Indian Air Force in India's National Defence 2032 .2014-06-15 The Indian Air Force (IAF), from a humble beginning in 1932 with four Wapiti aircraft, six Indian officers and 22 hawai sepoy, has traversed a long journey and crossed noteworthy milestones to become the fourth largest air force in the world. In the past 81 years, while facing several limitations/challenges, the IAF has met all the national defence requirements, and made several strategic contributions. The 1948 Kashmir airlift, Tangail paradrop, heli-bridging in East Pakistan and many other achievements are historic examples of its sterling performance. The only war independent India has lost was the one in which the IAF was not employed in a combat role. With growing economic interests and national aspirations, expanding interests well beyond our territorial boundaries and prevailing internal security challenges, India's national defence requirements are also increasing. Reliance of sovereign nation-states on aerospace power is essentially growing. The first Gulf War was a monumental turning point in the war-time employment of aerospace power. Ever since, the significance of aerospace power in war, crisis and peace-time has been gaining ascendancy. Kosovo and Libya are the two pertinent examples of the allies virtually relying on aerospace power, without committing any soldiers on the ground. Scrutiny of the emerging global and national trends suggests that employment of aerospace assets, as well as the nation's expectation from the IAF, will continue to rise. Alongside, there is an unplanned fall in flying platforms, weapon systems and pilot strength of the IAF. This study is an attempt to analyse the history of the IAF in war as well as 'other than war operations'; to appreciate the emerging trends in geopolitics, aerospace technology and doctrine; and to identify the likely challenges the IAF would be facing in the next two decades and beyond. A roadmap for transformation of the national security framework, the indigenous aerospace industry and the IAF has also been suggested.

India after the 1857 Revolt M. Christhu Doss.2022-11-23 Weaving together the varied and complex strands of anti-colonial nationalism into one compact narrative, Christhu Doss takes an incisive look at the deeper and wider historical process of decolonization in India. In India after the 1857 Revolt, Doss brings together some of the most cutting-edge thoughts by challenging the cultural project of colonialism and critically examining the multi-dimensional aspects of decolonization during and after the 1857 revolt. He demonstrates that the deep-rooted popular discontent among the Indian masses followed by the revolt generated a distinctive form of decolonization movement—redemptive nationalism that

challenged both the supremacy of the British Raj and the cultural imperatives of the controversial proselytizing missionary agencies. Doss argues that the quests for decolonization (of mind) that got triggered by the revolt were further intensified by the Indocentric national education; the historic Chicago discourse of Swami Vivekananda; the nonviolent anti-colonial struggles of Mahatma Gandhi; the seditious political activism displayed by the Western Gandhian missionary satyagrahis; and the de-Westernization endeavours of the sandwiched Indian Christian nationalists. A compelling read for historians, political scientists and sociologists, it is refreshingly an indispensable guide to all those who are interested in anticolonial struggles and decolonization movements worldwide.

Kautilya's Arthashastra Kajari Kamal.2022-08-31 This book studies India's foreign policy through the lens of Kautilya's Arthashastra, an ancient Indian treatise on state and statecraft. It assesses the extent of influence of the foundational elements/core beliefs extrapolated from the Arthashastra on the nation's international behaviour to understand the grand strategic preferences of independent India. The volume examines the basic realist and cultural underpinnings of statecraft such as Yogakshema (Political End Goal), Saptanga (Seven Elements of State), Sadgunyas (Six Measures of Foreign Policy), Rajdharma (Duty of a King), Rajamandala (Circle of kings), and Dharma (Order), mooted in the Arthashastra which have withstood the test of time and space. It evaluates the continuity of strategic cultural traits under the themes of nonalignment, bilateral relations with China and Pakistan, and nuclear policy. An important intervention in the study of India's foreign policy, the book will be useful for scholars and researchers of foreign policy, defence policy, international relations, defence and strategic studies, political science, Indian political thought, political philosophy, classical literature, and South Asian studies.

