-02-27 This book examines the criminalisation of denials of genocide and of other mass atrocities in Europe and discusses the implications of protecting institutional historical memory through criminal law. The analysis highlights the tensions with free speech, investigating the relationship between criminal law and historical memory. The book paves the way for a broader discussion about fake news, 'post-truth' scenarios, and free expression in a digital world. The author underscores the need to protect well-founded factual records from the dangers of misinformation. Historical denialism and the related jurisprudence represent a key step in exploring this complex field. The book combines an interdisciplinary approach with criminal law methodology. It is primarily aimed at academics, practitioners and others who wish to deepen their understanding of historical denialism, remembrance laws, 'speech crimes' and freedom of expression. Emanuela Fronza is Senior Research Fellow in Criminal Law and Lecturer in International and European Criminal Law at the School of Law, University of Bologna. She is a Principal Investigator within the EU research consortium Memory Laws in European and Comparative Perspectives funded by HERA (Humanities in the European Research Area).

My Opposition Friedrich Kellner,2018-01-25 This is a truly unique account of Nazi Germany at war and of one man's struggle against totalitarianism. A mid-level official in a provincial town, Friedrich Kellner kept a secret diary from 1939 to 1945, risking his life to record Germany's path to dictatorship and genocide and to protest his countrymen's complicity in the regime's brutalities. Just one month into the war he is aware that Jews are marked for extermination and later records how soldiers on leave spoke openly about the mass murder of Jews and the murder of POWs; he also documents the Gestapo's merciless rule at home from euthanasia campaigns against the handicapped and mentally ill to the execution of anyone found listening to foreign broadcasts. This essential testimony of everyday life under the Third Reich is accompanied by a foreword by Alan Steinweis and the remarkable story of how the diary was brought to light by Robert Scott Kellner, Friedrich's grandson.

Portrait of a Jew Albert Memmi,2019-08-15 In this memoir and extended meditation on Jewish identity and anti-Semitic stereotypes written in France in the early 1960s, Albert Memmi paints a portrait of himself as a secular Jew. The book has been compared to Rousseau's *Confessions* because of its meticulous self-examination. Written only 15 years after the end of the Nazi occupation and just over a decade after the establishment of the State of Israel, *Portrait of a Jew* is a snapshot in time as well as a work of psychology and sociology. It both questions prevailing myths about the Jews of his time and describes the reality Memmi sees. Its sequel is *The Liberation of the Jew*. *Portrait of a Jew* and *The Liberation of the Jew* "form a whole: the beginning and the outcome of a passionate quest. The first offers a diagnosis, the second a remedy. [...] Both are written with moving sincerity [...] As a personal document, Memmi's introspective study is valuable. Thought-provoking and disturbing in the best sense of the word, it allows us to look into the tormented mind and soul of a distinguished Jewish writer who aspires to live honestly while belonging simultaneously to two worlds. His doubts and affirmations carry the weight of testimony." — Elie Wiesel, *The New York Times* "*Portrait of a Jew* and *The Liberation of the Jew* [are] filled with a Jewish existentialism marked by quest for identity and self-affirmation far more psychological and sociological than traditionally religious." — Richard Locke, *The New York Times* "A bitter, plangent autobiography written in dark colors and minor chords. It is purgative and painful reading, for it angers, outrages, and reduces the reader to lonely verbal combats. But when the din and dust has died away, the questions and statements are still there asserting themselves." — Henrietta Buckmaster, *The Christian Science Monitor*

Martin Bormann, Nazi in Exile Paul Manning,1981

A Gravity's Rainbow Companion Steven C. Weisenburger,2011-03-15 Adding some 20 percent to the original content, this is a completely updated edition of Steven Weisenburger's indispensable guide to Thomas Pynchon's *Gravity's Rainbow*. Weisenburger takes the reader page by page, often line by line, through the welter of historical references, scientific data, cultural fragments, anthropological research, jokes, and puns around which Pynchon wove his story. Weisenburger fully

annotates Pynchon's use of languages ranging from Russian and Hebrew to such subdialects of English as 1940s street talk, drug lingo, and military slang as well as the more obscure terminology of black magic, Rosicrucianism, and Pavlovian psychology. The Companion also reveals the underlying organization of Gravity's Rainbow--how the book's myriad references form patterns of meaning and structure that have eluded both admirers and critics of the novel. The Companion is keyed to the pages of the principal American editions of Gravity's Rainbow: Viking/Penguin (1973), Bantam (1974), and the special, repaginated Penguin paperback (2000) honoring the novel as one of twenty Great Books of the Twentieth Century.

A Fascist Century R. Griffin, 2008-08-20 Ten essays on the nature of fascism by a leading scholar in the field, focusing on how to understand and apply fascist ideology to various movements since the twentieth century, Mussolini's prophesied 'fascist century'. Includes studies of fascism's attempted temporal revolution; Nazism as extended case-study; and fascism's postwar evolution.

To Walk with the Devil Gregor Joseph Kranjc, 2013-01-01 Examining archival material and post-war scholarly and popular literature, Kranjc describes the often sharp divide between Communist-era interpretations of collaboration and those of their émigré anti-Communist opponents.

The Rise of the Far Right in Europe Gabriella Lazaridis, Giovanna Campani, Annie Benveniste, 2016-07-04 The results of the last European Elections of 2014 confirmed the rise of right and far right 'populist' parties across the EU. The success of a range of parties, such as Denmark's Dansk Folkeparti, Slovenia's Slovenska demokratska stranka, France's Front National, Greece's Golden Dawn, the United Kingdom Independence Party, Beppe Grillo's Five Star Movement in Italy and the Austrian FPÖ, has been perceived as a political wave which is transforming the face of the European Parliament, and challenging at some level the hegemony of the 'big four' well-established European political forces that lead the Strasbourg's assembly: the ALDE, EPP, S&D and Greens/ALE. As 'populism' has become a major issue in many EU countries, this collection aims to provide a critical understanding of related trends and recommend ways in which they can be challenged both in policy and praxis, by using the gender-race-ethnicity-sexual orientation intersectionality approach. This international volume combines extensive transnational comparative data analysis, as well as research at discursive, attitudinal and behavioural levels.

Behind the Dictators Leo Herbert Lehmann, 2011-05-01

The Holocaust Denial Gill Seidel, 1986 Describes the events of the Holocaust, and present-day Holocaust denial, as part of the continuing history of antisemitism. Analyzes manifestations of Holocaust denial and neo-Nazism in Great Britain, France, West Germany, and the USA, giving details of specific persons and organizations and their international links (e.g. Arthur Butz, William Grimstad, Lenni Brenner, Robert Faurisson, David Irving, GRECE, the Institute for Historical Review). also discusses anti-Zionism as a form of antisemitism.

Against the Fascist Creep Alexander Reid Ross, 2017 When Dylann Roof murdered nine black parishioners in a

Charleston church, narratives of lone wolves and Confederate flags masked the organizations that inspired Roof and their connections to politicians at local, state and federal levels. Trace the connections further back and you find darker levels of fascism. Fascism is not used simply as an epithet here. A terrifying tour of the history and influence of neo-fascists, Against the Fascist Creep maps the connections and names names, showing how infiltration is a conscious program for nationalist and neo-Nazi groups.