A Tale of Three Lawyers N.C. Beohar.2020-04-22 A Tale of Three Lawyers is an analytical and objective study of three colossal leaders of an era in which one struggled for the independence of the country, the second struggled for the creation of his new country while the third struggled for the political rehabilitation of the deprived classes. Three different objectives motivated Mahatma Mohandas Karamchand Gandhi, Quaid-e-Azam Mohammad Ali Jinnah and Bharat Ratna Dr. Bhimrao Ramji Ambedkar. They employed three different means and methods and, therefore, it is no surprise that they brought about

three distinct achievements, delivering three different legacies to their succeeding generations. The author attempts to present to the readers a dispassionate assessment of these three mass leaders without an intention to compare and contrast any of the three great leaders' advantages or disadvantages.

Patching Development Rajesh Veeraraghavan.2021-12-16 Diving into an original and unusually positive case study from India, Patching Development shows how development programs can be designed to work. How can development programs deliver benefits to marginalized citizens in ways that expand their rights and freedoms? Political will and good policy design are critical but often insufficient due to resistance from entrenched local power systems. In Patching Development, Rajesh Veeraraghavan presents an ethnography of one of the largest development programs in the world, the Indian National Rural Employment Guarantee Act (NREGA), and examines NREGA's implementation in the South Indian state of Andhra Pradesh. He finds that the local system of power is extremely difficult to transform, not because of inertia, but because of coercive counter strategy from actors at the last mile and their ability to exploit information asymmetries. Upper-level NREGA bureaucrats in Andhra Pradesh do not possess the capacity to change the power axis through direct confrontation with local elites, but instead have relied on a continuous series of responses that react to local implementation and information, a process of patching development. Patching development is a top-down, fine-grained, iterative socio-technical process that makes local information about implementation visible through technology and enlists participation from marginalized citizens through social audits. These processes are neither neat nor orderly and have led to a contentious sphere where the exercise of power over documents, institutions and technology is intricate, fluid and highly situated. A highly original account with global significance, this book casts new light on the challenges and benefits of using information and technology in novel ways to implement development programs.

Governments' Responses to Climate Change: Selected Examples From Asia Pacific Nur Azha Putra, Eulalia Han.2013-11-29 This multidisciplinary volume articulates the current and potential public policy discourse between energy security and climate change in the Asia-Pacific region, and the efforts taken to address global warming. This volume is unique as it analyses two important issues climate change and energy security through the lens of geopolitics at the intersection of energy security. It elaborates on the current and potential steps taken by state and non-state actors, as well as the policy innovations and diplomatic efforts (bilateral and multilateral, including regional) that states are pursuing. This Brief stems from the assumption that its audience is aware of the consequences of climate change, and will therefore, only look at the issues identified. It provides a useful read and reference for a wide-range of scholars, policymakers, researchers and post-graduate students.

Sanathana Sarathi English Volume 07 (2012 - 2021) Sri Sathya Sai Media Centre.2022-11-12 Started in 1958, Sanathana Sarathi is a monthly magazine devoted to Sathya (Truth), Dharma (Righteousness), Shanti (Peace) and Prema (Love) - the

four cardinal principles of Bhagawan Baba's philosophy. It is published from Prasanthi Nilayam (the Abode of Highest Peace) and acts as a mouthpiece of Baba's Ashram as it speaks of the important events that take place in His sacred Abode, besides carrying Divine Messages conveyed through Divine Discourses of Bhagawan Sri Sathya Sai Baba. The word meaning of Sanathana Sarathi is the 'Eternal Charioteer'. It signifies the presence of the Lord in every being as the atma guiding their lives like a charioteer. It implies that he who places his life, the body being likened to a chariot, in an attitude of surrender in the hands of the Lord, will be taken care of by the Lord even as a charioteer would take the occupant of his chariot safely to its destination. The magazine is an instrument to disseminate spiritual knowledge for the moral, physical and mental uplift of humanity without any discrimination as the subject matter discussed therein is always of common interest and of universal appeal. The fifteen Vahinis - streams of sacredness - known as the Vahini Series comprising annotation and interpretation of the Upanishads and other scriptures, Itihasas like the Ramayana, the Bhagavatha and the Mahabharata, and authentic explanations on Dhyana, Dharma, Prema, etc., have been serially published in this magazine as and when they emanated from the Divine pen of Bhagawan Baba. This magazine is published in almost all Indian languages, English and Telugu from Prasanthi Nilayam and others from respective regions. Every year Sanathana Sarathi comes out with a special issue in November commemorating the Divine Birthday. The English and Telugu magazines are posted on the 10th and 23rd respectively, of every month, from Prasanthi Nilayam. This magazine has wide, ever increasing circulation in India as well as abroad, as the study of it brings the reader closer to the philosophy of the Avatar in simple understandable language THUS SPAKE SAI... Discoursing during the launch of Sanathana Sarathi... From this day, our Sanathana Sarathi will lead to victory the cohorts of truth - the Vedas, the Sastras and similar scriptures of all faiths, against the forces of the ego such as injustice, falsehood, immorality and cruelty. This is the reason why it has emerged. This Sarathi will fight in order to establish world prosperity. It is bound to sound the paeon of triumph when universal Ananda is achieved.

India at the Global High Table Teresita C. Schaffer,Howard B. Schaffer.2016-04-05 An integrated picture of India's global vision, its foreign policy, and the negotiating practices that link the two. In recent decades, India has grown as a global power, and has been able to pursue its own goals in its own way. Negotiating for India's Global Role gives an insightful and integrated analysis of India's ability to manage its evolving role. Former ambassadors Teresita and Howard Schaffer shine a light on the country's strategic vision, foreign policy, and the negotiating behavior that links the two. The four concepts

woven throughout the book offer an exploration of India today: its exceptionalism; nonalignment and the drive for “strategic autonomy;” determination to maintain regional primacy; and, more recently, its surging economy. With a specific focus on India’s stellar negotiating practice, *Negotiating for India's Global Role* is a unique, comprehensive understanding of India as an emerging international power player, and the choices it will face between its classic view of strategic autonomy and the desirability of finding partners in the fast-evolving world.

Reflecting on India’s Development NILERD.2018-09-10 The book assesses the development experience by reflecting on a number of aspects, such as growth in relation to employment, regional imbalances and rural-urban distribution. Further, it examines educational attainment and human capital formation issues in the context of the skill shortages the country is facing, and analyses social inequality, including gender, and evaluates a number of empowerment strategies. Lastly, it critically assesses the effectiveness of health services by examining case studies of on-going sanitation, family planning and reproductive health programmes. Presenting both quantitative and qualitative approaches, the papers utilise rare databases that are usually not available in the public domain to reflect on the country’s development experience. The book revisits many development concerns, particularly inclusiveness aspects, through an in-depth analysis. It covers three major areas related to (a) employment, (b) education and skill and (c) social concerns and issues related to health services. The book will be an important resource not only for researchers but also for policy makers and those involved in capacity development in these areas.

Wicked Valuations Michael McDermott. 2018-07-16 Traditional valuation approaches are increasingly recognised as being insufficient to address the wicked valuation problems of the diverse peoples and groups that inhabit the globe from north, south, east to west. This book demonstrates the limitations of science and, in particular economics, as the foundation on which valuations are traditionally based. It demonstrates the importance of and provides justification for the personal, cultural values and norms which underpin our assessment of value, and the fact that these vary across the world. In *Wicked Valuations* Michael McDermott develops a means of engaging with highly complex valuation problems. His autoethnography provides a lens to draw on knowledge and experience from his 40 years in land valuation in Africa and the Asia-Pacific, while documentary analysis is used to draw in the views of other valuation practitioners and scholars who are becoming increasingly aware of the need to develop ways to adapt land valuation processes to the complexity of our contemporary landscapes.

Soulful Corporations Shashank Shah, V.E. Ramamoorthy. 2013-09-02 In the light of multiple corporate debacles, financial crises and environmental disasters across the globe, the need for corporate goals to transition from simply maximising shareholder wealth to optimising stakeholder welfare is being echoed in various quarters. This book makes a distinct contribution by looking at Corporate Social Responsibility (CSR) from a values-based perspective with a focus on providing a balance between corporate success and social well-being. The book emphasizes that corporations need to redefine their purposes to co-create long-term, sustainable and win-win solutions for multiple stakeholders through mutually-fulfilling and value-adding collaborative efforts. Through the ideal of 'A Soulful Corporation', the book proposes a new story where corporations, as associations of individuals, can identify their 'collective spirits' in terms of environmentally-aware, socially-inclusive and financially-rewarding missions. Some of the unique features of the book include: · A detailed study of the evolution of CSR from the ancient to contemporary times · Insights gained through empirical research and personal interviews with over 100 industry captains, CEOs, MDs and heads of the CSR function across companies and industries · Case studies on CSR practices and processes in leading Indian companies including the Tata Group, TVS Motor, HUL, Wipro, L&T, Bharat Petroleum, HDFC Bank, Birla Group, Reliance Industries and others. · Cases on unique social welfare projects in

the areas of education, healthcare and drinking water supply · A 'Society and Local Community Welfare Framework' and a '12-point Agenda for Affirmative Action' that propose policy recommendations and provide corporations with a roadmap for their CSR journey in the light of the mandatory CSR spending introduced by the Government of India. The book has relevance to multiple stakeholders: students, academics, CSR researchers, policy-makers, industry captains, business managers and entrepreneurs.

Writer, Rebel, Soldier, Lover Akshaya Mukul.2022-07-24 An outstanding literary biography AMITAV GHOSH Mukul writes beautifully, and brings to life a man who has often been misunderstood BENJAMIN MOSER This book is a remarkable contribution to the world of Indian letters: ANNIE ZAIDI Sachchidanand Hirananda Vatsyayan 'Agyeya' is unarguably one of the most remarkable figures of Indian literature. From his revolutionary youth to acquiring the mantle of a (highly controversial) patron saint of Hindi literature, Agyeya's turbulent life also tells a history of the Hindi literary world and of a new nation-spanning as it does two world wars, Independence and Partition, and the building and fraying of the Nehruvian state. Akshaya Mukul's comprehensive and unflinching biography is a journey into Agyeya's public, private and secret lives. Based on never-seen-before archival material-including a mammoth trove of private papers, documents of the CIA-funded Congress for Cultural Freedom and colonial records of his years in jail-the book delves deep into the life of the nonconformist poet-novelist. Mukul reveals Agyeya's revolutionary life and bomb-making skills, his CIA connection, a secret lover, his intense relationship with a first cousin, the trajectory of his political positions, from following M.N. Roy to exploring issues dear to the Hindu right, and much more. Along the way, we get a rare peek into the factionalism and pettiness of the Hindi literary world of the twentieth century, and the wondrous and grand debates which characterized that milieu. Writer, Rebel, Soldier, Lover features a formidable cast of characters: from writers like Premchand, Phanishwarnath Renu, Raja Rao, Mulk Raj Anand and Josephine Miles to Prime Minister Jawaharlal Nehru, revolutionary Chandra Shekhar Azad and actor Balraj Sahni. And its landscapes stretch from British jails, an intellectually robust Allahabad and modern-day Delhi to monasteries in Europe, the homes of Agyeya's friends in the Himalayas and universities in the US. This book is a magnificent examination of Agyeya's civilizational enterprise. Ambitious and scholarly, Writer, Rebel, Soldier, Lover is also an unputdownable, whirlwind of a read.

Maharashtra Human Development Report 2012: TOWARDS INCLUSIVE HUMAN DEVELOPMENT Jayachandran Usha, Kurian, Oommen C, Suryanarayana M. H., D. P. Singh, Anuja Jayaraman. 2014 The present Maharashtra Human Development Report (MHDR) 2012 keeps the spirit of the Eleventh and Twelfth Five Year Plans of 'faster, sustainable and more inclusive growth' at the core of its analysis. MHDR 2002 was the state's first effort in focusing on the prevailing human development scenario in the spheres of growth, poverty, equity, education, health and nutrition. Since then the state has come a long way in the last decade, achieving near-complete enrolments at the primary school level, a wide coverage of health infrastructure and initiation of new incentives, to name a few. The 2012 Report goes beyond being just a situation-analysis of the current human development scenario to a more analytical exercise in facilitating a deeper understanding of what and where the inequalities are, how capabilities can be enhanced, what has been the progress, where the shortfalls are and where the thrust of efforts to promote human development should be. Recognizing the centrality of inclusive growth processes to human development, the need to study human development outcomes disaggregated by gender, rural-urban, regional and social groups is the focal point of this Report. The outcome would be the identification of specific human development goals, evidence-based policy recommendations and directions to how those excluded from the growth and human development processes can be included to reap the benefits of the same.

The Temple Road Towards a Great India Marta Kudelska, Dorota Kamińska-Jones, Agnieszka Staszczyk, Agata Świerzowska. 2019-11-30 This book presents an analysis of the foundations organised by the Birla family in India. Several generations were involved in the renovation and establishment of sanctuaries, temples and other sacral buildings. As a result, between 1933 and 1998, nineteen Birla Mandirs were established, mainly in northern and central India. All the temples have the capacity to surprise with their various decorative motifs, not seen in other places, which – apart from their aesthetic function – above all bear important symbolic content. Therefore, is it possible to treat the Birla Mandirs as a specific medium – the carrier of a particular message that is not only religious, but with a significance that permeates other layers of social and political discourse. This message, as the authors of the book claim, have a bearing on the socio-political thought of India – supported by the creation and propagation of ideas related to identity and a national art. It also conveys the idea of hierarchical Hindu inclusivism which, although considering all religions as equal, treats Hinduism in a unique way – seeing within it the most perfect form of religion, giving man the opportunity to learn the highest truth. The book also examines whether the temples founded by the Birla family and the religious activities undertaken therein apply the concept of "inventing" tradition, and whether traditions created (or "modernised") in contemporary times are a way of enhancing the appeal of the message conveyed from temple to society. "The Vastness of Culture" is a series of publications presenting

cultural studies and emphasizing the role of comparative research and analyses that reveal similarities, differences and intercultural influences. In our publications, cultures and civilizations are in a state of constant flux, engaging in dialogue, creating new understandings, competing for meaning under the influence of global content, without any clear boundaries, but with a vastness that forces questions to be raised.

Understanding Kashmir and Kashmiris Christopher Snedden.2015-09-15 In 1846, the British created the state of Jammu and Kashmir (J&K) - popularly called Kashmir - and then quickly sold this prized region to the wily and powerful Raja, Gulab Singh. Intriguingly, had they retained it, the India-Pakistan dispute over possession of the state may never have arisen, but Britain's concerns lay elsewhere -- expansionist Russia, beguiling Tibet and unstable China circling J&K -- and their agents played the 'Great Game' in Afghanistan and 'Turkistan'. Snedden contextualizes the geo-strategic and historical circumstances surrounding the British decision to relinquish prestigious 'Kashmir', and explains how they and four Dogra maharajas consolidated and controlled J&K subsequently. He details what comprised this diverse princely state with distant borders and disunified peoples and explains the Maharaja of J&K's controversial accession to India on 26 October 1947 - and its unintended consequences. Snedden weaves a compelling narrative that frames the Kashmir dispute, explains why it continues, and assesses what it means politically and administratively for the divided peoples of J&K and their undecided futures.

India, China and the Strategic Himalayas Sangeeta Thapliyal.2023-10-20 This book analyses strategic discourse on the Himalayas from the perspective of India's interests. The Case for Marriage Linda Waite,Maggie Gallagher.2002-03-05 A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist

Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of The Book of Virtues "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- The Wall Street Journal www.broadwaybooks.com
